9010 DEFENSE PENTAGON
WASHINGTON, DC 20301-9010

MEMORANDUM FOR THE PENTAGON RESERVATION WORKFORCE

SUBJECT: Survey - Redefined Workspace During and After COVID-19 Pandemic

The way in which we operate has changed substantially with the onset of the COVID-19 pandemic. Even in these trying and uncertain times, the Department of Defense (DoD) has continued to accomplish its missions due to the hard work and dedication of our workforce. As we implement our phased return to the workplace, much of the workforce continues to work remotely to protect our personnel and to adhere to the published guidelines of the Centers for Disease Control and Prevention and the Pentagon Reservation Resilience Plan.

Our overarching goal is to ensure that moving forward, the work environment will aid in maintaining productivity while providing a safe workspace for all team members. To determine how the guidelines are working and the impact it has made on your organization as you are returning to your workspaces, we would like your opinions and suggestions. To facilitate these efforts, I ask that you take a few moments and participate in this online survey: <https://ice.disa.mil/svy.cfm?workplacesafety>.

Participation from all agencies is essential for a reliable representation of the workforce. A report of the findings and future requirements will be provided to each agency for consideration and action. Thank you, in advance, for your willingness to provide feedback. It is with your help that we will be able to strategically focus on how to best move forward. We hope that you and your families remain safe and we appreciate your continued commitment to the DoD mission. Questions about this memorandum and the survey should be directed to Julia Shmirkin at (571) 340-2346 or Julia.B.Shmirkin.civ@mail.mil.
