OMB Control No. 0960-0546**

**Revisions to the Collection Instrument**

SSA is making the following revisions:

- **Change #1:** SSA is removing the signature requirement from Form SSA-L8125. On page 3 of the form, we've replaced the signature field with a field that requests the name of the respondent in which the respondent can type their name.

**Justification #1:** We reassessed the need for a wet signature on this form and determined we no longer require it. Therefore, we will no longer ask respondents to sign this form prior to submitting it to SSA.

- **Change #2:** We are revising the Privacy Act Statement on this form.

**Justification #2:** SSA's Office of the General Counsel is conducting a systematic review of SSA's Privacy Act Statements on agency forms. As a result, SSA is updating the Privacy Act Statement on the form.

- **Change #3:** We are revising the PRA statement on this form.

**Justification #3:** We are revising the PRA statement to reflect our current boilerplate language. The current language, which dates back to the last reprint of the form, is now outdated.

After OMB approves the signature removal for this form, we will implement the new version of the form that clarifies that we no longer require a signature by replacing the signature prompt with one that collects the respondent's name.

This action will not affect the public reporting burden.
