

INSTRUCTIONS FOR FCC 314

APPLICATION FOR CONSENT TO ASSIGNMENT OF BROADCAST STATION CONSTRUCTION PERMIT OR LICENSE

GENERAL INSTRUCTIONS

A. This FCC Form is to be used to apply for authority to assign a broadcast station construction permit or license. It consists of the following sections:

- I. General Information (assignor, assignee, and contact representatives, if any)
- II. Assignor
- III. Assignee

The assignor must complete Items 1, 2, 6 and 7 of Section I and all of Section II; the assignee must complete Items 3-5 of Section I and all of Section III.

B. This application form makes many references to FCC rules. Applicants should have on hand and be familiar with current broadcast rules in Title 47 of the Code of Federal Regulations (C.F.R.):

- (1) Part 0 "Commission Organization"
- (2) Part 1 "Practice and Procedure"
- (3) Part 73 "Radio Broadcast Services"
- (4) Part 74 "Experimental Radio, Auxiliary, and Special Broadcast and Other Program Distributional Services"

FCC Rules may be purchased from the Government Printing Office. Current prices may be obtained from the GPO Customer Service Desk at (202) 512-1803. For payment by credit card, call (202) 512-1800, M-F, 8 a.m. to 4 p.m. e.s.t; facsimile orders may be placed by dialing (202) 518-2233, 24 hours a day. Payment by check may be made to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954.

C. Electronic Filing of Application Forms. The Commission is currently developing electronic versions of various broadcast station application and reporting forms, such as this application form. As each application form and report goes online, the Commission will by Public Notice announce its availability and the procedures to be followed for accessing and filing the application form or report electronically via the Internet. For a six-month period following the issuance of the Public Notice, the subject application form or report can be filed with the Commission either electronically or in a paper format. Electronic filing will become mandatory, on a form-by-form basis, six months after each application form or report becomes available for filing electronically.

D. Mandatory electronic filing of FCC Form 314 commenced on February 15, 2001. *See Mass Media Bureau Implements Mandatory Electronic Filing of FCC Forms 301, 314, and 315*, Public Notice, 16 FCC Rcd 3989 (MB 2001). Paper versions of FCC Form 314 will not be accepted for filing, unless accompanied by an appropriate request for waiver of the electronic filing requirement. Applicants can access the electronic filing system via the Internet from the Media Bureau's Web site at: <http://www.fcc.gov/mb>.

E. Public Notice Requirements:

- (1) 47 C.F.R. Section 73.3580 requires that applicants for consent to assignment of a construction permit or license for a commercial full-service AM, FM, full power TV, Class A TV, low-power TV (LPTV), or TV or FM translator station give local notice by posting notice online, either on the station website or a website affiliated with the station, its licensee, or its parent entity, or otherwise by posting notice on a publicly accessible, locally targeted website, for 30 continuous days following acceptance of the application for filing, in the form prescribed in 47 CFR § 73.3580(b)(2).
- (2) An applicant for consent to assignment of a construction permit or license for a commercial full-service AM, FM, full power TV, Class A TV, or an LPTV station that locally originates programming is also required to provide public notice by broadcasting announcements pursuant to 47 CFR § 73.3580(c)(2)(i), at least once per week, Monday through Friday, from 7:00 a.m. to 11:00 p.m. local time, six times over a four consecutive week period, in the form prescribed in 47 CFR § 73.3580(b)(1), unless the station is off the air, in which case it shall post online notice.
- (3) An applicant for consent to assignment of a construction permit or license for a noncommercial educational (NCE) full-service AM, FM, full power TV, or low-power FM (LPFM) station need only provide notice by broadcasting on-air announcements, unless the station is off the air, in which case it shall provide online notice. The public notice requirements set forth above also apply with respect to major amendments to applications as defined in 47 C.F.R. Section 73.3578(b).
- (4) Compliance or intent to comply with the public notice requirements must be certified by the Assignor in Item 7 of Section II of this application.

F. A copy of the completed application and all related documents shall be made available for inspection by the public in the station's public inspection file pursuant to 47 C.F.R. Section 73.3526 for commercial stations and Section 73.3527 for noncommercial educational stations.

G. Applicants should provide all information called for by this application. If any portions of the application are not applicable, the applicant should so state. **Defective or incomplete applications will be returned without consideration.** Inadvertently accepted applications are subject to dismissal. See 47 C.F.R. § 73.3564(b).

H. In accordance with 47 C.F.R. Section 1.65, applicants have a continuing obligation to advise the Commission, through amendments, of any substantial and material changes in the information furnished in this application. This requirement continues until the FCC action on this application is no longer subject to reconsideration by the Commission or review by any court.

I. This application requires applicants to certify compliance with many statutory and regulatory requirements. Detailed instructions and worksheets provide additional information regarding Commission rules and policies. These materials are designed to track the standards and criteria which the Commission applies to determine compliance and to increase the reliability of applicant certifications. They are not intended to be a substitute for familiarity with the Communications Act and the Commission's regulations, policies, and precedent. While applicants are required to review all application instructions and worksheets, they are not required to complete or retain any documentation created or collected to complete the application. See Section II, Item 1 and Section III, Item 1.

J. This application is presented primarily in a "Yes/No" certification format. However, it contains places for submitting explanations and exhibits where necessary or appropriate. Each certification constitutes a material representation. Applicants may only mark the "Yes" certification when they are certain that the response is correct. A "No" response is required if the applicant is requesting a waiver of a pertinent rule and/or policy, or where the applicant is uncertain that the application fully satisfies the pertinent rule and/or policy. Thus, a "No" response to any of the certification items **will not** cause the

immediate dismissal of the application provided that an appropriate exhibit is submitted.

K. **Both parties to the transaction must sign the application.** Depending on the nature of the applicant, the application should be signed as follows: if a sole proprietorship, personally; if a partnership, by a general partner; if a corporation, by an officer; if an unincorporated association, by a member who is an officer; for a governmental entity, by such duly elected or appointed official as is competent under the laws of the particular jurisdiction. Counsel may sign the application for his or her client, but only in cases of the applicant's disability or absence from the United States. When an application is filed electronically, the signature will consist of the electronic equivalent of the typed name of the individual. See *1998 Biennial Regulatory Review -- Streamlining of Mass Media Applications, Rules, and Processes*, 13 FCC Rcd 23056, 23064, para. 17 (1998).

L. **Incubator Program – Applications (AM and FM stations).** The FCC's broadcast incubator program is designed to support new and diverse entrants in the broadcasting industry by encouraging larger, experienced broadcasters to assist small, aspiring or struggling broadcasters that lack the financing or operational expertise needed to own and operate a full-service AM or FM station. See *Rules and Policies to Promote New Entry and Ownership Diversity in the Broadcasting Services*, Report and Order, 33 FCC Rcd 7911 (2018) (*Incubator Order*); approved by OMB control number: 3060-1260. Through the incubator program, an established broadcaster (i.e., the incubating entity) will provide a small, aspiring or struggling station owner (i.e., the incubated entity) with the training, financing, and access to resources that would be otherwise unavailable to the incubated entity. At the end of a successful incubation relationship, the incubated entity will own and operate a full-service AM or FM station independently and the incubated station will be on a firmer footing if the station was struggling at the start of the relationship. In return for successfully incubating a small, aspiring or struggling broadcaster, the incubating entity will be eligible to apply to receive a waiver of the Commission's Local Radio Ownership Rule following the successful conclusion of the incubation relationship.

Eligibility. The incubator program is available for full-service AM and FM radio stations. A potential incubated entity must meet the following eligibility requirements and must have met these requirements continuously for the preceding three years:

- (1) Numerical Cap. The potential incubated entity has an attributable interest in no more than three full-service AM and FM radio stations and no TV stations (including licensed stations and unbuilt

construction permits); and

- (2) Revenue Cap. The potential incubated entity qualifies as a “small business” under the Small Business Administration’s size standard for the radio industry, as set forth in 13 C.F.R. Section 121.201.

