Apprenticeship Evidence-Building Portfolio

Apprenticeship Program Partner Interview Topic Guide

INTRODUCTION

I am/we are researchers with The Urban Institute/Mathematica/Capital Research Corporation, private research organizations based in Washington, DC/Arlington VA which conduct policy-related research on a variety of social welfare and economic issues.

This project is being conducted under contract to the U.S. Department of Labor. Our visit here today is part of the Apprenticeship Evidence-Building Portfolio project, a national study sponsored by the U.S. Department of Labor. The study will learn how apprenticeship programs can help improve the skills and employment outcomes of American workers. A major aim of the study is to learn more about the different models of apprenticeship being implemented. In each program we visit, we will be speaking with program staff, program partners, and apprentices.

Privacy Statement: I/we want to thank you for agreeing to participate in the study. I/we know that you are busy and we will be as focused as possible and will only ask questions that are relevant to your experience. We have many questions and will be talking to many different people, so please do not feel as though we expect you to be able to answer every question. Your participation in this discussion is voluntary and you may choose not to answer some or any of our questions.

We believe the risks of participating in this study are minimal.

We believe there are no direct benefits to you, but we hope that the findings from this study will benefit the Apprenticeship Evidence-Building Portfolio project by providing research insights on how apprenticeship programs can benefit workers.

My colleague and I will be taking notes in order to document what we hear during our discussion, and we may record this discussion. We do not share these notes with anyone outside of our research team, including Department of Labor, and we will destroy these notes after the end of our project. When we compile our reports, the names of individual respondents will not be included. If we choose to quote you, you will only be identified by your title. You will not be quoted directly by name in any of our reports. While it is possible that you might be identified by your title, we will do our best to minimize the chance of that occurring.

Finally, to help us accurately capture the information you share, we would like to record this interview. The recording is just a back-up for our notes and will be kept within our small research team. The interview recording will be deleted once we have developed a full set of notes from the interview.

OMB Burden Statement: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays an Office of Management and Budget (OMB) control number. The valid OMB control number for this information collection is XXXX-XXXX. The time required to complete this collection of information is estimated to average 60 minutes, including the time to review instructions, search existing data resources, gather the data needed and

complete and review the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden Chiefevaluationoffice@DOL.gov and reference the OMB Control Number XXXX-ONEW.

Do you have any questions before we begin?

[If we decide to record the interview] Are you okay with us recording the interview to improve the accuracy of our notes?

Do I have your permission to begin the interview? [BEGIN INTERVIEW IF CONSENT GRANTED]
