This appendix provides the survey facsimile for the 2020/22 Beginning Postsecondary Students Longitudinal Study (BPS:20/22) field test.

The goal of the BPS:20/22 field test survey is to follow up with students whose first postsecondary enrollment after high school occurred during the 2018-2019 academic year. In the survey, respondents will provide an update of their enrollment and employment history, as well as financial aid, income and expenses, and demographic information, through the 2020-2021 academic year.

To maintain key longitudinal measures across BPS cohorts, the BPS:20/22 field test survey content is initially drawn from the most recent first follow-up survey of a BPS cohort, BPS:12/14 (OMB #1850-0631). Additional content is drawn from the NPSAS:20 full-scale survey (OMB #1850-0666 v. 29) to provide longitudinal measures within the BPS:20 cohort. Data elements brought forward from NPSAS:20 will enable longitudinal analysis of new topics including academic experiences and activities, emergency aid, and student basic needs (e.g., housing and food security). Some BPS:12/14 items were not included as base-year measures in NPSAS:20 due to limited relevance or analytic value. Thus, these items will not be included in the BPS:20/22 survey (e.g., discount rate, attended night courses, etc.).

Most question wording for the BPS:20/22 field test survey remains unchanged from how it was administered in prior studies. However, some modifications of wording were based on results from BPS:20/22 Cognitive and Usability Testing (OMB #1850-0803 v. 260) or recommendations from the Technical Review Panel, noted in table 1. A summary of the cognitive and usability testing findings can be found in Appendix D. Revisions to the survey are intended to reflect current research goals and improve data quality.

A change was made to the administration of the enrollment section for the BPS:20/22 field test survey. Prior BPS studies collected information about other NPSAS institution enrollment and non-NPSAS institution enrollment separately; however, sections have been combined to increase efficiency and improve respondent comprehension of the data requested. The enrollment data elements from the BPS:12/14 full-scale survey remain unchanged but will now be represented by a single variable rather than two. To maintain a concise summary of item-specific changes, the modifications discussed above (i.e., BPS:12/14 items not included as base-year measures, combining enrollment loops) are not documented in table 1.

Table 1 lists all items in the instrument and provides a summary of item-specific changes. The “Change” column indicates whether BPS:20/22 field test survey items have changed from the prior OMB-approved full-scale postsecondary studies identified in the “Source” column. Revised items (“R”), in purple font, have been modified from their previous version. Added items (“A”), in green font, are new to the postsecondary studies, have been tested in pretesting activities, and will be fielded for the first time in the

BPS:20/22 field test survey. The “Source” column identifies the recent study from which items included in the survey have come. The “Rationale” column explains how and why specific content changed.

The last column in table 1 identifies items that will be included in the BPS:20/22 field test reinterview (“Reinterview item” column). The reinterview will be administered to respondents who completed the survey, approximately 4 weeks following completion of the main survey. A notation of “(REINTERVIEW)” has been added next to these items in the facsimile.

Any added or revised items and those items to be included in the reinterview survey are individually listed in the hyperlinked table of contents on page E-14.

In addition to your survey responses, we collect other enrollment-related data from your institution and sources such as student loan databases and admissions testing agencies. Your responses, combined with any student record information, may be used for statistical purposes and will not be disclosed, or used, in personally identifiable forms for any other purpose, except as required by law (20 U. S. C. §9573 and 6 U. S. C. §151).

Sometimes there are opportunities for researchers to use data from previous studies or to share data with each other if they are conducting similar research. For these reasons, we may use or share your deidentified data with other researchers. If we do so, we will not contact you to ask for your additional informed consent.

Your participation is voluntary and will not affect any aid or other benefits that you may receive. You may decline to answer any question or stop the survey at any time. The risks of participating in this study are small and relate to data security. We have the following precautions in place - your responses are stored within an enhanced security network, only authorized project staff have access to data, and all staff have participated in privacy training, signed confidentiality agreements, and undergone rigorous background checks. All personally identifiable information will be kept in secure and protected data files, and will be separate from the responses you've already provided in this survey.

If you have any questions about this study, you may contact the study's director, Michael Bryan, at XXX-XXX-XXXX. For questions about your rights as a participant, please contact RTI's Office of Research Protection toll-free at XXX-XXX-XXXX.

Help Text: Degrees:

An associate's degree normally requires at least 2, but less than 4 years, of full-time equivalent college work.

A bachelor's degree is usually awarded by a 4-year college or university and usually requires at least 4 years of full-time, college-level work.

A master's degree usually requires at least 2 years of full-time graduate-level work and may require a thesis or a practicum.