The FCC’s attribution standards and policies are set forth in the Notes to 47 C.F.R. Section 73.3555. In addition, the potential incubated entity must submit a written statement certifying that it would not be able to acquire a full-service broadcast station or continue operating its struggling station without the support that the proposed incubation relationship will provide.

Filing Requirements. Before commencing a qualifying incubation relationship, the potential incubated entity and the potential incubating entity must first submit an incubation proposal to the Media Bureau for approval. See *Incubator Order*, 33 FCC Rcd at 7941-44. The incubation proposal must demonstrate that the potential incubated entity and the potential incubating entity are both eligible to participate in the incubator program and that their proposed incubation relationship meets FCC requirements for qualifying incubation relationships. The incubation proposal must include the following documents:

- (1) a written incubation contract demonstrating that the proposed incubation relationship meets FCC requirements for the incubator program (see *Incubator Order*, 33 FCC Rcd at 7942-43);
- (2) a certified statement from the potential incubated entity demonstrating that it has the requisite background and qualifications and that it truly needs the incubator program (see *Incubator Order*, 33 FCC Rcd at 7943-44);
- (3) a certified statement from the potential incubating entity demonstrating that it is committed and has the resources and experience necessary to make the incubation relationship successful (see *Incubator Order*, 33 FCC Rcd at 7943-44). This statement should also specify the size tier of the incubated station’s market under the Local Radio Ownership Rule and the number of independent owners of full-service, commercial and noncommercial radio stations in that market (see *Incubator Order*, 33 FCC Rcd at 7937-38); and
- (4) a request for a temporary waiver of the Local Radio Ownership Rule if the incubation proposal would cause the proposed incubating entity to exceed the local radio ownership limits (see *Incubator Order*, 33 FCC Rcd at 7940).

Additional filing requirements will apply during the term of an incubation relationship. See *Incubator Order*, 33 FCC Rcd at 7944-46. If the station to be assigned (as specified in Section II of this application) is the subject of an incubation

proposal, the incubation proposal must be submitted by the proposed assignee as an attachment to item 6.d of Section III of this application. When uploading, the Commission suggests that filers tag the submission for tracking purposes by including “Incubation Proposal” in the description of the attachment.

Approved by OMB control number: 3060-1260. We have estimated that each response to this collection of information will take 4 to 16 hours. Please refer to the notice on the last page of the instructions for additional information required by the Paperwork Reduction Act.

- M. **Incubator Program – Reward Waiver Requests (AM and FM stations).** After successfully completing an approved incubation relationship, the incubating entity will be eligible to apply to receive a waiver of the Commission’s Local Radio Ownership Rule. Generally, the waiver request and licensing application must be filed within three years after the date the incubation relationship ends. However, if the incubation relationship required a temporary waiver of the Local Radio Ownership Rule and the incubating entity seeks to use its reward waiver to acquire the incubated station (or to retain an attributable interest in the station), then the reward waiver request and licensing application must be filed contemporaneously with the final joint certified statement. See *Incubator Order*, 33 FCC Rcd at 7945-46; approved by OMB control number: 3060-1260.

The waiver request must demonstrate that the incubated entity completed a successful incubation relationship, see *Incubator Order*, 33 FCC Rcd at 7940-41, and that the incubating entity seeks to use the waiver in the same market as the incubated station or a comparable market, see *Incubator Order*, 33 FCC Rcd at 7937-39. An applicant seeking a reward waiver must also attach to its request a copy of the Bureau document(s) approving the successful incubation relationship, including any document(s) approving an extension of the original term of the relationship. If the incubation relationship was approved in conjunction with an assignment or transfer of a station, or the grant of a new construction permit, the reward waiver request must also include the file number of the relevant licensing application. When uploading, the Commission suggests that filers tag the submission for tracking purposes by including “Reward Waiver Request” in the description of the attachment.

Approved by OMB control number: 3060-1260. We have estimated that each response to this collection of information will take 4 to 16 hours. Please refer to the notice on the last page of the instructions for additional information required by the Paperwork Reduction Act.

INSTRUCTIONS FOR SECTION I -- GENERAL INFORMATION

- A. **Items 1-4: Names/Addresses.** In Section I, applicants should use only those state abbreviations approved by the U.S. Postal Service.

The name of the assignor must be stated in Item 1 exactly as it appears in the authorization to be assigned.

The exact and complete name of the assignee must be stated in Item 3: if the assignee is a corporation, the exact corporate name; if a partnership, the name under which the partnership does business; if an unincorporated association, the name of an executive officer, his/her office, and the name of the association; and, if an individual applicant, the person's full legal name.

FCC Registration Number (FRN). To comply with the Debt Collection Improvement Act of 1996, the applicant must enter its FRN number, a ten-digit unique entity identifier for anyone doing business with the Commission. The FRN can be obtained through the FCC webpage at <http://www.fcc.gov> or by manually submitting FCC Form 160. FCC Form 160 is available for downloading from <http://www.fcc.gov/formpage.html> or by calling 1-800-418-3676. Questions concerning the FCC Registration Number can be directed to the Commission's Registration System help desk at <http://www.CORES@fcc.gov> or by calling 1-877-480-3201.

Facility ID Number. Radio and TV Facility ID Numbers can be obtained at the FCC's Internet Website at www.fcc.gov/mb. Once at this website, scroll down and select CDBS Public Access. You can also obtain your Facility ID Number by calling: Radio (202) 418-2700, TV (202) 418-1600. Further, the Facility ID Number is now included on all Radio and TV authorizations and postcards.

If the assignor and/or assignee is represented by a third party (for example, legal counsel), that person's name, firm or company, mailing address and telephone/electronic mail address may be specified in Items 2 (for assignor) and 4 (for assignee).

- B. **Item 5: Fees.** The Commission is statutorily required to collect charges for certain regulatory services to the public. Generally, applicants seeking to assign licenses or permits of AM, FM, or TV broadcast stations are required to submit a fee with the filing of FCC Form 314. Government entities, however, are exempt from this fee requirement. Exempt entities include possessions, states, cities, counties, towns, villages, municipal organizations, and political organizations or subparts thereof governed by elected or appointed officials exercising sovereign direction over communities or governmental programs. Also exempt are

full-service noncommercial educational radio, noncommercial educational TV, and LPFM licensees and permittees, **provided** that the AM station(s) being acquired will continue to operate noncommercially. See 47 C.F.R. § 1.1114.

When electronically filing a fee-exempt application, an applicant must complete Item 5 and provide an explanation as appropriate. Paper versions of applications **NOT** subject to a fee may be hand-delivered or mailed to the FCC at its Washington, D.C. offices. See 47 C.F.R. § 0.401(a). Fee-exempt applications should not be sent to the Mellon Bank Lockbox; so doing will result in a delay in processing the application.

The Commission's fee collection program utilizes a U.S. Treasury lockbox bank for maximum efficiency of collection and processing. Prior to the institution of electronic filing procedures, all FCC Form 314 applications requiring the remittance of a fee, or for which a waiver or deferral from the fee requirement is requested, must be submitted to the appropriate post office box address. See 47 C.F.R. § 0.401(b). A listing of the fees required for the assignment of various types of broadcast station construction permits and licenses and the addresses to which FCC Form 314 should be mailed or otherwise delivered are also set forth in the "Media Bureau Fee Filing Guide." This document can be obtained either by writing to the Commission's Form Distribution Center, 9300 E. Hampton Drive, Capitol Heights, Maryland 20743, or by calling 1-800-418-FORM. See also 47 C.F.R. § 1.1104. The Fee Filing Guide also contains a list of the Fee Type Codes needed to complete this application.

