1. Need for the Information Collection

This is a request for OMB approval of updated versions of previously approved forms (DD Form 2627 and 2628) for which approval has expired, and for OMB approval of new form (DD Form 3062). The requirements to have government approval of contract flight crewmembers and contract flights is in Defense Contract Management Command Instruction (DCMA INST) 8210.1, Contractor's Ground and Flight Operations, Chapter 4. The contractor provides information on contractor personnel to the government. The government approves the contractor's request for aircrew training and eventually, approval for contractor personnel to operate and fly government aircraft. The government also approves all flights under contract.

2. Use of the Information

The DD Form 2627 is used by contractors to request qualification training for contractor crewmembers. The contractor provides a personal history and verifies the crewmember's records and requests the government approve training in a particular type government aircraft. The 2627 and supporting documentation can be provided in hard or soft copy. Without the approval from the government, the contractor cannot use the personnel as requested. The information is used by Government Flight Representatives (GFRs) appointed in that role to perform Contract Administration Services (CAS) under FAR 42.302(a)(56) *Maintain surveillance of flight operations*. Once the GFR has approved the request he/she signs the form and returns it to the contractor's requesting official (CRO). The GFR maintains a copy for no longer than 3 years.

The DD Form 2628 is used by contractors to request aircrew qualification for contractor crewmembers. The contractor verifies the crewmember's training completion and requests the government approve specific aircrew qualification in a particular type

government aircraft. The 2628 and supporting documentation can be provided in hard or soft copy. Without the approval from the government, the contractor cannot use the personnel as requested. The information is used by Government Flight Representatives (GFRs) appointed in that role to perform Contract Administration Services (CAS) under FAR 42.302(a)(56) *Maintain surveillance of flight operations*. Once the GFR has approved the request he/she signs the form and returns it to the contractor's requesting official (CRO). The GFR maintains a copy for as long as the crewmember maintains his/her qualification or the contract ends.

The DD Form 3062 is used by contractors to request approval of flights under contract. The 3062 can be provided in hard or soft copy. Without the approval from the government, the contractor cannot fly under the liability coverage provided by DFARS 252.228-7001, Ground and Flight Risk. The information is used by Government Flight Representatives (GFRs) appointed in that role to perform Contract Administration Services (CAS) under FAR 42.302(a)(56) *Maintain surveillance of flight operations*. Once the GFR has approved the request he/she signs the form and returns it to the contractor's requesting official (CRO). The GFR maintains a copy for 1 year.

3. Use of Information Technology

95% of forms are signed electronically. While contractors and GFRs have the option to use hard copies, the standard practice is to use only soft copies along with scanned supporting documents.

4. Non-duplication

The information obtained through this collection is unique and is not already available for use or adaptation from another cleared source.

5. Burden on Small Businesses

This information collection does not impose a significant economic impact on a substantial number of small businesses or entities.

6. Less Frequent Collection

The DD Forms 2627 and 2628 are used once for new contractor crew-members and once for those upgrading to other aircraft or duties. The forms do not need to be re-accomplished unless the crew-member's qualification status will change, e.g., upgrading from mission pilot to instructor pilot, or obtaining qualifications in more than one aircraft.

The DD Form 3062 is used to approve single, daily, or weekly flights, and under certain conditions provided in DCMA INST 8210.1, Chapter 7, cover a time frame of up to one month.

7. Paperwork Reduction Act Guidelines

This collection of information does not require collection to be conducted in a manner inconsistent with the guidelines delineated in 5 CFR 1320.5(d)(2).

The results of this information collection will not be published.

17. Non-Display of OMB Expiration Date

Yes, we are requesting approval to omit display of the OMB expiration date. The forms relate to contractual requirements regarding flight records. Maintaining consistent forms improves the stability of contractor operations. In the unintended case of expiration of the collection before re-approval, we do not wish to have respondent uncertainty regarding necessary completion of the form. The presence of an expiration date could lead to confusion in regards to correct completion of the form

18. Exceptions to “Certification for Paperwork Reduction Submissions”

We are not requesting an exemption to the provisions certified to in Item 19.a. of the OMB Form 83-I.