A doctoral degree - research/scholarship is a PhD or other doctoral degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include EdD, DMA, DBA, DSc, DA, or DM, and others, as designated by the awarding institution.

A doctoral degree - professional practice is a doctoral degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals

at least six full-time equivalent academic years. Some of these degrees include: chiropractic (DC or DCM); dentistry (DDS or DMD); law (LLB or JD); medicine (MD); optometry (OD), osteopathic medicine (DO); pharmacy (PharmD); podiatry (DPM, PodD, DP); or veterinary medicine (DVM), and others, as designated by the awarding institution.

A doctoral degree - other is a doctoral degree that does not meet the definition of a doctor's degree-research/scholarship or a doctor's degree-professional practice.

Certificates and Diplomas:

Undergraduate certificates or diplomas usually take less than two years to complete and are usually designed to equip people with the skills needed for direct entry to employment or to earn a license such as a cosmetology license. Other examples include certificates in administrative support, computer programming, and medical records.

A post-baccalaureate certificate provides students who already hold a bachelor's degree with new or additional training in an area of specialization. Certificates typically require fewer course hours than do master's or doctoral degrees, and do not require a thesis or dissertation. Examples of this include certificates in accounting, computer science, and human resource management.

A post-master's certificate usually requires completion of 24 semester credit hours beyond the master's degree but does not meet the requirements of academic degrees at the doctoral level.

Not enrolled for a degree or certificate:

Undergraduate level classes means taking courses at the undergraduate level but not formally enrolling in a degree or certificate program of any sort.

Graduate level classes are for students who already hold an undergraduate degree or certificate and who are enrolled in graduate-level courses beyond a bachelor's degree, but who are not formally enrolled in a graduate degree program.

B22AUGSTVER

Were you primarily an undergraduate working toward a bachelor's degree at [NPSAS institution] in the 2018-2019 academic year (July 1, 2018 - June 30, 2019)?

1 = Yes

0 = No

Help Text: You indicated being enrolled in a bachelor's degree program and a graduate degree program at [NPSAS institution] at the same time. If that is not correct, please back up to the previous question and correct your answer.

Answer Yes to this question if the majority of your coursework was still undergraduate-level coursework in a bachelor's degree program and you had not yet completed the requirements to be awarded your bachelor's degree.

A bachelor's degree is considered an undergraduate degree and is usually awarded by a 4-year college or university and usually requires at least 4 years of full-time, college-level work.

B22AELCRD

In the 2018-2019 academic year, were you taking at least one course for credit at [NPSAS institution] that could be applied toward fulfilling the requirements for an academic degree?

1 = Yes

0 = No

Help Text: Courses for credit are those that could be applied to a formal degree program. Do not count courses taken purely for personal interest or recreation.

B22ADIPL

Which of the following best describes your high school completion?

1 = Received a high school diploma in the United States

2 = Received a GED (General Educational Development) certificate or other equivalent credential (such as HiSET or TASC)

3 = Received a high school completion certificate

4 = Attended a foreign high school

6 = Homeschooled

5 = Did not complete high school or a high school equivalency program

Help Text: A high school diploma is awarded to students after successful completion of the required courses at a high school. This category also

includes Adult High School Diplomas.

High school equivalency programs allow those who did not finish high school to earn the equivalent of a high school diploma by completing classes and/or passing required exams. Commonly offered high school equivalency exams include the GED (General Educational Development), the TASC (Test Assessing Secondary Completion), and the HiSet (High School Equivalency Testing).

A high school completion certificate indicates that you attended high school for the minimum number of days required for completion but did not complete all graduation requirements (for example, did not pass the number of courses required for a diploma).

If you completed high school in a country other than the United States, select attended a foreign high school.

If you did not attend a traditional public or private high school but instead were taught at home by a parent or some other individual, select homeschooled.

If you have not yet completed high school, select Did not complete high school or a high school equivalency program.

Help Text: Degrees:

An associate's degree normally requires at least 2, but less than 4 years, of full-time equivalent college work.

A bachelor's degree is usually awarded by a 4-year college or university and usually requires at least 4 years of full-time, college-level work.

A master's degree usually requires at least 2 years of full-time graduate-level work and may require a thesis or a practicum.

A doctoral degree - research/scholarship is a PhD or other doctoral degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include EdD, DMA, DBA, DSc, DA, or DM, and others, as designated by the awarding institution.

A doctoral degree - professional practice is a doctoral degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees include: chiropractic (DC or DCM); dentistry (DDS or DMD); law (LLB or JD); medicine (MD); optometry (OD), osteopathic medicine (DO); pharmacy (PharmD); podiatry (DPM, PodD, DP); or veterinary medicine (DVM), and others, as designated by the awarding institution.