A separate fee payment must be submitted for each FCC Form 314 filed. Where multiple stations are being assigned on one FCC 314, a single payment covering the total required fee, calculated according to the number of AM, FM, or TV station permits or licenses covered by that FCC Form 314, must be made.

Payment of any required fee must be made by check, bank draft, money order, or credit card. If payment is by check, bank draft, or money order, the remittance must be denominated in U.S. dollars, drawn upon a U.S. institution, and made payable to the "Federal Communications Commission." No postdated, altered, or third-party checks will be accepted. **DO NOT SEND CASH.** Additionally, checks dated six months or older will not be accepted.

Applicants who wish to pay for **more than one application in the same lockbox with a single payment** may also submit a single FCC Form 159. When paying for multiple filings in the same lockbox with a single payment instrument, applicants must list each filing as a separate item on FCC Form 159 (Remittance Advice). If additional entries are necessary, applicants should use FCC Form

159C (Continuation Sheet).

Procedures for payment of application fees when applications are filed electronically will be announced by subsequent Public Notice. See General Instruction C above. Payment of application fees may be made by Electronic Payment **prior to** the institution of electronic filing procedures, provided that prior approval has been obtained from the Commission. Licensees/Permittees interested in this option must first contact the Credit and Debt Management Center at (202) 418-1995 to make the necessary arrangements.

Applicants hand-delivering FCC Forms 314 may receive a dated receipt copy by presenting a complete copy of the filing to the acceptance clerk at the time of delivery. For mailed-in applications, a "return copy" of the application should be furnished and clearly marked as a "return copy." The applicant should attach this copy to a stamped, self-addressed envelope. Only one piece of paper per application will be stamped for receipt purposes.

For further information regarding fees and payment procedures, applicants should consult the "Media Bureau Fee Filing Guide."

- C. **Item 7: Auction Authorization.** Under the Commission's competitive bidding licensing procedures, applicants seeking to assign a broadcast construction permit or license within three years of receipt of the original construction permit by means of competitive bidding must inform the Commission that the permit or license was obtained through competitive bidding. See 47 C.F.R. § 1.2111(a). Item 7 requires the applicant to identify those authorizations that were obtained through competitive bidding, and for which FCC consent to assignment is sought in this application.

The Commission's auction rules also require an applicant seeking approval of an assignment of a license or construction permit within three years of receipt of such authorization by means of competitive bidding to file with the Commission the associated contracts for sale, option agreements, management agreements, or other documents disclosing the consideration that the applicant will receive in return for the assignment of its license or permit. See 47 C.F.R. §§ 1.2111(a), 73.5009(a). **If applicable, this information should be submitted as an exhibit to Item 7.**

Item 8: Noncommercial Educational Maintenance of Comparative Qualifications. Under the Commission's licensing procedures for stations operating on channels reserved for noncommercial educational use, applicants seeking to assign a noncommercial educational TV, FM, or FM translator station received as a result of evaluation in a point system are subject to certain restrictions if the station has not after the point system operated for four years with a minimum operating schedule. Applicants seeking to assign a low power FM station are similarly subject to certain restrictions if (1) it has been less than 18

months since the initial construction permit was granted; or (2) the station was received as a result of evaluation in a point system.

Item 8(a) requires the applicant to indicate whether any authorizations were obtained through a point system. Answer "yes" if any of the reserved channel noncommercial educational stations involved in the transaction were authorized pursuant to a point system selection procedure, regardless of whether authorization was issued to the applicant or to a predecessor. Applicants operating only on non-reserved "commercial" channels should answer "no." Applicants operating on reserved channels should answer "no" if all stations were authorized before May 2000 and no major modifications have occurred, or if all stations authorized from May 2000 onward were authorized using a method other than point system [such as award to a single applicant, authorization pursuant to a settlement agreement among all mutually exclusive parties, or selection of an applicant based on comparison pursuant to 47 U.S.C. Section 307(b) (fair distribution) only].

Item 8(b) applies only to applicants who answered "yes" to 8(a). It asks whether all stations awarded by the point system have satisfied the four-year "maintenance of comparative qualifications" period. Applicants should answer "yes" to 8(b) if, between the time of the point system authorization and the time of the present application, the station has operated pursuant to that authorization for four years (48 months) on-air, pursuant to the Commission's minimum operating schedule. Applicants with stations not yet meeting the four-year period should answer "no" and provide an exhibit identifying the stations that have not met the "maintenance of comparative qualifications" period, and demonstrating that the transaction is consistent with 47 C.F.R. Section 73.7005(a). Pursuant to that rule section, the applicant must demonstrate the following: (1) that the proposed assignee would qualify for points equal to or greater than those of the party that prevailed in the point system; **and** (2) that consideration received and/or promised does not exceed the assignor's legitimate and prudent expenses in applying for and constructing the station.

Items 8(c) through 8(f) apply only to applicants assigning a low power FM station. It asks whether it has been at least 18 months since the station's initial construction permit was granted. A LPFM construction permit cannot be assigned for 18 months from the date of issue. See 47 C.F.R. Section 73.865(c). The question also asks whether the assignment satisfies the LPFM consideration restrictions and whether the applicant seeks to assign any LPFM stations awarded by the point system. If an LPFM station awarded through the point system has operated on-air for less than four years, the assignee must demonstrate that the proposed transaction is consistent with 47 C.F.R. Section 73.865(a)(3). Pursuant to that rule section, the proposed assignee must demonstrate the following: (1) that it meets or exceeds the points awarded to the LPFM

tentative selectee; and (2) for LPFM stations selected in accordance with the involuntary time-sharing provisions of Section 73.872(d), the date the assignee was “locally established” must be the same as or earlier than the date of the most recently established local applicant in the tied MX group.

and Order, 25 FCC Rcd 1583 (2010) (*Rural First R&O*), *modified*, Second Report and Order, 26 FCC Rcd 2556 (2011) (*Rural Second R&O*), *modified*, Third Report and Order, 26 FCC Rcd 17642 (2011) (*Rural Third R&O*), and 47 C.F.R. Section 73.7002(b)(1) [applicable only to noncommercial educational stations], individuals or entities obtaining

D. **Item 9: Tribal Priority Holding Period.** Under the Commission’s Tribal Priority (see *Policies to Promote Rural Radio Service and to Streamline Allotment and Assignment Procedures*, First Report

(a) an AM authorization for which the applicant or a predecessor claimed and received a dispositive Section 307(b) priority because it qualified for the

Tribal Priority; or

(b) an FM commercial non-reserved band station awarded:

(1) to the applicant or a predecessor as a singleton Threshold Qualifications Window applicant,

(2) to the applicant or a predecessor after a settlement among Threshold Qualifications Window applicants, or

(3) to the applicant or a predecessor after an auction among a closed group of bidders composed only of threshold qualified tribal applicants (pursuant to the Threshold Qualifications procedures set forth in the *Rural Third R&O*, 26 FCC Rcd at 17645- 50); or

(c) a reserved-band NCE FM station for which the applicant or predecessor claimed and received the Tribal Priority in a fair distribution analysis as set forth in 47 C.F.R. Section 73.7002(b)(1)

may not assign the authorization during the period beginning with issuance of the construction permit, until the conclusion of four years of on-air operations, unless the assignee also qualifies for the Tribal Priority.

Item 9(a) requires the applicant to indicate whether any authorizations were obtained after award of a dispositive Section 307(b) preference using the Tribal Priority, through Threshold Qualifications procedures, or through the Tribal Priority as applied before the NCE fair distribution analysis set forth in 47 C.F.R. Section 73.7002(b). Answer “yes” if any of the stations involved in the transactions were

(a) an AM authorization for which the applicant or a predecessor claimed and received a dispositive Section 307(b) priority because it qualified for the Tribal Priority; or

(b) an FM commercial non-reserved band station awarded through the Threshold Qualifications procedures detailed in the preceding paragraph; or

(c) a reserved-band NCE FM station for which the applicant or predecessor claimed and received the Tribal Priority in a fair distribution analysis as set forth in 47 C.F.R. Section 73.7002(b)(1).

