

**Request for Nonsubstantive Change to the
2020 Census Post-Enumeration Survey (PES) Initial Housing Follow-Up (IHUFU) Field
Operation
OMB Control No. 0607-1010
U.S. Department of Commerce
U.S. Census Bureau**

Purpose

As in previous censuses, the Post-Enumeration Survey (PES) for the 2020 Census will be conducted to provide estimates of census net coverage and components of census coverage for housing units and people living in housing units for the United States and Puerto Rico, excluding remote Alaska. Group quarters (such as college dormitories and correctional facilities) are out of scope. The Initial Housing Unit Follow-Up field operation seeks to answer questions needed to resolve the match or enumeration status of addresses identified in the Initial Housing Unit matching operation.

This nonsubstantive change is to notify the public of proposed schedule changes, procedures for collecting information changes and estimate of hour of burden changes to the approved information collection for the 2020 Census Post-Enumeration Survey (PES) Initial Housing Follow-Up (IHUFU) field operation. It also gives the public an additional 30 days to comment on the proposed schedule change.

Background

The current 2020 Census Post-Enumeration Survey (PES) Initial Housing Follow-Up (IHUFU) Field Operation OMB collection was approved on 11/27/2019 for three years with an expiration date of 11/30/2022.

This nonsubstantive change is a request to inform the public of changes in schedule, procedures for collecting information, and estimate of hour of burden, associated with the notice for public comment, titled “**2020 Census Post-Enumeration Survey Initial and Final Housing Unit Follow-Up,**” published in the **Federal Register** on April 17, 2019 (Vol. 84, No. 74, pp. 16000-16002) and to allow the public to comment on the propose changes.

There are no substantive changes to the program resulting from these changes.

Burden

The total estimated respondent burden for the IHUFU operation increased from approximately 17,250 hours to 27,333 hours.

 BILLING CODE 3412-89-P

DEPARTMENT OF COMMERCE

U.S. Census Bureau

Notice of Correction; 2020 Census Post-Enumeration Survey Initial and Final Housing Unit Follow-Up

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice; correction; Notice of changes to the 2020 Census Post-Enumeration Survey (PES) Initial Housing Follow-Up (IHUFU) field operation.

SUMMARY: This document constitutes a notice of intent to provide a 30-day comment period on schedule changes, procedures for collecting information changes and estimate of hour of burden changes to the approved information collection for the 2020 Census Post-Enumeration Survey (PES) Initial Housing Follow-Up (IHUFU) field operation. The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other federal agencies to take this opportunity to comment on proposed and/or continuing information

collections, as required by the Paperwork Reduction Act of 1995. **SUPPLEMENTARY INFORMATION:** The U.S. Census Bureau is issuing this notice to inform the public of changes in schedule, procedures for collecting information, and estimate of hour of burden, associated with the notice for public comment, titled ‘‘2020 Census Post-Enumeration Survey Initial and Final Housing Unit Follow-Up,’’ published in the **Federal Register** on April 17, 2019 (Vol. 84, No. 74, pp. 16000-16002).

The following highlights the proposed revisions and the reasons:

1. The PES IHUFU and IHUFU Quality Control operations will occur July 23, 2020, through September 21, 2020, instead of May 6, 2020, through June 19, 2020, because of COVID-19 restrictions.
2. Procedure changes for collecting information for the PES IHUFU field operation are proposed to minimize personal contact because of COVID-19. Originally, listers were instructed to contact a household member (or a proxy or by observation as a last resort) to complete IHUFU form (D-1303) at each housing unit (HU) selected for follow-up. Now listers are allowed to complete the form by observation first before attempting to interview by telephone or by a personal visit. For addresses that cannot be confirmed by observation, a letter will be sent to the addresses, along with the confidentiality notice, inviting respondents to call the lister to set up a telephone interview. If after five days

the IHUFU case cannot be completed by observation or the respondent has not followed up based on the letter, then a personal visit is required. If the respondent or the lister does not feel comfortable conducting the interview in person at the door, then the lister may ask for the phone number and conduct a telephone interview.

