Dear Provider:

Thank you for your interest in participating as a medical services provider for the four programs administered by the U.S. Department of Labor's Office of Workers' Compensation Programs (OWCP). The OWCP administers four major disability compensation programs which provide benefits to certain workers or their dependents who experience work-related injury or occupational disease. These programs include the Division of Federal Employees' Compensation (DFEC), the Division of Energy Employees Occupational Illness Compensation (DEEOIC), the Division of Coal Mine Workers' Compensation (DCMWC), and the Division of Longshore and Harbor Workers' Compensation (DLHWC).

OWCP has contracted to provide medical bill processing services for these four programs. As part of their benefit structure, these programs reimburse medical and non-medical providers for services rendered for the care and treatment of a claimant's compensable condition.

OWCP can only process bills from providers who have enrolled. To enroll, complete the enclosed provider enrollment form to be assigned a provider identification number. Instructions for completing the enrollment form and a list of provider types are enclosed. Any Provider Enrollment Form that is received with missing or incomplete information will be returned to the submitter for correction and/or completion.

The Debt Collection Improvement Act of 1996 requires that payments made by the Federal Government be sent by electronic funds transfer (EFT). EFT payments are mandatory because it simplifies the process, reduces the incidents of billing error, and allows for expedited handling. An enrollment form for EFT is enclosed. A remittance advice listing all bills paid on each EFT transaction will be sent to your mailing address. Please see notice on page 2.

You must submit current licensure information with your enrollment application. Moreover, each provider must maintain appropriate current licensure in order to receive payments under OWCP's programs.

Group practices are responsible for monitoring the licensure of each servicing provider in the practice. Where large group practices have providers in the group who are not providing medical services to our program on a regular basis, the group practice is responsible for monitoring the licensure of each provider who practices in the entire group.

Providers are required to enroll for each office location. Servicing providers under a group practice are not required to enroll separately.

You may register as a participant in any one or more of the following four OWCP compensation programs – DFEC, DEEOIC, DCMWC, and DLHWC. Please send the completed package(s)) at the address listed on the signature page (page 8) in the Form OWCP-1168.

To assist claimants seeking medical services, OWCP has an on-line listing of providers, by program that is searchable by: specialty, name, city, state, and zip code. Customers will be advised that a provider listing is not an endorsement, referral, or an agreement to reimburse for medical services rendered by the Department of Labor or OWCP. Nor does it guarantee that a medical provider will be reimbursed by OWCP for specific medical services or that a medical provider will agree to provide medical services to a particular claimant.

You will be notified by mail once your enrollment package has been processed. Once you have received your OWCP provider number, you may submit bills to the appropriate program at the following address(s):
