

inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Discussion

The NRC intends to prepare an EIS for the WEC license renewal application for its CFFF in accordance with part 51 of title 10 of the *Code of Federal Regulations* (10 CFR) “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions.” The NRC will provide the public with an opportunity to participate in the environmental scoping process by inviting them to submit written comments in the scoping period.

III. Alternatives To Be Evaluated

The EIS will analyze the environmental impacts of the proposed action, the no-action alternative, and reasonable alternatives. A brief description of each is provided below.

Proposed action—The proposed Federal action is to renew WEC’s CFFF operating license (SNM–1107) which will allow continued operation of the facility (*i.e.*, fabricating nuclear fuel for nuclear reactors) for an additional 40 years.

No-Action Alternative—The no-action alternative would be to not renew WEC’s license. Under this alternative, the NRC would not issue the license renewal and CFFF would continue to

operate under its current license until it expires in 2027.

Other Alternatives to the Proposed Action—The NRC is considering other alternatives to the proposed action, including the granting of WEC’s license renewal request, but for a period of less than 40 years. Other alternatives not listed here may be identified during scoping or through the EIS development process.

IV. Scoping

The NRC staff is conducting a scoping process for the WEC CFFF EIS. In accordance with 10 CFR 51.29, the NRC seeks public input to help the NRC determine the appropriate scope of the EIS, including significant environmental issues to be analyzed in depth, as well as those that should be eliminated from detailed study because they are peripheral or are not significant.

The NRC previously accepted comments on the draft EA published in October 2019. Those comments can be found at <https://www.regulations.gov> under Docket ID NRC–2015–0039 or in NRC’s ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>, and will be considered in the development of the EIS.

After the close of the scoping period, the NRC staff will prepare a concise summary of its scoping process in accordance with 10 CFR 51.29(b). The scoping summary report will be sent to each participant in the scoping process for whom the staff has a physical or email address.

The WEC CFFF EIS will address the potential impacts from the proposed action, including both radiological and non-radiological impacts associated with the proposed project and its

alternatives. The EIS will also consider unavoidable adverse environmental impacts, the relationship between short-term uses of resources and long-term productivity, and irreversible and irretrievable commitments of resources. The following resource areas were addressed in the draft EA and, thus, will be addressed in the EIS: Land use, transportation, geology and soils, water resources, ecological resources, air quality and climate change, noise, historical and cultural resources, visual and scenic resources, socioeconomic, public and occupational health, waste management, accidents, and environmental justice.

The NRC encourages members of the public, local, State, Tribal, and Federal government agencies to participate in the scoping process. Written comments may be submitted during the scoping period as described in the **ADDRESSES** and **SUPPLEMENTARY INFORMATION** sections of this document.

The NRC staff will continue its environmental review of WEC’s license renewal application, and with an NRC contractor, prepare a draft EIS and publish it for public comment as soon as practicable. The NRC staff plans to have a public comment period for the draft EIS. Availability of the draft EIS and the dates of the public comment period will be announced in a future **Federal Register** notice. The final EIS will include NRC’s responses to public comments received on the draft EIS.

V. Availability of Documents

The documents identified in this notice are accessible to interested persons by the means indicated in either the **SUPPLEMENTARY INFORMATION** section of this notice or in the table below.

Document	ADAMS accession No.
Westinghouse license renewal application (August 2019)	ML19234A077
Environmental Report (March 2019)	ML19088A100
NRC’s Draft Environmental Assessment (October 2019)	ML19228A278
Final Interim Remedial Investigation Data Summary Report (February 2020)	ML20063P321
Letter to Westinghouse regarding decision to pursue an EIS (June 2020)	ML20150A289

Dated: July 20, 2020.
 For the Nuclear Regulatory Commission.
Jessie M. Quintero,
Acting Chief, Environmental Review Materials Branch, Division of Rulemaking, Environmental and Financial Support, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION
[NRC–2019–0183]
Information Collection: NRC Form 749, “Manual License Verification Report”/ License Verification System
AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of submission to the Office of Management and Budget; request for comment.
SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted a request for renewal of an existing collection of information to the Office of Management and Budget (OMB) for review. The information collection is entitled, “NRC Form 749, “Manual License Verification Report”/ License Verification System.”

DATES: Submit comments by August 31, 2020. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: David Cullison, NRC Clearance Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: INFOCOLLECTS.Resource@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2019-0183 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2019-0183.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The Supporting Statement and NRC Form 749 “Manual License Verification Report” are available in ADAMS under Accession Nos. ML20195B167 and ML20195B168.

- *NRC's Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: INFOCOLLECTS.Resource@NRC.GOV.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not

want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “NRC Form 749, “Manual License Verification Report”/License Verification System.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on May 1, 2020 (85 FR 25479).

1. *The title of the information collection:* NRC Form 749, “Manual License Verification Report”/License Verification System.

2. *OMB approval number:* 3150-0223.

3. *Type of submission:* Extension.

4. *The form number if applicable:* NRC Form 749.

5. *How often the collection is required or requested:* On occasion. Licensees subject to part 37 of title 10 of the *Code of Federal Regulations*, “Physical Protection of Byproduct Material” license verification requirements must verify the legitimacy of the license with the issuing agency prior to transferring radioactive materials in quantities of concern.

6. *Who will be required or asked to respond:* Licensees are required to complete a license verification under the circumstances noted in 5 above. A License Verification System (LVS) is available to provide an electronic method for fulfilling this requirement. In cases where a licensee is unable to use the LVS to perform a verification, they will provide NRC Form 749 for manual license verification.

7. *The estimated number of annual responses:* 587.

8. *The estimated number of annual respondents:* 587.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 59.

10. *Abstract:* When a licensee is unable to use the LVS to perform their license verification prior to transferring radioactive materials in quantities of concern, a manual process is available, in which licensees submit the NRC Form 749, “Manual License Verification Report.” The form provides the information necessary for the license issuing agencies to perform the verification on behalf of the licensee transferring the radioactive materials.

Dated: July 27, 2020

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

677th Meeting of the Advisory Committee on Reactor Safeguards (ACRS)

In accordance with the purposes of Sections 29 and 182b of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards (ACRS) will hold meetings on August 20–21, 2020. As part of the coordinated government response to combat COVID-19, the Committee will conduct virtual meetings. The public will be able to participate in any open sessions via 1-866-822-3032, pass code 8272423#.

Thursday, August 20, 2020

9:30 a.m.–9:35 a.m.: Opening Remarks by the ACRS Chairman (Open)—The ACRS Chairman will make opening remarks regarding the conduct of the meeting. The public will have an opportunity to comment after the Chairman's remarks.

9:45 a.m.–6:00 p.m.: Preparation of ACRS Reports (Open/Closed)—The Committee will continue its discussion of proposed ACRS reports. [NOTE: A portion of this session may be closed in order to discuss and protect information designated as proprietary, pursuant to 5 U.S.C 552b(c)(4)]. [NOTE: Portions of this meeting may be closed pursuant to 5 U.S.C. 552b(c)(2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel
