Programmer Instructions:	Roster behavior: 1. Multiple select allowed. 2. Multiple add allowed. 3. Limited delete allowed. Interviewer may delete a medicine added at this item until CAPI creates the link between this medicine and the event. The link is created when the collection of utilization and/or charge/payment data is complete. 4. Limited edit allowed. Interviewer may edit medicines added at this item until CAPI creates the link between this medicine and the event. The link is created when the collection of utilization and/or charge/payment data is complete. NOTE: In order for the columns to display properly, 35 allowable characters for the medicines will be accepted for display on the roster.		

When adding a medicine in the pop-up manipula, a maximum of 60 characters will be allowed.

When the CTRL-D or CTRL-E command is called, the pop-up manipula should display 60 characters for the medicine name.

General flag rules for medicines:

-       Round medicine first created (by definition a medicine is selected the same time it is created)
-       Question number medicine first created
-       Round medicine selected
-       Event medicine is linked to (however, this is known by virtue that the medicine was selected at TH120 for this event)

Soft Check:
If 2 or more of the same following text strings are found in a single medicine entry (e.g. DROXIA 200MG CAPMAXALT 10MG) upon leaving the single entry field by pressing 'TAB' or 'ENTER:

- MG
- ML
- CAP
- MCG
- TAB
- GM
- %

Or if the following text combinations strings are found in a single medicine entry (e.g. aspirin 5mg triamcinolone acetonide .5% ointment) upon leaving the single entry field by pressing 'TAB' or 'ENTER:
- MG and %
- MCG and MG

Display a separate pop-up below the field that triggered the soft check with the message:
"Verify only one medicine per field is entered. If entry is a compound medicine (medicine label lists two or more different medicines) select 'Suppress'. If entry error was made, select 'GoTo' and re-enter each medicine in a separate field. Press 'TAB' between each separate entry."

At the top of the pop-up above the message, display the medicine that triggered the soft check. With the text string that triggered the check displayed in bold.

Prescribed Medicine Soft Check Flag (PMedSoftChk):
The purpose of this flag is to ensure that once the soft check is triggered, that particular entry row will not trigger the soft check again, even when the text entry of the field has changed. The flag records whether the interviewer selected "Suppress" or "GoTo". Suppressing the soft check may not indicate that the medicine is a compound drug as a medicine name could have the targeted text string in both the form/strength and drug name, such as "captopril capsule". When the interviewer selects 'GoTo' to return to the field to make a correction, the soft check will not run again to check the entry.

	Pressing 'tab' then selecting 'Suppress' or 'GoTo' closes the soft check pop-up and moves the cursor to the next empty field. Pressing 'enter' then selecting 'Suppress' closes the soft check pop-up and moves the focus back to the prescribed medicine roster. Or if 'GoTo' is selected moves the cursor back to the entry field that triggered the soft check.
Display Instructions:	Display 'call' if TH10 is coded '1' (PHONE). Otherwise, display 'contact'. Roster 3- Add/Edit/Delete Allowed Roster definition: This item displays the Person's-Prescription-Medicines-Roster for selection. Display name of prescribed medicine (DRUG.DRUGNAME) Roster filter: Display all medicines in person's roster; no filter.