Item 9(b) applies only to applicants who answered “yes” to 9(a). It asks whether all stations acquired using the Tribal Priority have completed four years of on-air operations, thus satisfying the four-year holding period for such stations. Applicants should answer “yes” to 9(b) if, between the time of construction permit issuance and the time of the present application, the station has operated pursuant to that authorization for four years (48 months) on-air, pursuant to the Commission’s minimum operating

schedule. Applicants with stations not yet meeting the four-year holding period should answer “no” and proceed to Item 9(c).

Item 9(c) applies only to applicants who answered “no” to 9(b). It asks whether both the assignor/transferor and assignee/transferee are individuals or entities qualifying for the Tribal Priority in all respects. To qualify for the Tribal Priority, an applicant must meet all of the following qualifications:

- (A) The applicant is a “Tribe” as defined in 47 C.F.R. Section 73.7000 (while the definitions in 47 C.F.R. Section 73.7000 apply only to NCE stations, the definition of “Tribe” accurately describes the qualifications for commercial as well as NCE applicants), a consortium of Tribes, or an entity 51 percent or more of which is owned or controlled by a Tribe or Tribes. Qualifying Tribes or Tribal entities must be those at least a portion of whose Tribal Lands lie within the principal community contour of the proposed facility. Although the 51 or greater percent Tribal control threshold need not consist of a single Tribe, the qualifying entity must be 51 percent or more owned or controlled by Tribes at least a portion of whose Tribal Lands lie within the proposed facility’s principal community contour;
- (B) (1) At least 50 percent of the area within the proposed principal community contour is over that Tribe’s Tribal Lands, or (2) the proposed principal community contour (a) encompasses 50 percent or more of that Tribe’s Tribal Lands, (b) serves at least 2,000 people living on Tribal Lands, and (c) the total population on Tribal Lands residing within the proposed station’s service contour constitutes at least 50 percent of the total covered population (and, in the case of either (B)(1) or (B)(2), the proposed station’s principal community contour does not cover more than 50 percent of the Tribal Lands of a Tribe that is not a party to the application). To the extent that a Tribe lacks Tribal Lands, the Commission will be receptive to requests for waiver of the above-listed tribal land coverage provisions that demonstrate a geographic area identified with the Tribe. Likewise, the Commission will entertain requests for waiver of the other requirements where appropriate; see *Rural Second R&O*, 26 FCC Rcd at 2561-63;
- (C) The proposed community of license must be located on Tribal Lands; and
- (D) The proposed service must constitute first or second aural (reception) service, or first local Tribal-owned commercial transmission service at

the proposed community of license.

For purposes of this item, the definition of "Tribal Lands" is the same as that set forth at footnote 15 of the *Rural First R&O*, and as further set forth at paragraphs 8-10 and 59 of the *Rural Second R&O*. As noted above, an applicant whose stations were initially acquired through the Tribal Priority may only assign or transfer the station(s) during the four-year holding period to another individual or entity qualifying for the Tribal Priority. Applicants not meeting the qualifications for the Tribal Priority and proposing an assignment during the holding period should answer "no" and provide an exhibit identifying the assignee(s) not qualifying for the Tribal Priority and/or the station(s) that have not met the holding period, and demonstrating that the transaction is consistent with the Tribal Priority policies set forth in the *Rural First R&O*, or that a waiver of the policies underlying the Tribal Priority is warranted.

INSTRUCTIONS FOR SECTION II -- ASSIGNOR

- A. **Item 1: Certification.** Each applicant is responsible for the information that the application instructions and worksheets convey. As a key element in the Commission's streamlined licensing process, a certification that these materials have been reviewed and that each question response is based on the applicant's review is required.
- B. **Item 2: Authorizations to be Assigned.** Unless specifically enumerated as excluded authorizations, the licenses for all subsidiary communications services (SCAs), FM and TV booster stations, and all auxiliary service stations authorized under Subparts D, E, F, and H of 47 C.F.R. Part 74 will be included in the assignment of the license or permit of the primary station(s). Applicants should complete the table. If preparing this application in paper form, attach a separate page using the table format when additional space is needed.

NOTE: Applications for transactions involving only the assignment of a permit or license for a TV or FM translator station or a low power television station must be filed on **FCC Form 345**. The submission of a separate filing fee with the filing of FCC Form 345 may also be required.

- C. **Item 3: Agreements for Sale of Station.** All applicants must submit to the Commission with this application and place in the public inspection file of each subject station a complete and final copy of the unredacted contract for the assignment of the authorizations that are the subject of this application, including all exhibits and attachments. The application and contracts must be retained in the public inspection file until **final** action is taken on this application, with the exception that any application granted pursuant to a waiver of any Commission rule must be retained in the

public file for as long as the waiver is in effect. See 47 C.F.R. Sections 73.3526(e)(2) (for commercial stations) and 73.3527(e)(2) (for noncommercial educational stations). Applicants must certify their compliance with these requirements in Items 3a and 3b.

Item 3c asks applicants to certify that the agreements for assignment of the subject authorizations "comply fully with the Commission's rules and policies." In order to complete this certification, applicants must consider a broad range of issues. Worksheet #2 provides guidance on key compliance issues to facilitate applicants' review of their proposed transactions, and to help applicants identify issues where additional explanatory exhibits may be required or helpful. If the applicant also holds a time brokerage agreement (also known as a local marketing agreement) pursuant to which the assignee will supply programming to a station in the market, or a joint sales agreement pursuant to which the assignee will sell commercial advertising time for a station in the market, prior to FCC approval, then applicants must review Worksheet #3D.

- D. **Item 4: Other Authorizations.** Instructions for Section III, Item 4 define "party to the application" and attributable interest" as used in this question.
- E. **Items 5 and 6: Character Issues/Adverse Findings.** These questions require an evaluation of any unresolved character issues involving the assignor or any of its principals, as well as any relevant adverse findings by a court or administrative body. Assignors must review the instructions for Section III, Items 4, 7 and 8, of this form before completing this item.
- F. **Item 8: Auction Authorization.** This question asks the assignor to certify that the proposed assignment will comply with the "unjust enrichment" provisions of the Commission's competitive bidding rules, 47 C.F.R. Section 1.2111(d)(1). Assignors must review the instructions for Section III, Item 12 before completing this item.
- G. **Item 9: Anti-Drug Abuse Act Certification.** This question requires the assignor to certify that neither it nor any party to the application is subject to denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862. Assignors must review the instructions for Section III, Item 13, of this form before completing this item.
- H. **Item 10: Anti-Discrimination Certification.** This question requires the assignor to certify that neither it nor any party to the application has violated the Commission's prohibition against discrimination on the basis of race, color, religion, national origin or sex in the sale of commercially operated AM, FM, TV, Class A TV or international broadcast stations. See *Promoting Diversification of Ownership in the Broadcasting*

Services, Report and Order and Third Further Notice of Proposed Rule Making, 23 FCC Rcd 5922 (2008) (*Diversity Order* and *Diversity Third FNPRM*). Where the response to Item 10 is "no," the assignor must provide in an exhibit a full disclosure of the persons and matters involved. The assignor should also fully explain why the violation is not an impediment to a grant of this application. For transactions involving the sale or transfer of non-commercial educational FM stations, noncommercial educational TV stations, or broadcast stations in the AM, Class A TV, or international broadcast services that are operated on a non-commercial basis, the assignor should select "N/A" in response to this question.

INSTRUCTIONS FOR SECTION III -- ASSIGNEE

A. **Item 1: Certification.** Assignees must review the instructions for Section II, Item 1 before completing this item.

B. **Item 2(a): Organization of Assignee.** This question asks the assignee to specify its organizational structure. If the assignee's structure fits none of the categories of business entities enumerated, the assignee must check the box marked "Other" and attach an exhibit describing in detail its organizational structure.

