Hi Lindsey,

You are quite welcome. Thank you as well. We have reviewed the information provided and have determined that PII and Privacy Act are not applicable and the use of Survey Monkey is acceptable. Please let us know if you have any questions or need any additional information.

Very Respectfully,

Subject: Use of SurveyMonkey

Hi Danny!

Thanks so much for talking with me this morning! As requested here is the information for our OMB request. The 60 day was just published in the federal register a week or so ago. As we discussed, we are planning to use SurveyMonkey for two of the surveys (one with recipients and one with subrecipients) and although we will be collecting what organization they are with, we will not be collecting any information about the individual respondent themselves – just about the organization and program in general.

So glad that it sounds like it may be an easy process to get approval to use SurveyMonkey! Please let me know if you have any questions or need any information from me!

Thank you!
