2017 - 0581-0093  
Q: 15 Breakout Listing Changes

\* The JoC increased the number of respondents from 2,489 to 10,211 respondents (an increase of 7,722 respondents), resulting in an increase of 2,553 burden hours. This increase was an error based on the expected respondent increase due to the broadening of the range of organic commodities eligible for exemption allowing for expansion from "100% organic" to "organic" and inclusion of split operations. The over-estimate is decreased in this submission based on feedback from the R&P programs on actual participation.