3. The estimated workload is now approximately 253,800 (172,000 original estimate) HUs for PES IHUFU in selected basic collection units (BCUs) in the 50 states and the District of Columbia, and 31,400 (8,000 original estimate) HUs for IHUFU in Puerto Rico. The Census Bureau originally underestimated the workload for 2020 Puerto Rico IHUFU, but the revised numbers reported in this document reflect the correct estimated workload.

From the IHUFU workload, we will select a 15 percent sample of approximately 38,070 (25,800 original estimate) HUs from all BCUs in the 50 states and District of Columbia, and 4,710 (1,200 original estimate) HUs from all BCUs in Puerto Rico for the IHUFU QC operation. To calculate the estimated burden hours, we assumed a theoretical 100 percent response rate and a completion time of five minutes per case. The total estimated respondent burden for the IHUFU operation is approximately 27,333 (17,250) hours. However, since the Collection of Information has changed to primarily observation, the actual total respondent burden is expected to be less.

| Operation | Estimated number of respondents | Estimated time per response (in minutes) | Total burden hours |
|--|---------------------------------|--|--------------------|
| 2020 Census Post-Enumeration Survey—Original Estimate | | | |
| Initial Housing Unit Follow-Up (stateside) | 172,000 | 5 | 14,333 |
| Initial Housing Unit Follow-Up (PR) | 8,000 | 5 | 667 |
| Initial Housing Unit Follow-Up Quality Control (stateside) | 25,800 | 5 | 2,150 |
| Initial Housing Unit Follow-Up Quality Control (PR) | 1,200 | 5 | 100 |

| Operation | Estimated number of respondents | Estimated time per response (in minutes) | Total burden hours |
|--|---------------------------------|--|--------------------|
| Total | 207,000 respondents | 5 | 17,250 hours |
| 2020 Census Post-Enumeration Survey—Revised Estimate | | | |
| Initial Housing Unit Follow-Up (stateside) | 253,800 | 5 | 21,150 |
| Initial Housing Unit Follow-Up (PR) | 31,400 | 5 | 2,617 |
| Initial Housing Unit Follow-up Quality Control (stateside) | 38,070 | 5 | 3,173 |
| Initial Housing Unit Follow-Up Quality Control (PR) | 4,710 | 5 | 393 |
| Total | 327,980 | 5 | 27,333 |

There are no other proposed changes to the 2020 Census PES IHUFU field operation.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website: www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0607–1010.

BILLING CODE 3510–07–P

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Expenditures Incurred by Recipients of Biomedical Research and Development Awards From the National Institutes of Health (NIH)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing

information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on April 20, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: Bureau of Economic Analysis (BEA), Commerce.

Title: Expenditures Incurred by Recipients of Biomedical Research and Development Awards from the National Institutes of Health (NIH).

OMB Control Number: 0608–0069.

Form Number(s): None.

Type of Request: Regular submission, extension of a current information collection.

Number of Respondents: 150.

Average Hours per Response: 16 hours is the average but may vary among respondents because of differences in institution structure, size, and complexity.

Burden Hours: 2,400 hours.

Needs and Uses: The survey obtains the distribution of expenditures incurred by recipients of biomedical research awards from the National Institutes of Health (NIH) and will provide information on how the NIH award amounts are expended across several major categories. This information, along with wage and price data from other published sources, will be used to generate the Biomedical Research and Development Price Index (BRDPI). The Bureau of Economic Analysis (BEA) of the Department of Commerce develops this index for NIH under a reimbursable contract. The BRDPI is an index of prices paid for the labor, supplies, equipment, and other inputs required to perform the biomedical research the NIH supports in its intramural laboratories and through its awards to extramural organizations. The BRDPI is a vital tool for planning the NIH research budget and analyzing future NIH programs. A survey of award

recipients is currently the only means for updating the expenditure category weights that are used to prepare the BRDPI.

