Sleep Activity Diary

Page 1

Complete the sleep diary as best you can.

Use the following fatigue and sleepiness ratings for your responses.

FATIGUE RATING:

- 1 = fully alert, wide awake
- 2 = very lively, responsive, but not at peak
- 3 = okay, somewhat refreshed
- 4 = a little tired, less than fresh
- 5 = moderately tired, let down
- 6 = extremely tired, very difficult to concentrate
- 7 = completely exhausted, unable to function effectively

SLEEPINESS RATING:

1 = extremely alert

2

3 = alert

4

5 = neither sleepy nor alert

6

7 = sleepy, but no difficulty remaining awake

8

9 = extremely sleepy, fighting sleep

Standard Dosage of Alcoholic Drinks:

12 oz. of beer, 5 oz. of wine, 1.5 oz. shot of distilled spirits

Public reporting burden of this collection of information is estimated to average 2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-xxxxx).

Start this diary before bedtime on the day you begin wearing the actigraph.

How lo	ong have you worked night shift?Years months
On ave	erage, how many hours do you work each week excluding overtime in your law enforcement job?
	hours minutes
On ave	erage, how many hours overtime do you work each week in your law enforcement job?
	hours minutes
Do you	ı have a second paid job besides your law enforcement job or do any other work for pay?
	o Yes

If yes, how many hours a week on average do you work at additional jobs for pay?

___hours ____ minutes

How many years have you been employed as a police officer? ____Years ____ months

Provide the date you started police work _____Month ____ Day _____ Year

What is your present rank?

O Sergeant

O Corporal

O Officer

Deputy

Trooper

O Constable

O Other (please specify)

C3- Knowledge Survey

Knowledge Survey

Select the best answer for each question.

1.	Which interval for rest breaks during work shifts is associated with reduced risk for errors and accidents?
	o every 2 hours

- o every 4 hours
- o every 6 hours
- 2. If you want to modify work scheduling patterns for law enforcement officers, what do work schedule researchers strongly recommend?
 - o get upper management's approval and input and make the change to the work schedules
 - o involve the officers whose schedule will be effected in the process of change
- 3. Which response below is an evidence-based recommendation about this schedule?

Work Tuesday 3pm - 11:30pm

Work Wednesday 7am - 3:30pm

- o a recommended work scheduling pattern
- o a scheduling pattern to avoid
- 4. The sun's light and dark cycles have minimal effect on sleep/wake cycles.
 - o True
 - o False
- 5. Most people's circadian clocks adapt easily to night shifts.
 - o True
 - o False
- 6. With training, experience, and professionalism, most people can adjust to sleeping less than 7 hours without negative consequences.
 - o True
 - o False

Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including

suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-xxxx).

- 7. After what length nap will a person be <u>less likely</u> to experience a longer period of grogginess when they awaken?
 - o 20 minute nap
 - 0 1 hour nap
 - 0 2 hour nap
- 8. Taking a long nap (1 hour or more) after coming home from day shift, will have what effects?
 - o will decrease the buildup of sleep pressure and as a result could lead to difficulty with falling asleep at the usual bedtime
 - o will alert you
 - o could lead to an extended period of grogginess on awakening
 - o All of the above.
- 9. If you were going to take a nap in the afternoon or evening before night shift, which nap length would reduce buildup of sleep pressure more?
 - o 20 minute nap
 - o 1.5 hour or longer nap
- 10. Window blinds block out light adequately for officers who sleep during daylight hours.
 - o True
 - o False
- 11. Coffee and other caffeinated beverages take on average how many minutes to have an alerting effect after consumption.
 - o 1 minute
 - o 5 minutes
 - o 30 minutes
 - o 60 minutes
- 12. Manipulation of light exposure can help circadian rhythms adjust to permanent shift work schedules.
 - o True
 - o False
- 13. Which are effective strategies to facilitate the onset of sleep?
 - o Watching TV in bed
 - O Looking at the computer close to bedtime
 - o Meditation
 - o All the above
- 14. Four to eight ounces of wine at bedtime is an effective coping strategy for individuals who have trouble falling asleep and staying asleep.