Item 2(b): If the station to be assigned is a noncommercial educational station, indicate whether the Commission has previously approved the applicant's educational qualifications and program and whether the applicant will use the proposed station to advance a similar program. Applicants answering "Yes" should indicate the file number of the most recent application in which the Commission granted such approval, and need not provide an exhibit in Question 4(b).

Item 2(c): Applicants not previously approved or planning to advance a program dissimilar from the one previously approved must establish their qualifications. The applicant must provide an exhibit showing that it has an educational objective and that the station will be used for the advancement of an education program that will further that objective in accordance with 47 C.F.R. Section 73.503. In considering these requirements, emphasis is placed on proposed station programs which are clearly educational in nature, i.e., actually involve teaching or instruction, whether for formal credit or not. However, it is not necessary that the proposed station's programming be exclusively educational in nature. Also, all programming on the station must be noncommercial in nature, with no advertisements, and no support for or opposition of a candidate for political office.

C. **Item 3: Agreements for Sale of Station.** This question requires the assignee to certify that the written agreement

submitted with the application and contained in the licensee/permittee's public inspection file embodies the complete and final agreement between the parties and that the agreement complies fully with the Commission's rules and policies regarding station sales contracts. The assignee must undertake an independent evaluation of the contract in order to make this certification. Worksheet #2 provides guidance on key compliance issues to facilitate applicants' review of their proposed transaction, and to help applicants identify issues where additional explanatory exhibits may be required or helpful. If the applicant has an attributable time brokerage or local marketing agreement, or an attributable joint sales agreement, for the stations subject to the application or for any other stations in the same market, then the applicant must review Worksheet #3D. Applicants who are required to demonstrate compliance with 47 C.F.R. Section 73.3555(a) must file a copy of each such agreement for radio stations as an exhibit to the application.

D. **Item 4: Parties to the Application.** This question requires the disclosure of information on the assignee and all parties to the application. As used in this application form, the term "party to the application" includes any individual or entity whose ownership or positional interest in the applicant is attributable. An attributable interest is an ownership interest in or relation to an applicant or licensee which will confer on its holder that degree of influence or control over the applicant or licensee sufficient to implicate the Commission's multiple ownership rules. In responding to Item 4, applicants should review the Commission's multiple ownership attribution policies and standards which are set forth in the Notes to 47 C.F.R. Section 73.3555. Generally, insulated limited partners or members of a limited liability corporation, certain investors, and certain creditors are not considered parties to the application. However, as set forth in Worksheet #3E entitled, "Investor Insulation and Non-Party Influence over Assignee/Applicant," the holder of such an interest may be deemed a party to the application and, if so, must be listed in the table in Item 4a. In the event that the Investor Insulation and Non-Party Influence over Assignee/Applicant worksheet requires the submission of an explanatory exhibit, the transferee must respond "No" to Section III, Item 4b and complete this exhibit.

Certain interests held by substantial investors in, or creditors of, the applicant may also be attributable and the investor reportable as a party to the application, if the interest falls within the Commission's equity/debt plus (EDP) attribution standard. Under the EDP standard, the interest held is attributable if, aggregating both equity and debt, it exceeds 33 percent of the total asset value (all equity plus all debt) of the applicant – a broadcast station licensee, cable television system, daily newspaper or other media outlet subject to the Commission's broadcast

multiple ownership or cross-ownership rules – AND the interest holder also holds (1) an attributable interest in a media outlet in the same market, or (2) supplies over 15 percent of the total weekly broadcast programming hours of the station in which the interest is held. For example, the equity interest of an insulated limited partner in a limited partnership applicant would normally not be considered attributable, but, under the EDP standard, that interest would be attributable if the limited partner's interest exceeded 33 percent of the applicant's total asset value AND the limited partner also held a 5 percent voting interest in a radio or television station licensee in the same market.

The interest holder may, however, exceed the 33 percent threshold without triggering attribution where such investment would enable an eligible entity to acquire a broadcast station provided that: (1) the combined equity and debt of the interest holder in the eligible entity is less than 50 percent, or (2) the total debt of the interest holder in the eligible entity does not exceed 80 percent of the asset value of the station being acquired by the eligible entity and the interest holder does not hold any equity interest, option, or promise to acquire an equity interest in the eligible entity or any related entity. *See Diversity Order*, 23 FCC Rcd at 5936, para. 31; *2014 Quadrennial Regulatory Review – Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996*, Second Report and Order, 31 FCC Rcd 9864, 9976-84, paras. 271-86 (2016) (*2014 Quadrennial Review Order*).

The Commission defines an "eligible entity" as any entity that qualifies as a small business under the Small Business Administration's size standards for its industry grouping, as set forth in 13 C.F.R. Section 121.201, and holds (1) 30 percent or more of the stock or partnership interests and more than 50 percent of the voting power of the corporation or partnership that will own the media outlet; or (2) 15 percent or more of the stock or partnership interests and more than 50 percent of the voting power of the corporation or partnership that will own the media outlet, provided that no other person or entity owns or controls more than 25 percent of the outstanding stock or partnership interests; or (3) more than 50 percent of the voting power of the corporation that will own the media outlet if such corporation is a publicly traded company.

In the event the Assignee claims status as an eligible entity, the Assignee must select "Yes" to Section III, item 6d and submit an explanatory exhibit demonstrating compliance. The Assignee must retain and provide on request, material documentation, including, for example, annual financial statements or tax returns, etc., used to establish the basis for the applicant's response.

Divestiture Of Grandfathered Stations To Eligible Entities: If the proposed assignment transaction involves the assignment of a radio station that is (1) part of a grandfathered cluster of stations; and (2) will be divested to an eligible entity (as defined in Item 6d, above), or to an irrevocable divestiture trust for purposes of assignment to an eligible entity, within 12 months of consummation of the purchase of the grandfathered cluster of stations, the Assignee must select "Yes" to Section III, Item 6e. All applicants answering "Yes" to Item 6e A or B must submit as an Exhibit a copy of the form of irrevocable trust agreement providing for the assignment of the station(s) to an Eligible Entity.

As used here, the term "assignee" is synonymous with the term "applicant." Additionally, "parties to the application" includes the following with respect to each of the listed applicant entities:

INDIVIDUAL APPLICANT: The natural person seeking to hold in his or her own right the authorization specified in this application.

PARTNERSHIP APPLICANT: Each partner, including all limited partners. However, a limited partner in a limited partnership is **not** considered a party to the application **IF** the limited partner is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership and the applicant so certifies in response to Section III, Item 4b. Sufficient insulation of a limited partner for purposes of this certification would be assured if the limited partnership arrangement:

- (1) specifies that any exempt limited partner (if not a natural person, its directors, officers, partners, etc.) cannot act as an employee of the limited partnership if his or her functions, directly or indirectly, relate to the media enterprises of the company;
- (2) bars any exempt limited partner from serving, in any material capacity, as an independent contractor or agent with respect to the partnership's media enterprises;
- (3) restricts any exempted limited partner from communicating with the licensee or the general partner on matters pertaining to the day-to-day operations of its business;
- (4) empowers the general partner to veto any admissions of additional general partners admitted by vote of the exempt limited partners;
- (5) prohibits any exempt limited partner from voting on

the removal of a general partner or limits this right to situations where the general partner is subject to bankruptcy proceedings, as described in Sections 402 (4)-(5) of the Revised Uniform Limited Partnership Act, is adjudicated incompetent by a court of competent jurisdiction, or is removed for cause, as determined by an independent party;

- (6) bars any exempt limited partner from performing any services to the limited partnership materially relating to its media activities, with the exception of making loans to, or acting as a surety for, the business; and
- (7) states, in express terms, that any exempt limited partner is prohibited from becoming actively involved in the management or operation of the media businesses of the partnership.