A survey questionnaire with a cover letter that includes a brief description of, and rationale for, the survey will be sent to potential respondents by August 2020, 2021, and 2022. A report of the respondent’s expenditures of the NIH award amounts following the proposed format for expenditure categories attached to the survey’s cover letter, will be requested to be returned no later than December 8, which in most years will be approximately 120 days after mailing. Survey respondents will be selected based on award levels, which determine the weight of the respondent in the biomedical research and development price index. BEA proposes to survey 150 organizations that receive NIH biomedical research awards. This will include the top 100 organizations in total awards received; 40 additional organizations that are not primarily in the “Research and Development (R&D) contracts” category; and 10 additional organizations that are primarily in the “R&D contracts” category. Based on awards data for FY 2019 by type of organization, the top 100 organizations received \$20.8 billion in awards (approximately 77 percent of total awards); the remaining awards-receiving organizations received \$6.1 billion.

Affected Public: Universities or other organizations that are NIH award recipients.

Frequency: Annual.

Respondent’s Obligation: Voluntary.

Legal Authority: 45 CFR 75.302, 75.308, 75.361, and 75.364.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the

Every 5 years NASS conducts a program review following the completion of the Census of Agriculture. The primary purpose is to ensure that the NASS annual estimating program targets commodities and states most relevant based on the latest available information. Last fall NASS announced the program review and requested stakeholder input. The primary source of information for the program review is the Census of Agriculture, since it is the most comprehensive source of data; however we also take into consideration estimates from the current annual estimating program and administrative data. The detailed listing of program changes can be found at the following link: https://www.nass.usda.gov/Surveys/Program_Review/2019/Vegetable-Program.pdf. All questionnaires included in this information collection will be voluntary.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–113) and Office of Management and Budget regulations at 5 CFR part 1320. NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information is estimated to be between 5 and 20 minutes per respondent per survey.

Respondents: Farms and businesses.

Estimated Number of Respondents: 14,000.

Estimated Total Annual Burden on Respondents: 5,000 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information

on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, April 1, 2019.

Kevin L. Barnes,

Associate Administrator.

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Connecticut Advisory Committee; Correction

AGENCY: U.S. Commission on Civil Rights.

ACTION: Notice of public meeting of the Connecticut Advisory Committee—correction.

SUMMARY: The Commission on Civil Rights published a notice in the **Federal Register** of Tuesday, April 9, 2019, concerning a meeting of the Connecticut Advisory Committee. The date and time of the meeting will change from Tuesday, April 16, 2019 at 3:15 p.m. EDT to Wednesday, April 17, 2019 at 12:00 p.m. EDT.

FOR FURTHER INFORMATION CONTACT: Evelyn Bohor, (303) 866–1040, ebohor@usccr.gov.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of Tuesday, April 9, 2019, in FR Doc. 2019–06989, on page 14085, third column; and on page 14086, first and second column, correct the “Dates” caption to read: **DATES:** Wednesday, April 17, 2019 at 12:00 p.m. (EDT).

Dated: April 11, 2019.

DEPARTMENT OF COMMERCE

Census Bureau

Proposed Information Collection; Comment Request; 2020 Census Post-Enumeration Survey Initial and Final Housing Unit Follow-Up

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: To ensure consideration, written comments must be submitted on or before June 17, 2019.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at docpra@doc.gov). You may also submit comments, identified by Docket number USBC–2019–0002, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Robin A. Pennington, U.S. Census Bureau, 4600 Silver Hill Road, Room 2H465, Washington, DC 20233, 301–763–8132 (or via the internet at Robin.A.Pennington@census.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

As in previous censuses, the Post-Enumeration Survey (PES) for the 2020 Census will be conducted to provide estimates of census net coverage and components of census coverage (such as correct enumerations, omissions, erroneous enumerations [including duplicates], and whole-person imputations) for housing units and people living in housing units for the United States and Puerto Rico, excluding remote Alaska. (See Definition of Terms.) Group quarters (such as college dormitories and correctional facilities) are out of scope

because populations can change significantly between census enumeration and PES enumeration operations. Similarly, remote Alaska is out of scope for the PES because the seasonal nature of addresses and the population throughout the year make it infeasible to accurately conduct the matching and follow-up operations necessary for dual-system estimation. For this reason, the Census Bureau's past post-enumeration surveys have never included remote Alaska. These coverage estimates provide insight into the quality and coverage of census results and operations. As in the past, including in the 2010 Census Coverage Measurement program, the 2020 PES operations and activities must be conducted separate from, and independent of, the other 2020 Census operations.