- o True
- o False
- 15. If feeling sleepy after completing a night shift, which strategy (ies) is (are) recommended by sleep and drowsy driving experts for the drive home?
 - 0 turn up the radio and open the window on the drive home
 - o pinch your leg or sit in an awkward position to keep awake
 - o take a short nap before driving home
 - o any of the above
- 16. Researchers think shift workers have difficulties with personal relationships because of which factors.
 - O Demanding schedules are linked to poorer sleep which leads to mood disturbances.
 - O Less quality time to spend with family and friends.
 - o All above
- 17. Which of the following is the <u>least</u> effective strategy for shift workers to improve personal relationships?
 - o educate family and friends about challenges of working shift schedules or long hours
 - o tell family what they can do to help
 - o shorten your time for sleep to meet the demands of work and the family
 - o adopt ways to maintain communications
 - 0 get enough good quality sleep
- 18. What is critical to recognize about these symptoms: difficulty focusing; frequent blinking; yawning repeatedly or rubbing eyes; trouble keeping head up; feeling restless and irritable?
 - O Can be dangerous if occurs when driving or performing critical tasks
 - O A person who has motivation, training, and professionalism can force himself or herself to stay awake.
 - o Both above
- 19. Identify strategies that officers can use to increase their alertness.
 - O A. Eat sugar rich food
 - O B. Work in a brightly lit area or go outside in sunlight
 - O C. Have a good sleep environment and prepare oneself for sleep
 - O D. Take a short nap
 - o E. All the above
 - o F. All but A (first item)
- 20. Loud snoring is something some people do while sleeping and is not something to be concerned about.
 - o True
 - o False
- 21. Behavior (s) to promote falling asleep more easily and good sleep quality is (are):
 - O Eating a large meal an hour or two before bedtime
 - O Having a regular relaxing routine 1 hour or more before bedtime
 - O Exercise about 1 hour before bedtime
 - O Vary your times for going to sleep and getting up
 - O All of the above

22.	am O	alth problems, such as high blood pressure and gastrointestinal symptoms, have no relationship to the ount and quality of a person's sleep True False
23.	0	tting too little sleep or having poor quality sleep can increase hunger, eating and body weight. True False
24.	Wh o	ich of the following is the <u>least</u> effective strategy for shift workers to improve personal relationships? educate family and friends about challenges of working shift schedules or long hours
	0	tell family what they can do to help
	0	shorten your time for sleep to meet the demands of work and the family
	0	adopt ways to maintain communications
	0	get enough good quality sleep
	eate	at is critical to recognize about these symptoms: difficulty focusing; frequent blinking; yawning edly or rubbing eyes; trouble keeping head up; feeling restless and Irritable?
	0	Can be dangerous if occurs when driving or performing critical tasks
	0	A person who has motivation, training, and professionalism can force himself or herself to stay awake. Both above
26.	Idei	ntify strategies that officers can use to increase their alertness.
	0	A. Eat sugar rich food
	0	B. Work in a brightly lit area or go outside in sunlight
	0	C. Have a good sleep environment and prepare oneself for sleep
	0	D. Take a short nap
	0	E. All his A (first items)
	0	F. All but A (first item)
27.	Lou	d snoring is something some people do while sleeping and is not something to be concerned about.
	0	True
	0	False
28.	Beh	navior (s) to promote falling asleep more easily and good sleep quality is (are):
	0	Eating a large meal an hour or two before bedtime
	0	Having a regular relaxing routine 1 hour or more before bedtime
	0	Exercise about 1 hour before bedtime
	0	Vary your times for going to sleep and getting up
	0	All of the above