Notwithstanding conformance of the partnership agreement to these criteria, however, the requisite certification cannot be made if the applicant has actual knowledge of a material involvement of a limited partner in the management or operation of the media-related businesses of the partnership. In the event that the applicant cannot certify as to the noninvolvement of a limited partner, the limited partner will be considered as a party to this application.

LIMITED LIABILITY COMPANY APPLICANT: The Commission treats an LLC as a limited partnership, each of whose members is considered to be a party to the application. However, where an LLC member is insulated in the manner specified above with respect to a limited partnership and where the relevant state statute authorizing the LLC permits an LLC member to insulate itself in accordance with the Commission's criteria, that LLC member is not considered a party to the application. In such a case, the applicant should certify "Yes" in response to Section III, Item 4b.

CORPORATE APPLICANT: Each officer, director and owner of stock accounting for 5% or more of the issued and outstanding voting stock of the applicant is considered a party to the applicant. Where the 5% stock owner is itself a corporation, each of its stockholders, directors and "executive" officers (president, vice-president, secretary, treasurer or their equivalents) is considered a party to this application **UNLESS** the applicant submits as an exhibit a statement establishing that an individual director or officer will not exercise authority or influence in areas that will affect the applicant or the station. In this statement, the applicant should identify the individual by name and title, describe the individual's duties and responsibilities, and explain the manner in which such individual is insulated from the corporate applicant and should not be attributed an interest in the corporate applicant or considered a party to this application. In addition, a person or entity holding an

ownership interest in the corporate stockholder of the applicant is considered a party to this application **ONLY IF** that interest, when multiplied by the corporate stockholder's interest in the applicant, would account for 5% or more of the issued and outstanding voting stock of the applicant. For example, where Corporation X owns stock accounting for 25% of the applicant's votes, only Corporation X shareholders holding 20 percent or more of the issued and outstanding voting stock of Corporation X have a 5% or more indirect interest in the applicant ($.25 \times .20 = .05$) and, therefore, are considered parties to this application. In applying the multiplier, any entity holding more than 50% of its subsidiary will be considered a 100% owner. Where the 5% stock owner is a partnership, each general partner and any limited partner that is not insulated, regardless of the partnership interest, is considered a party to the application.

Stock subject to stockholder cooperative voting agreements accounting for 5% or more of the votes in a corporate applicant will be treated as if held by a single entity and any stockholder holding 5% or more of the stock in that block is considered a party to this application.

An investment company, insurance company or trust department of a bank is not considered a party to this application, and an applicant may properly certify that such entity's interest is non-attributable, **IF** its aggregated holding accounts for less than 20% of the outstanding votes in the applicant **AND IF**:

- (1) such entity exercises no influence or control over the corporation, directly or indirectly; and
- (2) such entity has no representatives among the officers and directors of the corporation.

ANY OTHER APPLICANT: Each executive officer, member of the governing board and owner or holder of 5% or more of the votes in the applicant is considered a party to the applicant.

- E. **Item 6: Multiple Ownership.** For radio applicants: This item requires that the assignee either certify compliance with, or request waiver of, the Commission's broadcast ownership rules, including restrictions on investor insulation and participation of non-party investors and creditors. In either case, applicants must submit an Exhibit; i.e., an Exhibit is required demonstrating compliance with the ownership rules or, if the applicant cannot certify compliance, requesting a waiver or exemption, with adequate justification. For all other applicants: This item requires that the assignee certify compliance with the Commission's broadcast ownership rules, including restrictions on investor insulation and participation of non-party investors and creditors.

In order to facilitate the evaluation of the transaction that is the subject of this FCC Form 314, assignees are directed to Worksheet #3, which is tailored to the individual inquiries in Item 6.

- F. **Items 7 and 8: Character Issues/Adverse Findings.** Item 7 requires the assignee to certify that neither it nor any party to the application has had any interest in or connection with an application that was or is the subject of unresolved character issues. An assignee must disclose in response to Item 8 whether it or any party to the application has been the subject of a final adverse finding with respect to certain relevant non-broadcast matters. The Commission's character policies and litigation reporting requirements for broadcast applicants focus on misconduct which violates the Communications Act or a Commission rule or policy, and on certain specified non-FCC misconduct. In responding to Items 7 and 8, applicants should review the Commission's character qualification policies, which are fully set forth in *Policy Regarding Character Qualifications In Broadcast Licensing, Amendment of Rules of Broadcast Practice and Procedure Relating to Written Responses to Commission Inquiries, and the Making of Misrepresentations to the Commission by Permittees and Licensees*, Report, Order and Policy Statement, 102 F.C.C.2d 1179 (1985), *recon. denied*, 1 FCC Rcd 421 (1986), *as modified*, 5 FCC Rcd 3252 (1990) and 7 FCC Rcd 6564 (1992).

Where the response to Item 7 is "No," the assignee must submit an exhibit that includes an identification of the party having had the interest, the call letters and location of the station or file number of the application or docket, and a description of the nature of the interest or connection, including relevant dates. The assignee should also fully explain why the unresolved character issue is not an impediment to a grant of this application.

In responding to Item 8, the assignee should consider any relevant adverse finding that occurred within the past ten years. Where that adverse finding was fully disclosed to the Commission in an application filed on behalf of this station or in another broadcast station application and the Commission, by specific ruling or by subsequent grant of the application, found the adverse finding not to be disqualifying, it need not be reported again and the assignee may respond "Yes" to this item. However, an adverse finding that has not been reported to the Commission and considered in connection with a prior application would require a "No" response.

Where the response to Item 8 is "No," the assignee must provide in an exhibit a full disclosure of the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), and the disposition of the litigation. Where the

requisite information has been earlier disclosed in connection with another pending application, or as required by 47 C.F.R. Section 1.65(c), the applicant need only provide an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing. The assignee should also fully explain why the adverse finding is not an impediment to a grant of this application.

- G. **Item 9: Alien Ownership and Control.** All applications must comply with Section 310 of the Communications Act, as amended. Specifically, Section 310 proscribes issuance of a construction permit or station license to an alien, a representative of an alien, a foreign government or the representative thereof, or a corporation organized under the laws of a foreign government. This proscription also applies with respect to any entity of which more than 20% of the capital stock is owned or voted by aliens, their representatives, a foreign government or its representative, or an entity organized under the laws of a foreign country. The Commission may also deny a construction permit or station license to a licensee directly or indirectly controlled by another entity of which more than 25% of the capital stock is owned or voted by aliens, their representatives, a foreign government or its representative, or another entity organized under the laws of a foreign country. Any such applicant seeking Commission consent to exceed this 25% benchmark in Section 310(b)(4) of the Act must do so by filing a petition for declaratory ruling pursuant to Sections 1.5000 *et seq.* of the Commission's rules.

Compliance with Section 310 is determined by means of a two-prong analysis, one pertaining to voting interests and the second to ownership interests. *See, e.g., Applications of BBC License Subsidiary L.P.*, Memorandum Opinion and Order, 10 FCC Rcd 10968 (1995). The voting interests held by aliens in a licensee through intervening domestically organized entities are determined in accordance with the multiplier guidelines for calculating indirect ownership interests in an applicant as set forth in the "Corporate Applicant" Instructions for Section III, Item 4. For example, if an alien held a 30-percent voting interest in Corporation A which, in turn, held a non-controlling 40-percent voting interest in Licensee Corporation B, the alien interest in Licensee Corporation B would be calculated by multiplying the alien's interest in Corporation A by that entity's voting interest in Licensee Corporation B. The resulting voting interest (30% x 40% = 12%) would not exceed the 25% statutory benchmark. However, if Corporation A held a controlling 60% voting interest in Corporation B, the multiplier would not be utilized and the full 30 percent alien voting interest in Corporation A would be treated as a 30 percent interest in Licensee Corporation B, i.e., an impermissible 30% indirect alien voting interest in the licensee. If Partnership A held a 40% voting interest

in Licensee Corporation B, that voting interest would be similarly impermissible if any general partner or any non-insulated limited partner of Partnership A was an alien, regardless of his or her partnership interest. *See also Review of Foreign Ownership Policies for Broadcast, Common Carrier and Aeronautical Radio Licensees under Section 310(b)(4) of the Communications Act of 1934, as Amended*, Report and Order, 31 FCC Rcd 11272, paras. 67-72 (2016) (*2016 Foreign Ownership Order*).

