

Non-substantive Revisions to EIDL-COVID Application Information Collection  
OMB Control Number -3245-0406

All of the funds appropriated to provide advances to applicants for a COVID-19 economic injury disaster loan have been exhausted. Therefore, the Small Business Administration can no longer provide this assistance. In order to avoid confusion, SBA is revising this EIDL-COVID information collection to remove all references to the EIDL advance. This change impacts SBA Form 3503, *Self-Certification for Verification of Eligible Entity for Emergency EIDL Advance*, the title for which will also be amended to read “Self-Certification for Verification of Eligible Entity for Economic Injury Disaster Loan”; Form 3501, *COVID-19 Economic Injury Disaster Loan Application*; and the Rapid Intake Form.