29. Health problems, such as high blood pressure and gastrointestinal symptoms, have no relationship to the

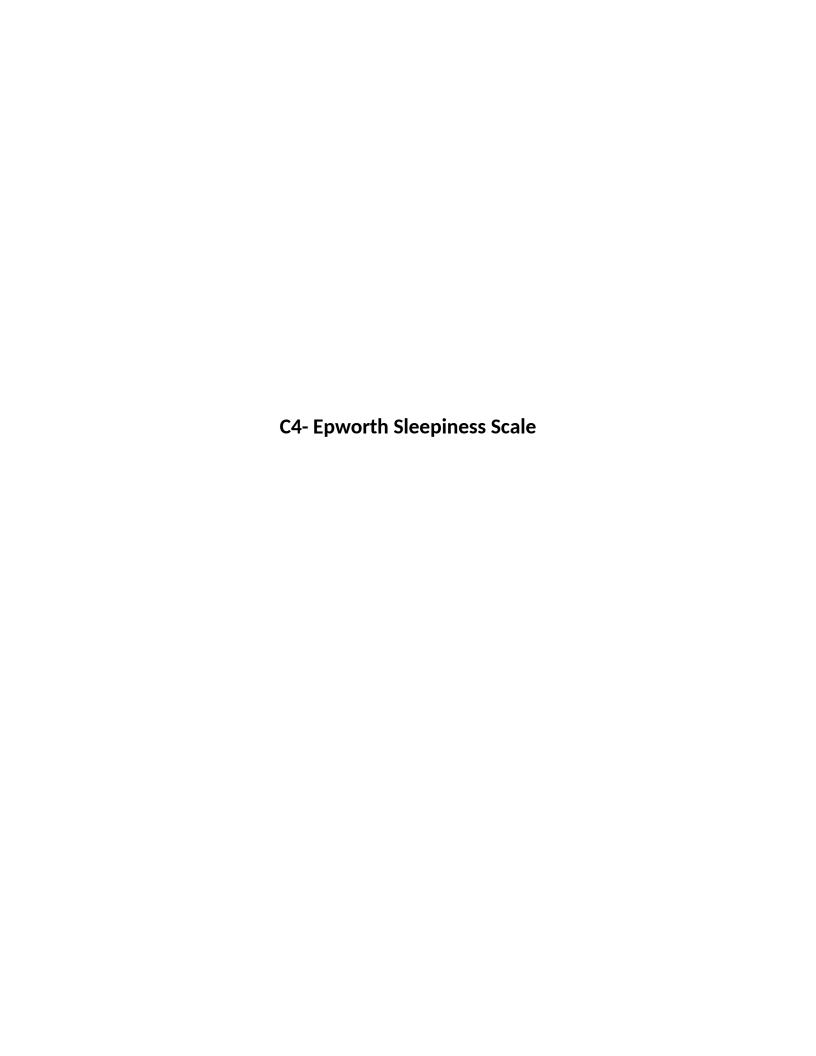

amount and quality of a person's sleep

0 True0 False

31. Fatigue-related impairments are similar to impairments due to alcohol intoxication.			
o True			
0 False			
32. Researchers report people tend to recognize when they are too sleep deprived to function adequately.			
0 True			
0 False			

30. Getting too little sleep or having poor quality sleep can increase hunger, eating and body weight.

0 True0 False

Epworth Sleepiness Scale (Johns 1993)

© 1990-1997 M.W. Johns; used under license.

In your current, usual way of life, how likely are you to nod off or fall asleep in the following situations, in contrast to feeling just tired? Even if you haven't done some of these things recently, try to work out how they would affect you. It is important that you answer each question as best you can.

Using the scale, choose the most appropriate number for each situation.

Situation	Would never nod off 0	Slight chance of nodding off 1	Moderate chance of nodding off 2	High chance of nodding off 3
Sitting and reading				
Watching TV				
Sitting, inactive, in a public place (e.g., in a meeting, theater, or dinner event)				
As a passenger in a car for an hour or more without stopping for a break				
Lying down to rest when circumstances permit				
Sitting and talking to someone				
Sitting quietly after a meal without alcohol				
In a car, while stopped for a few minutes in traffic or at a light				

Add your responses to each item to get your score. A score of 10 or greater raises concern: you may need to get more sleep, improve your sleep practices, or seek medical attention to determine why you are sleepy.

