<p>The National Center for Education Statistics (NCES), of the Institute of Education Sciences (IES), within the U.S. Department of Education, is requesting clearance to continue the Statewide Longitudinal Data System (SLDS) Survey collection, which is intended to provide insight on State and U.S. territory SLDS capacity for automated linking of K-12, teacher, postsecondary, workforce, career and technical education (CTE), adult education, and early childhood data. The SLDS Survey will continue to be collected annually from State Education Agencies (SEAs), and will help inform NCES ongoing evaluation and targeted technical assistance efforts to enhance the quality of the SLDS Program's support to States regarding systems development, enhancement, and use. This submission is to request OMB clearance to conduct the annual SLDS Survey from 2020 through 2022. Upon clearance of this package, a change request will be submitted with screenshots of the Google Form (see section A.3 for more information) that is still being programmed. While the date of that change request is entirely dependent upon the clearance of this package, we anticipate that the subsequent change request will be submitted in late Spring 2020.</p> <p>This request submits screenshots of the Google Form that will be used in the 2020 SLDS Data Collection, and associated updates to the webinar that will be conducted to provide guidelines to respondents. This request does not introduce significant changes to the estimated respondent burden or the costs to the federal government.</p>
