

JUSTIFICATION FOR NON-SUBSTANTIVE CHANGE

Control of Alcohol and Drug Use in Railroad Operations

(Associated Forms)

OMB Control Number 2130-0526

Justification:

FRA is making a non-material/non-substantive change as follows:

- Add the correct version of the previously approved forms FRA F 6180.73, FRA F 6180.74, and FRA F 6180.75, which were approved under OMB Control Number 2130-0526 on 05/16/2017. This change does not effect the total burden time to complete the forms nor does it collect any new information. No other changes have been made to this collection.