A doctoral degree - other is a doctoral degree that does not meet the definition of a doctor's degree-research/scholarship or a doctor's degree-professional practice.

Certificates and Diplomas:

Undergraduate certificates or diplomas usually take less than two years to complete and are usually designed to equip people with the skills needed for direct entry to employment or to earn a license such as a cosmetology license. Other examples include certificates in administrative support, computer programming, and medical records.

A post-baccalaureate certificate provides students who already hold a bachelor's degree with new or additional training in an area of specialization. Certificates typically require fewer course hours than do master's or doctoral degrees, and do not require a thesis or dissertation. Examples of this include

certificates in accounting, computer science, and human resource management.

A post-master's certificate usually requires completion of 24 semester credit hours beyond the master's degree but does not meet the requirements of academic degrees at the doctoral level.

Not enrolled for a degree or certificate:

Undergraduate level classes means taking courses at the undergraduate level but not formally enrolling in a degree or certificate program of any sort.

Graduate level classes are for students who already hold an undergraduate degree or certificate and who are enrolled in graduate-level courses beyond a bachelor's degree, but who are not formally enrolled in a graduate degree program.

9 = Doctoral degree, research/scholarship (including: PhD, EdD, etc.)

Help Text: Indicate the highest level of education that you ever expect to complete at any school. If you do not plan to pursue any education beyond what you are currently working on, indicate your current degree, certificate, or classes.

Undergraduate level courses, no undergraduate degree or certificate expected means taking courses at the undergraduate level but not expecting to formally enroll in a degree or certificate program of any sort.

Undergraduate certificates or diplomas usually take less than two years to complete and are usually designed to equip people with the skills needed for direct entry to employment or to earn a license such as a cosmetology license. Other examples include certificates in administrative support, computer programming, and medical records.

An associate's degree normally requires at least 2, but less than 4 years, of full-time equivalent college work.

A bachelor's degree is usually awarded by a 4-year college or university and

usually requires at least 4 years of full-time, college-level work.

Graduate level courses, no graduate degree or certificate expected means already holding an undergraduate degree or certificate and enrolling in graduate-level courses beyond a bachelor's degree, but not expecting to formally enroll in a graduate degree program.

A post-baccalaureate certificate provides students who already hold a bachelor's degree with new or additional training in an area of specialization. Certificates typically require fewer course hours than do master's or doctoral degrees, and do not require a thesis or dissertation. Examples of this include certificates in accounting, computer science, and human resource management.

A master's degree usually requires at least 2 years of full-time graduate-level work and may require a thesis or a practicum.

A post-master's certificate usually requires completion of 24 semester credit hours beyond the master's degree but does not meet the requirements of academic degrees at the doctoral level.

A professional doctoral degree is a doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees include: chiropractic (DC, or DCM); dentistry (DDS or DMD); law (LLB or JD); medicine (MD); optometry (OD), osteopathic medicine (DO); pharmacy (PharmD); Podiatry (DPM, PodD, DP); or veterinary medicine (DVM), and others, as designated by the awarding institution.

A doctoral degree, research/scholarship is a PhD or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include EdD, DMA, DBA, DSc, DA, or DM, and others, as designated by the awarding institution.

Help Text: Indicate the highest level of education that your spouse ever completed. If your spouse was in school for a particular degree but has not completed that degree, choose the option for the highest completed degree or level of education.

High school: Completion of the secondary level of education, usually in the form of a high school diploma, high school completion certificate, or General Educational Development (GED) equivalency exam.

Vocational/technical training: Prepares learners for careers that are based in manual or practical activities, traditionally non-academic and related to a specific trade, occupation or vocation.

Associate's degree: An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

Bachelor's degree: A degree, usually awarded by a 4-year college or university, that usually requires at least 4 years of full-time college-level work.

Master's degree (MA, MS, MBA, MFA, etc.): A university-awarded degree that usually requires at least 2 years of full-time graduate-level work, and may require a thesis or a practicum.

Professional degree: A formal award certifying the satisfactory completion of a postsecondary education program in any of the following professional fields: chiropractic, dentistry, law, medicine, optometry, osteopathic medicine, pharmacy, podiatry, divinity/theology, or veterinary medicine.

Doctoral degree (PhD, EdD, etc.): A university-awarded degree that usually requires at least 4 years of full-time graduate-level work and usually requires a dissertation.

Answer Yes if you actively communicated with an office or department offering the service by:

visiting

e-mailing

calling

texting

video conferencing

other correspondence.

Answer No if you have only received informational materials about the service, such as an e-mail or postal letter to which you did not respond.