Assignees must also comply with the separate alien equity ownership benchmark restrictions of Section 310. Under the second prong of the analysis, an assignee must determine the *pro rata* equity holdings of any alien investor in a licensee entity or its parent. In calculating alien ownership, the same voting interest multiplier rules apply.

In order to complete this two-prong analysis, an assignee must determine the citizenship of each entity holding either a voting or equity interest, or explain how it determined the relevant percentages. Corporate applicants and licensees whose stock is publicly traded must determine the citizenship of interest holders who are known or should be known to the company in the ordinary course of business, including: (1) registered shareholders; (2) officers, directors, and employees; (3) interest holders reported to the Securities and Exchange Commission; (4) beneficial owners identified in annual or quarterly reports and proxy statements; and (5) any other interest holders that are actually known to the company, such as through transactions, litigation, proxies, or any other source. Statistical sampling surveys are no longer necessary. Although direct inquiry and publicly available resources may be used to determine citizenship of known or should-be-known interest holders, street addresses are not sufficient for this purpose. For more detailed information on identifying and calculating foreign interests, *see 2016 Foreign Ownership Order*, paras. 44-72.

If the combined total foreign ownership (foreign voting interests and foreign equity interests) identified under this methodology does not exceed 25%, a declaratory ruling is not necessary to grant the application. A subsidiary or affiliate of a licensee already named in a foreign ownership declaratory ruling may rely on that ruling, and by certifying compliance with the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments, certifies that it and the licensee named in the declaratory ruling are in compliance with the terms and conditions of the original foreign ownership declaratory ruling. *See* 47 C.F.R. § 1.5004(b).

H. **Item 10: Financial Qualifications.** An assignee must

certify that it is financially qualified to effectuate its proposal, with sufficient net liquid assets on hand or available from committed sources of funds to consummate the transaction and operate the facilities for three months without additional revenue. This certification includes all contractual requirements, if any, as to collateral, guarantees, and capital investments. *See Revision of Application for Construction Permit for Commercial Broadcast Station (FCC Form 301) and Modification of Processing Standards for Determining the Financial Qualifications of Broadcast Station Purchasers*, 87 F.C.C.2d 200 (1981).

Documentation supporting this certification need not be submitted with this application, but must be made available to the Commission upon request. Financial statements relied on to make this certification should be prepared in accordance with generally accepted accounting principles.

- I. **Item 11: Programming.** Assignees need no longer file a specific program service proposal. Nevertheless, prior to making this certification, the applicant should familiarize itself with its obligation to provide programming responsive to the needs and interests of the residents of its community of license. *See Request for Declaratory Ruling Concerning Programming Information in Broadcast Applications for Construction Permits, Transfers and Assignments*, Memorandum Opinion and Order, 3 FCC Rcd 5467 (1988).
- J. **Item 12: Auction Authorization.** The competitive bidding rules adopted by the Commission include certain provisions to prevent "unjust enrichment" by entities that acquire broadcast authorizations through the use of bidding credits or other special measures. Specifically, the holder of a broadcast license or construction permit, who successfully utilized a bidding credit to obtain the authorization, is required to reimburse the government for the total amount of the bidding credit, plus interest based on the rate for ten-year U.S. Treasury obligations applicable on the date the construction permit was granted, as a condition for Commission approval of any assignment or transfer of that license or construction permit, if the authorization will be acquired by an entity that does not meet the eligibility criteria for the bidding credit. *See* 47 C.F.R. §§ 1.2111(d)(1), 73.5007. The amount of this payment will be reduced over a five-year period. *See* 47 C.F.R. §§ 1.2111(d)(2), 73.5007. No payment is required if (1) the authorization is transferred or assigned more than five years after the initial issuance of the construction permit; or (2) the proposed transferee or assignee meets the eligibility criteria for the bidding credit.

In accordance with these provisions, Item 12 requires that the assignee certify that either (1) more than five years have passed since the assignor received its authorization(s) via the competitive bidding process; or (2) the proposed

assignee meets the eligibility criteria for the bidding credit. If such certification cannot be made, then the assignee must answer "No" in Item 12 and tender the applicable reimbursement payment to the United States Government. See 47 C.F.R. §§ 1.2111(d), 73.5007, 73.5008.

- K. **Item 13: Anti-Drug Abuse Act Certification.** This question requires the assignee to certify that neither it nor any party to the application is subject to denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.

Section 5301 of the Anti-Drug Abuse Act of 1988 provides federal and state court judges the discretion to deny federal benefits to individuals convicted of offenses consisting of the distribution or possession of controlled substances. Federal benefits within the scope of the statute include FCC authorizations. A "Yes" response to Item 13 constitutes a certification that neither the assignee nor any party to this application has been convicted of such an offense or, if it has, it is not ineligible to receive the authorization sought by this application because of Section 5301.

With respect to this question only, the term "party to the application" includes if the applicant is an individual, that individual; if the applicant is a corporation or unincorporated association, all officers, directors, or persons holding 5 percent or more of the outstanding stock or shares (voting and/or non-voting) of the applicant; all members if a membership organization; and if the applicant is a partnership, all general partners and all limited partners, including both insulated and non-insulated limited partners, holding a 5 percent or more interest in the partnership.

- L. **Item 14. Assignee's Equal Employment Opportunity Program.** Applicants seeking authority to obtain assignment of the construction permit or license of a commercial, noncommercial or international broadcast station are required to afford equal employment opportunity to all qualified persons and to refrain from discriminating in employment and related benefits on the basis of race, color, religion, national origin or sex. See 47 C.F.R. § 73.2080. Pursuant to these requirements, an applicant who proposes to employ five or more full-time employees in its station employment unit must establish a program designed to assure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asian or Pacific Islanders, American Indians or Alaskan Natives, and Hispanics). This is submitted to the Commission as the Model EEO Program on FCC Form 396-A, which should be filed as part of the application. If an applicant proposes to employ less than five full-time employees in its station employment unit, no EEO program for women or minorities need be filed.

General guidelines for developing an Equal Employment

Opportunity program are set forth in FCC Form 396-A.

NOTE: This Broadcast Equal Employment Opportunity Model Program Report (FCC Form 396-A) is to be utilized only by applicants for new construction permits and by assignees and transferees.

WORKSHEET #1

LOCAL NOTICE CHECKLIST

Applicants must certify that they have complied with Section 73.3580 regarding publication of local notice of the subject application. This worksheet may be used in responding to Section II, Item 7 of Assignor's section of Form 314.

1. Newspaper notice.

-
- (a) Dates of publication: (i) All within 30 days of tender of the application? Yes No
- (b) Daily newspaper published in community? Yes No
(i) If "Yes," public notice must appear twice a week for two consecutive weeks.
- (c) No such daily newspaper, weekly newspaper published in community? Yes No
(i) If "Yes," notice must appear once a week for three consecutive weeks.
- (d) If no such daily or weekly newspaper, local notice must appear in daily newspaper with the greatest circulation in the community twice a week for two consecutive weeks.

