Privacy Impact Assessment

Information Collected and Purpose

[Permits Online \(PONL\)](#) is a secure Commercial Off-The-Shelf (COTS) product providing a web-based system with the capability to submit, route, and/or process original and amended permit/registration applications. The permit process enables TTB to authorize applicants to operate alcohol and tobacco related businesses under the FAA Act and Internal Revenue Code. This functionality is provided for external use by Regulated Industry Member representatives and internally by TTB's National Revenue Center (NRC). The online application and electronic submission of TTB's original permit application saves both the applicant and TTB significant time and money and also protects the public in support of homeland security.

The application is subject to the Privacy Act and a Privacy Act SORN that addresses all required categories of information has been published in the Federal Register.