Receiving financial aid in itself would not be considered financial aid counseling or advice, but receiving guidance on the financial aid process from the financial aid office would. Similarly, having health insurance would not be considered using the health center and services, but visiting the health clinic at a school would.

The next few questions will ask about any student loans you have taken out for your education since high school. There are two main types of loans we are interested in:

Private student loans are borrowed from a private lender, such as a bank or sometimes a state, usually require a co-signer, and have market interest rates based on credit history.

Federal student loans, such as subsidized and unsubsidized Direct Loans (also known as Stafford Loans), are from the federal government.

B22CRCVLN (REINTERVIEW)

Did you take out any student loans for the 2020-2021 school year?

1 = Yes

Help Text: Indicate whether you took out any student loans for the 2020-2021 academic year (July 1, 2020 – June 30, 2021). Include money borrowed for all schools you attended in 2020-2021. Student loans are money that you borrowed from the federal government or from a private lender.

Do not include Parent PLUS loans, grants or scholarships, or money borrowed from family or friends.

Students must file a FAFSA (Free Application for Federal Student Aid) in order to be considered eligible for federal loans.

Subsidized and unsubsidized Direct Loans (also known as Stafford Loans)
An education loan borrowed from the federal government (Direct Loans), with an interest rate and other terms that are set by the federal government.

Undergraduate and graduate level students are eligible to receive Direct Loans, which can be either subsidized or unsubsidized.

Private loans are offered by private lenders. Some common characteristics of private loans are noted below.

With private loans there are no federal application forms to complete.

Some students and parents use private loans as a supplement when their federal loans do not provide enough money.

Private loans can have higher interest rates than federal loans.

Unlike federal student loans, private loans are credit based and therefore often require a cosigner if the student does not have an established credit history.

Some examples of commonly used private loans include:

Sallie Mae Smart Option Loan

Wells Fargo Collegiate Loan

Discover Student Loan

PNC Solution Loan

SunTrust Custom Choice Loan

Other types of private student loans can include, but are not limited to, loans from credit unions, loans from other banks or financial institutions, or state loan programs. States with private student loan programs include Alaska, Connecticut, Delaware, Georgia, Kentucky, Massachusetts, Minnesota, Mississippi, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Texas, Vermont, West Virginia, and Wisconsin.

Home equity loans are not considered private loans.

Private loans are offered by private lenders. Some common characteristics of private loans are noted below.

With private loans there are no federal application forms to complete. Some students and parents use private loans as a supplement when their federal loans do not provide enough money. Private loans can have higher interest rates than federal loans. Unlike federal student loans, private loans are credit based and therefore often require a cosigner if the student does not have an established credit history.

Some examples of commonly used private loans include:

- Sallie Mae Smart Option Loan
- Wells Fargo Collegiate Loan
- Discover Student Loan
- PNC Solution Loan
- SunTrust Custom Choice Loan

Other types of private student loans can include, but are not limited to, loans from credit unions, loans from other banks or financial institutions, or state loan programs. States with private student loan programs include Alaska, Connecticut, Delaware, Georgia, Kentucky, Massachusetts, Minnesota, Mississippi, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Texas, Vermont, West Virginia, and Wisconsin.

Home equity loans are not considered private loans.

Are you currently repaying your private loans?

1 = Yes

2 = No, because they are already paid off

3 = No, because [{if USERMODE = CATI} you {else} I] have an agreement with [{if USERMODE = CATI} your {else} my] lender to delay or defer payments

0 = No

Help Text: If you are currently repaying any private student loans, even if you are still in your deferment period, please answer Yes.

Deferred or delayed loan payments are put off until a later date. Deferment of private loans is on a loan-by-loan basis and often varies among lenders.

In order to defer private loan payments, generally, the borrower must apply online on the lender's website, over the telephone, via fax or through postal mail.

The application may also require supporting documentation, such as a copy of your paycheck stub, unemployment compensation statement, disability award letter or a certified letter from your school verifying your enrollment status.

If you are not currently repaying your private loans and have an agreement with the lender of these loans to delay or defer payment, answer No, because I have an agreement with my lender to delay or defer payments.

Help Text: Benefits are a type of non-monetary employee compensation provided in addition to salary. Select Yes for each benefit your employer offered to you, regardless of whether or not you used the benefit.

Health insurance pays all or part of the costs for your medical, dental, vision, or other health care. It may be either completely employer-paid, or offered at a reduced rate as an employee-paid benefit.

Life insurance provides a predetermined amount of money to the family member or other person you have identified to receive the support in case of death. It may be either completely employer-paid, or offered at a reduced rate as an employee-paid benefit.

