**\*\*Please submit every Monday by 0900 EDT\*\***

OMB Approved  
Control No. 0920-0134  
Exp. 3/31/2022

**Directions: Enter new cases diagnosed from Monday 0000 EDT to Sunday 2359 EDT for each category as defined below.**

**Ship:**

\* must provide value

**Other Ship:**

\* must provide value

**Date Submitted:**

\* must provide value

  Today M-D-Y

Please submit every Monday by 0900 EDT.

**Total # of crew members onboard:**

\* must provide value

**Closest seaport at time of submission (City):**

\* must provide value

**Closest seaport at time of submission (Country):**

\* must provide value

**Case Counts and Diagnostic Testing:**

**Please ensure these counts are independent of each other (i.e., a person is not listed as both ILI and pneumonia).**

**What is your ARI case count for the specified time period?**

\* must provide value

Acute Respiratory Illness (ARI) is defined as the presence of cough, sore throat, or rhinorrhea in the absence of fever and in the absence of a non-infectious diagnosis as determined by the ship's medical provider (e.g., allergies)

**What is your ILI case count for the specified time period?**

\* must provide value

Influenza-like Illness (ILI) is defined as fever (100.4 °F [38 °C]) plus either cough or sore throat

**What is your pneumonia case count for the specified time period?**

\* must provide value

**What is your additional COVID-19-Like Illness (CLI) case count for the specified time period?**

**NOTE: If a person meets criteria for ARI, ILI, or pneumonia, please do not include them in this section.**

\* must provide value

COVID-19-Like Illness (CLI) is defined as either 1) At least two or more of the following symptoms: chills, nasal congestion, headache, new loss of taste or smell, muscle or body aches (myalgias), vomiting, or diarrhea, OR 2) At least one or more of the following symptoms: fever (without meeting ILI criteria or pneumonia diagnosis above), shortness of breath, or difficulty breathing

**How many persons were tested for influenza via rapid diagnostic test?**

\* must provide value

**Of the persons tested for influenza via rapid diagnostic test, how many tested positive?**

\* must provide value

Of the persons tested for COVID-19 via PCR test (within 48 hours after disembarking the ship) as a requirement for disembarkation and/or repatriation by a shore-side authority, how many have pending results?

\* must provide value

Of the persons tested for COVID-19 via PCR test (within 48 hours after disembarking the ship) as a requirement for disembarkation and/or repatriation by a shore-side authority with pending results on the previous EDC submission, how many of those were positive?

\* must provide value

How many persons were tested for COVID-19 via rapid antigen test (within 48 hours after disembarking the ship) as a requirement for disembarkation and/or repatriation by a shore-side authority?

\* must provide value

Of the persons tested for COVID-19 via rapid antigen test (within 48 hours after disembarking the ship) as a requirement for disembarkation and/or repatriation by a shore-side authority, how many tested positive?

\* must provide value

How many persons needed hospitalization?

\* must provide value

Of those hospitalized, how many required mechanical ventilation?

\* must provide value

Of those hospitalized, how many were medically evacuated from the ship?

\* must provide value

Please explain the reason for medevac(s).

### Isolation Practices

Were persons with ARI, ILI, pneumonia, or additional CLI symptoms isolated for COVID-19 per CDC guidelines?

- Yes  
 No

\* must provide value

Persons with ILI, ARI, pneumonia, or additional CLI symptoms should be isolated using the same guidelines as a confirmed COVID-19 case. Isolation may be discontinued for symptomatic crew with suspected or confirmed COVID-19 under conditions outlined at: [www.cdc.gov/coronavirus/2019-ncov/hcp/disposition-in-home-patients.html](https://www.cdc.gov/coronavirus/2019-ncov/hcp/disposition-in-home-patients.html)

Please explain.

Public reporting burden of this collection of information is estimated to average 12 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA 0920-0134.