The 2020 PES will use the dual-system estimation procedure, which depends on two independent systems of measurement. The independence between the PES and census operations is a fundamental necessity for dual-system estimation. The PES will comprise two independent enumerations of housing units and the household population within the same sample areas. These two enumerations are called the enumeration sample (E sample) and the population sample (P sample). The primary sampling unit is the basic collection unit (BCU), which is the smallest unit of collection geography for 2020 Census operations. The E sample contains the list of housing units and people enumerated in the 2020 Census within a sample of BCUs. The P sample contains housing units and people in the sample set of sample BCUs, but obtained independently from the census. The independent roster of housing units is obtained during the PES Independent Listing, while the independent roster of people is obtained during the PES Person Interview. The P sample housing units and people will be matched to all census housing units in the sample BCUs and surrounding BCUs.

During the Independent Listing operation, field staff, referred to as "listers," will canvass every street, road, or other place where people might live in their assigned BCUs and construct a list of housing units from scratch. Following the completion of listing for each BCU, the addresses are computer and clerically matched in the Initial Housing Unit Matching operation. Addresses that remain unmatched or have unresolved address status after matching will be sent to the Initial Housing Unit Follow-up operation, during which listers collect additional

information that might allow a resolution of any differences between the Independent Listing and the preliminary census address list results. Matching to a preliminary census file of housing units allows the PES to conduct person interviews close to census day (April 1, 2020), rather than waiting until the final census list is available. In the Final Housing Unit Matching operation addresses collected in the Independent Listing operation are matched to the final census list of housing units. The Initial Housing Unit Follow-up field operation seeks to answer questions needed to resolve the match or enumeration status of addresses identified in the Initial Housing Unit matching operation, while the Final Housing Unit Follow-up field operation seeks to answer similar questions identified in the Final Housing Unit matching operation. A Federal Register Notice has been issued for the PES Independent Listing operation (Federal Register Notice Vol. 83 FR 53849, pages 53849–53850). Federal Register Notices for the Person Interview and Person Follow-up operations will be issued at a later date.

Addresses identified for both Initial and Final Housing Unit Follow-ups will generally need additional information to determine housing unit status (for example, to clarify if the addresses refer to a housing unit or commercial building and to identify duplicate addresses) or to resolve inconsistencies between the PES and census addresses. Using paper questionnaires tailored to capture information needed to resolve each specific status question or discrepancy, listers will contact a member of each housing unit and ask questions to resolve housing unit status or to clarify discrepancies. If the listers do not find anyone at home after several attempts, they will try to collect the information from a proxy or by observation as a last resort. Proxies are respondents who are not members of the household.

The Initial and Final Housing Unit Follow-up operations will also have separate quality control operations. The first quality control operation is the Initial Housing Unit Follow-up Quality Control, which contains 15 percent of the Initial Housing Unit Follow-up workload. The second quality control operation is the Final Housing Unit Follow-up Quality Control, which contains 15 percent of the Final Housing Unit Follow-up workload. These operations are implemented to ensure that the work performed is of acceptable quality.

II. Method of Collection

The Housing Unit Follow-up and Housing Unit Follow-up Quality Control operations will be conducted through personal visits using paper questionnaires. Listers will receive work assignments grouped by geography and in close proximity to the lister's residence whenever possible. The PES Initial Housing Unit Follow-up and Initial Housing Unit Follow-up Quality Control operations will occur May 6, 2020 through June 19, 2020. The PES Final Housing Unit Follow-up and Final Housing Unit Follow-up Quality Control operations will occur starting May 19, 2021 through June 18, 2021.

