BASELINE AND CONSENT FORM FOR PROGRAM STAFF

INFORMED CONSENT FORM

[PROGRAM NAME]¹

Apprenticeship Evidence-Building Portfolio

[PROGRAM NAME] IS PART OF A NATIONAL STUDY

[PROGRAM NAME] is participating in the Apprenticeship Evidence-Building Portfolio project, a national study sponsored by the U.S. Department of Labor. The study will learn how Apprenticeship programs can help improve the skills and employment outcomes of American workers. The U.S. Department of Labor has asked researchers from the Urban Institute and its partners, Mathematica and Capital Research Corporation, to assist with the study. We invite you to be a part of the study.

THE STUDY INCLUDES TWO GROUPS

All study participants will be in one of two groups: (1) those who are offered [PROGRAM NAME]'s services, and (2) those who are not but are still eligible to receive referrals to other services in the community. The study will compare outcomes for people in each group.

WHICH GROUP WILL I BE IN?

A computer will randomly select which group you will be in. The computer works like a flip of a coin—assignment to a group is random. This procedure makes sure that assignments to the groups are fair. Everyone who agrees to participate in the study has the same chance of being placed into either group. The chance of being able to receive [PROGRAM NAME services] is not influenced by what you say to us or your answers to the questions you will be asked when you apply. We will let you know which group you are assigned to at the end of the application process.

WHAT HAPPENS IF I AM NOT SELECTED TO RECEIVE [PROGRAM NAME] SERVICES?

If you are not randomly selected to participate in [PROGRAM NAME], you are still eligible to receive a list of other services in the community. You will be still be in the study.

WHAT INFORMATION WILL BE COLLECTED ABOUT ME?

The researchers will contact you over the next couple of years to collect some important information. In about [FILL] months, the researchers will contact you by email so that you can complete a follow-up survey online, which should take about [FILL]. This survey will include topics such as the education and training services you received from [PROGRAM NAME] or other providers in the community, your employment experience, and your earnings. If you are in the program, you may also be asked to participate in other study activities, such as a brief in-person interview.

If you agree to be part of the study, it means you are giving permission for [PROGRAM NAME] to share information with the researchers about the services you receive from the program including information on credits and degrees you have obtained. The researchers may also

¹ All fill-in brackets will be customized for each program

contact federal and state agencies for information about your employment and earnings and your receipt of benefits from such programs as unemployment insurance. The researchers may request this information for 2 years before and up to 15 years after you enroll in the study.

WILL MY PRIVACY BE PROTECTED?

Everything you tell the researchers will be used for research purposes only, unless the researchers are required by law to release it for some other purpose. All data will be kept securely and the researchers will not share your individual data with [PROGRAM NAME] or federal officials. Nobody will ever publish your name in connection with the information you provide. Instead, information about you will be combined with information about other people in the study, so researchers can describe the overall program effects and participants' experiences.

To help us protect your privacy, the researchers have obtained a Certificate of Confidentiality from the National Institutes of Health. With this Certificate, the researchers cannot be forced to disclose information that may identify you, even by a court subpoena, in any federal, state, or local civil, criminal, administrative, legislative, or other proceedings. The researchers will use the Certificate to resist any demands for information that would identify you, with one exception. The Certificate of Confidentiality does not prevent the researchers from disclosing information that would identify you as a participant in the research project if you tell the interviewers anything that suggests you are very likely to harm yourself, that you are planning to hurt another person or child, or that someone is likely to harm you.

You should understand that a Certificate of Confidentiality does not prevent you or a member of your family from voluntarily releasing information about yourself or your involvement in this research. If an insurer, employer, or other person obtains your written consent to receive research information, then the researchers may not use the Certificate to withhold that information.

WHAT ARE THE BENEFITS AND RISKS OF PARTICIPATING IN THE STUDY?

You may or may not benefit personally from participating in this study, but your participation in the study could help in improving services offered in the future to other people like you.

There are very minimal risks associated with participating in the study. You may feel uncomfortable answering some questions, but you can always refuse to answer those questions if you wish, and it will not change your participation in the program or the study. Although researchers will take many steps to protect all study information, there is a small risk that non-researchers could see it, including information about your employment and earnings. In addition, representatives from the U.S. Department of Labor and [IRB NAME] may inspect and have access to private information as they ensure your rights as a study participant are protected.

WILL I RECEIVE TOKENS OF APPRECIATION FOR MY PARTICIPATION?

You will not receive a token of appreciation today, but you will receive a token of appreciation for completing the follow-up survey [FILL TIME] from now. The researchers will send you an invitation once we are ready to start the follow-up survey.

IS MY PARTICIPATION VOLUNTARY?

We hope you will want to be in the study but your participation is strictly voluntary. If you decide now that you do not want to participate in the study, the researchers will not collect any information about you. However, you cannot participate in [PROGRAM NAME] if you do not participate in the study. Either way, it will not affect your access to other public benefits.

If you agree to be in the study now, you can withdraw from the study later. However, if you withdraw from the study and were assigned to the group that participates in [PROGRAM NAME], you will no longer be able to participate in [PROGRAM NAME]. By agreeing now to be in the study, even if later you tell us you want to withdraw from the study, you are authorizing researchers to use information that was collected about you before you withdrew. To withdraw from the study, you must call the study's help line and provide a written letter or email confirming that you no longer want to be in the study.

If you have any questions you can call the study team toll-free at 1-8XX-XXX-XXXX.

WHO CAN ANSWER MY QUESTIONS ABOUT THIS RESEARCH?

If you have questions, concerns, or complaints, or think this research has hurt you or made you sick, talk to the research team at the phone number(s) listed above on the first page.

This research is being overseen by an Independent Review Board ("IRB"). An IRB is a group of people who perform independent review of research studies. You may talk to them at [FILL CONTACT INFO] if:

- You have questions, concerns, or complaints that are not being answered by the research team.
- You are not getting answers from the research team.
- You cannot reach the research team.
- You want to talk to someone else about the research.
- You have questions about your rights as a research subject.

SUBJECT'S STATEMENT OF CONSENT

I consent to take part in this research study. This study and the information in this consent form have been explained to me. I have read this consent form or it has been read to me. I have had an opportunity to ask questions and they have been answered to my satisfaction. I have been told that I have not given up any legal rights.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 5 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is voluntary. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor, Office of the Chief Information Officer, Attention: Departmental Clearance Officer, 200 Constitution Avenue, N.W., Room N-1301, Washington, DC 20210 or email DOL_PRA_PUBLIC@dol.gov and reference the OMB Control Number 12XX-XXXX.
