

OMB Control No. 3060-0806

Screenshots of Current Entity Profile (by entity type): We propose, among other things, a modification that only will require district-wide information, as well as simplify how a school district counts its students. We also propose to require library system-wide information, rather than library entity information, such as square footage.

School

POSSIBLE NEW UI EXAMPLE

Attribute	Value	Notes
Budget-Attributes		
Number of Full Time Students	105	Is the student count based on an enrollment? <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes (Only for Non-Charter Schools)

Basic Information Entity Information **Funding Requests** Certifications

Next, you will edit the eligible cost allocated to the recipient(s) below

If two or more entities are sharing telecommunications line(s), you can allocate the single line equally among the entities. For example, if two entities share a single circuit, indicate 0.5 line per entity.

Edit Eligible Cost Allocated to the Recipient(s)

Please allocate the remaining Total Eligible Line Item Cost of **\$11,560.00** to the entity(ies) below.

1. **cmsschoolcon1db (BEN: 17225636)**

2. **cmsschool2sdconsortiadb (BEN: 17225638)**
