

### Airport Data Change Form (Public/Private Use)

**Instruction**

- All Part 157 airport data changes must be submitted to the respective FAA regional office (RFO) or airport district office (ADO) for proposed changes. The RFO or ADO is responsible for providing the results of the aeronautical evaluation and effects to the airport operator and the Aeronautical Data team.
- Please specify additions, deletions, or revisions to the Chart Supplement (CS).
- Requests for changes to aeronautical charts and related products, including Airport Sketches and Airport Diagrams (except MILITARY airports), should be submitted through the online Aeronautical Chart Change Form. All changes for MILITARY airports should use the Airport Data Change Form.
- Review the Aeronautical Data team [CUI-Of-Data](#) for submission of aeronautical data and chart changes.