A sample of approximately 180,000 housing units will be selected for the Initial Housing Unit Follow-up operation and approximately 8,000 housing units will be selected for the Final Housing Unit Follow-up operation. Housing Unit Follow-up listers are expected to knock on every door that requires additional information over several spaced visits in their assigned BCUs to try to find a resident or proxy to ask about the units. The Initial Housing Unit Follow-up Quality Control operation will contain about 27,000 housing units and the Final Housing Unit Follow-up Quality Control operation will contain about 1,200 housing units.

Definition of Terms

Components of Census Coverage – The components of census coverage include correct enumerations, erroneous enumerations, whole-person imputations, and omissions. Correct enumerations are people or housing units that were correctly enumerated in the census. Erroneous enumerations are people or housing units that were enumerated in the census but should not have been. Examples of erroneous enumerations are duplicates, nonexistent housing units or people, and people or housing units that were enumerated in the wrong place. Omissions are people and housing units that were not enumerated in the census but should have been. Lastly, whole-person imputations are census records for which all of the demographic characteristics were imputed. Many of these imputations represent people in housing units where we knew the household count but did not obtain sufficient information about the people residing at the housing unit.

Net Coverage—Reflects the difference between the true population (which is estimated by the Post-Enumeration Survey) and the census count. If the census count was less than the actual

number of people or housing units in the population, then we say there was an undercount. If the census count was more than the actual number of people or housing units in the population, then we say there was an overcount.

For more information about the Post-Enumeration Survey, please visit the

following page of the Census Bureau's website: <https://www.census.gov/coverage-measurement/post-enumeration-surveys/>.

III. Data

OMB Control Number: 0607-XXXX.

Form Numbers: D-1303, D-1303PR, D-1340, D-1340PR, D-1380, D-1380PR, D-1325, and D-1325PR.

Type of Review: Regular submission.

Affected Public: Individuals or Households.

2020 CENSUS

| Operation | Estimated number of respondents | Estimated time per response (in minutes) | Total burden hours |
|--|---------------------------------|--|--------------------|
| Initial Housing Unit Follow-up | 180,000 | 5 | 15,000 |
| Initial Housing Unit Follow-up Quality Control | 27,000 | 5 | 2,250 |
| Final Housing Unit Follow-up | 8,000 | 5 | 667 |
| Final Housing Unit Follow-up Quality Control | 1,200 | 5 | 100 |

Estimated Total Annual Burden Hours: 18,017 hours.

Estimated Total Annual Cost: \$0. (This is not the cost of respondents' time, but the indirect costs respondents may incur for such things as purchases of specialized software or hardware needed to report, or expenditures for accounting or records maintenance services required specifically by the collection.)

Respondent's Obligation: Mandatory.

Legal Authority: Title 13, U.S. Code, Sections 141 and 193.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

Foreign-Trade Zones Board

[B-24-2019]

Foreign-Trade Zone 116—Port Arthur, Texas; Application for Expansion

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Foreign-Trade Zone of Southeast Texas, Inc., grantee of FTZ 116, requesting authority to expand FTZ 116—Site 1 to include additional acreage in Port Arthur, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on April 11, 2019.

FTZ 116 was approved on March 20, 1985 (Board Order 296, 50 FR 13261, April 3, 1985). The zone currently consists of three sites (1,084.54 acres): Site 1 (6.12 acres) is located at the Port of Port Arthur, 4th Street and Dallas Avenue, Port Arthur; Site 2 (1,070 acres) is located west of U.S. Highway 69 in Port Arthur; and, Site 3 (8.42 acres) is located at South Gulfway Drive in Port Arthur.

The applicant is requesting authority to expand Site 1 to include the entire 149-acre Port of Port Arthur facilities that would encompass the existing 6.12 acres. No authorization for production activity is being requested at this time. Such requests would be made to the FTZ Board on a case-by-case basis.

In accordance with the FTZ Board's regulations, Camille Evans of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the FTZ Board.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is June 17, 2019. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to July 1, 2019.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230-0002, and in the "Reading Room" section of the FTZ Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Camille Evans at Camille.Evans@trade.gov or (202) 482-2350.

Dated: April 11, 2019.

Andrew McGilvray,

Executive Secretary.
