ENTITY Instructions

- Numbers 1 through 4: Enter the requested information.
- Number 5: Answer the question provided. Enter the date the entity first received Reclamation irrigation water anywhere in the 17 western states, and the name of the district in which that water was received. The answer is “NO” if the entity did not exist prior to October 1, 1981.
- Number 6: Answer the question provided. Identify land the entity directly or indirectly owns and leases in any other district that is subject to the acreage limitation provisions.
- Number 7: Answer the question provided. If the entity has any wholly owned subsidiaries (i.e., subsidiaries that are 100% owned by this entity) **and** the wholly owned subsidiary directly or indirectly owns or leases land that is subject to the acreage limitation provisions, list the wholly owned subsidiaries. If this entity is owned by another entity, list the entity (parent entity) that owns this entity.
- Number 8: Count all natural persons listed as a part owner (or shareholder, stockholder, etc.) for this entity and for any entity that wholly or partially owns this entity. Once you have (a) counted more than 25 natural persons, or (b) evaluated all associated entities for part owners (or shareholders, stockholders, etc.), stop and answer this YES/NO question based on the count you have just completed. Count each natural person only once. (The term “natural person” means a living human being. For acreage limitation purposes, this includes shareholders specifically named on stock certificates, partners identified by a partnership agreement, tenants specifically named in landownership documents, parties attributed with the land held in trust, etc.) If you answered “NO,” this entity is not a limited recipient. Attach a separate sheet that lists (1) the name of each part owner, and (2) the percentage of interest each listed part owner holds in this entity. The total interest must equal 100 percent.