<u>If your score is 13 or higher, we recommend that you see your healthcare provider</u> for an evaluation and possibly a referral to a sleep disorder specialist for an evaluation and treatment to relieve excessive worktime sleepiness.

Public reporting burden of this collection of information is estimated to average 1minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-xxxx).

C5- Pittsburg Sleep Quality Index

Form Approved OMB No. 0920-XXXX Exp. Date xx/xx/20xx

Pittsburgh Sleep Quality Index

INSTRUCTIONS: The following questions relate to your usual sleep habits during the past month only. Your answers should indicate the most accurate reply <u>for the majority of days and nights between night shifts</u> <u>during the past month</u>. Please answer all questions.

during the past month. Please answer all questions.

C6- Feedback about the Training, Barriers, and Influential Pe	eople

Feedback about the Training, Barriers, and Influential People

Please rate the training. Give us your candid opinion-how was it?

On a scale from 1 to 5, where 1 indicates strongly disagree, and 5 indicates strongly agree, please give the number which indicates how much you agree or disagree with each statement.

	1	2	3	4	5
	Strongly agree		Neutra l		Strongly disagree
I liked this training overall.					
This training told me something I didn't already know.					
The training motivated me to take action.					
This training said something important to me.					
The messages were dumb.					
I did not like this training.					

Next questions ask how you feel about the CDC as the source of this information.

	Yes	No	Do not know/not sure	Refuse to respond
Have you heard of them before?				
Are they a good source of information?				
Do they seem trustworthy?				

Vas there any content in the training that was difficult to understand? If yes, which	
ections	
Vhat is the most negative part of the training?	_

Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-xxxx).

Is there additional content on the topic of sleep, shift work, and long work hours that you wo	ould have liked to
see? If yes, please enter the topics here.	
What could improve this training?	

Please indicate how strong a barrier it would be to use the information from this Training Program when working evenings, nights, rotating shifts, or long hours. Please select the number that corresponds with your opinion.

	1	2	3	4	5
	Not a barrier at all	Minimal barrier	Neutral	Strong barrier	Extremely strong barrier
The Cost	1	2	3	4	5
My lack of expertise in work schedule management	1	2	3	4	5
Lack of time to set up my sleep environment	1	2	3	4	5
Techniques are too difficult or complicated	1	2	3	4	5
Difficult to get support from persons I live with	1	2	3	4	5
Difficult to get support from family and friends I don't live with	1	2	3	4	5
Lack of support from my supervisor	1	2	3	4	5
Constraints of my home environment	1	2	3	4	5
My competing personal priorities	1	2	3	4	5

C7- Changes in Behaviors after the Training Program

Form Approved OMB No. 0920-XXXX Exp. Date xx/xx/20xx

Changes in Behaviors after the Training Program

Has your life improved at all since you took the NIOSH training for law enforcement?

- Yes, my life has improved because I took the NIOSH training for law enforcement
- o No, my life has not improved as a result of taking the NIOSH training for law enforcement

If yes, please explain:	
-------------------------	--

Have you noticed any changes in your behavior since you took the NIOSH training for law enforcement?

- o Yes, I have changed my behavior as a result of the NIOSH training for law enforcement
- o No, I have not changed my behavior as a result of the NIOSH training for law enforcement

If yes, please select all the ways in which you have changed your behavior:

- o I try to get more sleep
- o I take more naps than I used to
- o I have improved my sleeping environment
- o I use caffeine differently now and adjust the times I drink it and the amount
- o I pay more attention to my level of fatigue
- I am less likely to drive while drowsy
- I am more likely to balance bidding for overtime with my need for sleep
- o I use relaxation techniques
- o I educated my family and the important people in my life so they understand my needs due to my work hours
- o I went or plan to go to a sleep disorder specialist or my healthcare provider for help with sleep symptoms
- o Other

Please explain:	

Public reporting burden of this collection of information is estimated to average2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing the collection of information.