Retirement benefits are funds that you, your employer, or both, can set aside to invest while you are working. In defined benefit plans (sometimes called pension plans), at the time of retirement, employees are provided a set amount based on salary or years of service. In defined contribution plans like a 401(k)/403(b), both employee and employer contribute specific amounts but the benefit available upon retirement is tied to investment earnings.

0 = No

Help Text: Answer Yes if you or anyone in your family household received any of the following benefits at any time during 2018 or 2019:

Medicaid provides health coverage to eligible low-income adults, children, pregnant women, elderly adults, and people with disabilities. Medicaid is administered by states according to federal requirements and is funded jointly by states and the federal government.

The Supplemental Security Income (SSI) program pays benefits to disabled adults and children who have limited income and resources. It is designed to help aged, blind, and disabled people who have little or no income and provides cash to meet basic needs for food, clothing, and shelter.

The federal Food Stamp Program was renamed Supplemental Nutrition Assistance Program (SNAP). Some state program names may vary. States typically issue SNAP benefits through electronic benefit transfer (EBT) cards that are used to purchase eligible food in authorized retail food stores, farmers' markets, etc. EBT cards work like debit cards.

TANF (Temporary Assistance for Needy Families) payments provide financial assistance to families with limited resources. The assistance is time-limited (typically a maximum of 60 months). TANF may have a different name in your parents' state.

A Free and Reduced Price School Lunch program, also known as the National School Lunch Program (NSLP), is a federally assisted meal program operating in public and nonprofit private schools and residential child care institutions. It provides nutritionally balanced, low-cost or free lunches to children each school day. Household size and family income are used to determine eligibility for free or reduced price school lunch programs.

WIC (the Special Supplemental Nutrition Program for Women, Infants, and Children) is an assistance program for low-income pregnant women or new mothers, infants, and children up to age 5 who are at nutritional risk. WIC provides nutrition education, supplemental foods, health screenings, and health care referrals.

Are you a U. S. citizen?

1 = Yes

2 = No - Permanent resident, or other eligible noncitizen; hold a temporary resident's card or other eligible noncitizen temporary resident's card

3 = No - Student visa, in the country on an F1 or F2 visa, or on a J1 or J2 exchange visitor visa

4 = No - Other

Help Text: Indicate your citizenship status. If you are a U. S. citizen or U. S. national, answer Yes.

If you are a U. S. permanent resident with a Permanent Resident Card (I-551), sometimes called a Green Card, or an eligible noncitizen with an Arrival-Departure Record (I-94), or an eligible noncitizen with a Temporary Resident Card (I-688), select No - Permanent resident, or other eligible noncitizen; hold a temporary resident's card or other eligible noncitizen temporary resident's card.

If you are in the U. S. under any of the following, please select No - Student visa, in the country on an F1 or F2 visa, or on a J1 or J2 exchange visitor visa.

The F-1 Visa (Academic Student) allows an eligible noncitizen to enter the United States as a full-time student at an accredited college, university, seminary, conservatory, academic high school, elementary school, or other academic institution or in a language training program. The eligible noncitizen must be enrolled in a program or course of study that culminates in a degree, diploma, or certificate, and the school must be authorized by the U. S. government to accept international students.

F2 Visa - For a spouse and/or dependent children of a student with an F1 visa to enter the U. S.

The Exchange Visitor (J) nonimmigrant visa category is for individuals approved to participate in work- and study-based exchange visitor programs such as: educators at a U. S. accredited primary or secondary school, Au Pair, or camp counselor. Participants are integral to the success of the program.

J2 Visa - For a spouse and/or dependent children of a person with a J1 visa to enter the U. S.

If none of these categories describe your citizenship status select No - Other.

Male

Female

Transgender, male-to-female

Transgender, female-to-male

Genderqueer or gender nonconforming

Please describe
A different identity
Please describe

Help Text: This question will help us better understand the experiences of people of all gender identities.

Gender includes gender identity and gender expression. Gender identity means one's inner sense of one's own gender, which may or may not match the sex assigned at birth. Different people choose to express their gender identity differently. For some, gender may be expressed through, for example, dress, grooming, mannerisms, speech patterns, and social interactions. Gender expression usually ranges between masculine and feminine, and some transgender people express their gender consistent with how they identify internally, rather than in accordance with the sex they were assigned at birth.

Transgender: When a person's birth sex and gender do not match, they might think of themselves as transgender.

Gender queer and gender nonconforming: These are terms used to identify people whose gender may not conform to the sex they were assigned at birth. Often these terms may be used by people who identify their gender as something other than "male" or "female." Their gender may fall somewhere between male and female or may fall outside the traditional male/female gender distinctions.