Context Header:	{PERSON'S FIRST MIDDLE AND LAST NAME} {NAME OF MEDICAL CARE PROVIDER} {EVN-DT}
Question Text:	{Which of the following {calls/contacts} were also for {your/{PERSON}'s} {PERSON'S TH MEDICAL CONDITION} {{or {your/his/her}/,} {PERSON'S TH MEDICAL CONDITION}} {or {your/his/her} {PERSON'S TH MEDICAL CONDITION}}?/ Which of the following {calls/contacts} were also for one of these conditions (READ CONDITIONS BELOW) ?} PROBE: Any other {calls/contacts}for the same condition? ENTER ALL THAT APPLY. {CONDITIONS {PERSON'S TH MEDICAL CONDITION}1 {PERSON'S TH MEDICAL CONDITION}2 {PERSON'S TH MEDICAL CONDITION}3 {PERSON'S TH MEDICAL CONDITION}4 {PERSON'S TH MEDICAL CONDITION}N}
Responses:	{SELECT ALL EVENTS}...0 TH130 {MONTH,DAY,YEAR} - {DOC OR DEPT}1..............1 TH130 {MONTH,DAY,YEAR} - {DOC OR DEPT}2..............2 TH130 {MONTH,DAY,YEAR} - {DOC OR DEPT}3..............3 TH130 {MONTH,DAY,YEAR} - {DOC OR DEPT}4..............4 TH130 {MONTH,DAY,YEAR} - {DOC OR DEPT}N.............5 TH130
Programmer Instructions:	Go to TH130. If coded '0' SELECT ALL EVENTS, CAPI should automatically select all of the events displayed on the roster and flag as being part of the repeat visit group. Flag each visit selected at TH140 as a repeat visit related to the event being asked about. (NOTE: The event being cycled on through this TH section administration is the "stem" repeat visit. The events selected at TH140 are the "leaves". The event driver (ED) section will not serve these repeat visits for the TH section.)

	Assign next repeat visit number at the household level. (NOTE: Each repeat visit grouping, whether OP, MV, TH, or HH is assigned this number at a household level. The number will start over every round.) Roster behavior: 1. Multiple select allowed.
Display Instructions:	{DOC OR DEPT} should not display in context header. Roster 2- No Add/Edit/Delete Display 'calls' if TH10 is coded '1' (PHONE). Otherwise, display 'contacts'. Roster definition: This item displays all medical events (dates) on person's medical- events- roster for selection. Display event begin date (EVNT.EVNTBEGM,EVNT.EVNTBEGD,EVNT.EVNTBEGY) Roster filter: Display only those event with the following characteristics. 1. Event was created this round. 2. Event has not been processed in utilization. 3. Event has event type 'TH'. 4. Event is associated with the same provider as the event being asked about (regardless of the doctor or department linked to the specific event if provider is a facility provider). 5. Event is not already flagged as part of a flat fee bundle. Next to each event date, display the doctor or department linked to that specific visit date. Display 'Which of the following visits were also for {your/{PERSON}'s} {PERSON'S TH MEDICAL CONDITION} {{or {your/his/her}/,} {PERSON'S TH MEDICAL CONDITION}} {or {your/his/her} {PERSON'S TH MEDICAL CONDITION}}?' if three or less conditions selected or added to Person's-Medical-Conditions-Roster at TH90. Otherwise display, 'Which of the following visits were also for one of these conditions (READ CONDITIONS BELOW)?' Display '{or {your/his/her}/,} {PERSON'S TH MEDICAL CONDITION}' if two or three conditions selected or added to Person's-Medical-Conditions-Roster at TH90. Otherwise, use a null display. Display "or {your/his/her}" if exactly two conditions selected or added to Person's-Medical- Conditions-Roster at TH90. Otherwise, display ','. Display 'or {your/his/her} {PERSON'S TH MEDICAL CONDITION}' if exactly three conditions selected or added to Person's-Medical-Conditions-Roster at TH90. Otherwise, use a null display. For 'PERSON'S TH MEDICAL CONDITION' display the condition selected from or added to Person's-Medical-Conditions-Roster AT TH90. Display the header 'CONDITIONS' and the list of conditions if more than three conditions selected or added to Person's-Medical-Conditions-Roster at TH90. Otherwise, use a null display. For 'PERSON'S TH MEDICAL CONDITION', display all conditions selected from or added to Person's-Medical-Conditions-Roster at TH90. For "MONTH,DAY,YEAR" in the response option area, display visit dates as "MON DD, YYYY". Abbreviate the month name as three letters.

		Display the response option '0' SELECT ALL EVENTS when there is more than one event to display on the roster, otherwise use a null display.

Programmer Instructions:	Go to the Charge/Payment (CP) section if it needs to be asked for this event, i.e. its status wasn't set to 'Completed' because it was part of a Flat Fee situation where the charges were collected in the CP section for another event in that Flat Fee group. If the Charge/Payment (CP) section is completed for this Telehealth (TH) event and TH100 is coded '2' (YES) go to EF section. Otherwise, go to the Event Driver (ED) section.