2. Broadcast notice.

- (a) Once daily for 4 days in the second week following the filing of the application? Yes No
- (b) At least 2 announcements during "prime time" (6 p.m. - 11 p.m. for television) or "drive time" (7 a.m. - 9 a.m. and/or 4 p.m. - 6 p.m. for radio), as applicable? Yes No

3. Text: do the announcements contain the following information?

- (a) Applicant name(s) Yes No
- (b) Names of all officers, directors, 10% shareholders (if corporation), all non-insulated partners (if partnership) Yes No
- (c) Purpose of application Yes No
- (d) Date on which application was filed Yes No
- (e) Call letters and frequency/channel of station Yes No
- (f) Statement that copy of application is available in Public File Yes No
- (g) Location of public file Yes No

WORKSHEET # 2

SALES CONTRACT EVALUATION WORKSHEET

This worksheet may be used by the assignor in responding to Section II, Item 3 of FCC Form 314; it may also be used by the assignee in responding to Section III, Item 3. The applicants must review these questions with respect to **all contractual documents**, agreements, and/or understandings between the assignor and the assignee. See Worksheet # 3D (Time Brokerage/Local Marketing Agreement/Joint Sales Agreements) if agreements permit assignee to provide programming or sell advertising time for the subject station(s) or any other stations in the market prior to Commission approval of the proposed assignment.

1. Do the written contracts and/or agreements in the licensee/permittee's public inspection file embody the complete and final agreement for the sale of the station(s) which are to be assigned? Yes No

(a) Are there any unwritten agreements between the assignor and the assignee which have not been referenced in the contract documents to be submitted with the application? Yes No

If "Yes," the terms of these agreements must be reduced to writing and submitted along with the other contract documents.

(b) Are there any written or oral agreements between the assignor and the assignee regarding **future** contractual arrangements arising out of this transaction? Yes No

If "Yes," the terms of these agreements must be reduced to writing and submitted along with the other contract documents.

(c) Have there been any amendments to the contract? Yes No

If "Yes," the amendment (or its material terms, if the amendment is not in writing) must be submitted as an amendment to the application.

Note: The obligation to submit all amendments to the contract continues until Commission action on the subject application is no longer subject to administrative or judicial review.

2. Do these documents provide the assignee with ultimate control over and use of all necessary physical property without reservation? Yes No

3. Do these documents provide the assignee with ultimate control over station programming without reservation? Yes No

Note: The response to both Questions 2 and 3 must be "Yes" in order to certify that the contractual documents "comply fully with the Commission's rules and policies." If "No," the applicant must mark "No" and disclose all details of any restriction on the assignee's complete control of the station in an exhibit to the application.

4. Is there any provision in the agreements that provides for a reversion of the license(s) in the event of default or any right to reassignment of the license in the future? Yes No

Note: The response to Question 4 must be "No" in order to certify that the contractual documents comply fully with the Commission's rules and policies." If "Yes," the applicant may not make the appropriate certification.

5. Is there any provision in the agreements which provides for a security interest in the station license(s), permits or authorizations? Yes No

Note: The response to Question 5 must be "No" in order to certify that the contractual documents "comply fully with the Commission's rules and policies." Under existing precedent, it is permissible to grant a security interest in the proceeds of the sale of a station license, permit, or authorization, but not in the license, permit, or authorization itself.

6. Do the agreements contain a covenant not to compete? Yes No

(a) If "Yes," does the geographic scope of the covenant extend beyond the service contour of the station(s) to be assigned (digital NLSC for TV, 1 mV/m for FM, and 2 mV/m for AM)? Yes No

(b) If "Yes," does the duration of the covenant extend beyond the length of a full license term? Yes No

Note: If the response to Question 6 is "Yes," the response to Questions 6(a) and 6(b) must be "No" in order to certify that the contractual documents "comply fully with the Commission's rules and policies." If not, the applicant may not make the appropriate certification.

7. Do the agreements contain a stock pledge? Yes No

(a) If "Yes," do the agreements expressly state that voting rights will remain with the assignee, even in the event of default? Yes No

(b) If "Yes," do the agreements indicate that, in the event of default, there will be either a public (i.e., auction) or private arm's length sale of the pledged interests? Yes No

(c) If "Yes," do the agreements provide that, prior to the exercise of stockholder rights by the purchaser at such public or private sale, consent of the Commission (pursuant to 47 U.S.C. Section 310(d)) will be obtained? Yes No

Note: If the response to Question 7 is "Yes," the response to Questions 7(a), 7(b), and 7(c) must also be "Yes" in order to certify that the contractual documents "comply fully with the Commission's rules and policies." If not, the applicant may not make the appropriate certification.

WORKSHEET # 3

This Worksheet may be used in connection with Section III, Item 6 of FCC Form 314 regarding media ownership. For the convenience of the applicant, the various ownership restrictions are treated under the following separate headings:

A. Multiple Ownership; B. Familial Relationships; C. Future Ownership Rights; D. Time Brokerage/Local Marketing/Joint Sales Agreements; and E. Investor Insulation/Non-party Influence.

A. MULTIPLE OWNERSHIP

This section of the worksheet may be used in connection with Section III, Item 6b of FCC Form 314 to determine the proposed assignee's compliance with the Commission's multiple ownership rules set forth in 47 C.F.R. Section 73.3555. Radio applicants: See also 2002 Biennial Regulatory Review - Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996, Report and Order and Notice of Proposed Rulemaking, 18 FCC Rcd 13620 (2003) (2002 Biennial Review Order), *aff'd in part and remanded in part, Prometheus Radio Project et al. v. FCC*, 373 F.3d 372 (3d Cir. 2004), *stay modified*, No. 03-3388 (Sept. 3, 2004); 2014 Quadrennial Review Order, 31 FCC Rcd at 9897-9912, paras. 82-128. The assignee must determine that it complies with all applicable rules in order to respond "YES" to the certification in Item 6b.

NOTE: Such a certification of compliance does not exempt radio applicants from submitting an Exhibit that demonstrates such compliance, including, if applicable, relevant contour maps.

Where the term "applicant or any party to the application" is used in this worksheet, it refers to the proposed assignee as applicant or any party to the assignee portion of the application.

I. LOCAL RADIO STATION OWNERSHIP

The local radio ownership rules place a numerical limit on the number of stations in which an entity in the local market may have a cognizable interest. See 47 C.F.R. § 73.3555(a); see also 2002 Biennial Review Order, 18 FCC Rcd at 13711-47, paras. 235-326; 2014 Quadrennial Review Order, 31 FCC Rcd at 9897-9912, paras. 82-128.

1. Will grant of this application result in the applicant or any party to this application having a cognizable interest in more than one commercial or noncommercial educational full-power radio station located in (i.e., having its community of license within) or "home" to the same metropolitan area (Metro), as defined by Nielsen Audio and reported by BIA? 1

Yes

No

If "Yes," provide in your Exhibit the name of the Nielsen Audio Metro; proceed to Items 2 and 3, below. **Use a separate worksheet for each applicable Nielsen Audio Metro** (see *supra* note 1) and provide in the Exhibit the relevant information for all applicable Metros. If "No," the transaction does not involve stations in a Nielsen Audio Metro; proceed to Item 4.

2. (a) How many commercial and noncommercial educational radio full-power stations are located within or are reported by BIA as "home" to the Metro covered by this worksheet? 2

1. The applicant must demonstrate compliance with the local radio ownership rule in each applicable Metro. Use a separate worksheet for each Metro. Note that BIA may report a particular station as "home" to more than one Metro, including embedded or overlapping Metros. Note also that a station may be reported by BIA as "home" to one Metro and have its community of license in a separate Metro. Each such Metro is "applicable."

2. Include all stations whose community of license is inside the boundaries of the counties that make up the Nielsen Audio Metro. Also include stations outside the counties that make up the Nielsen Audio Metro if they are reported by BIA as "home" to that Metro. The BIA Database generally includes all of the stations in a Metro. See also *supra* note 1.

(b) How many full-power commercial AM stations in the Metro will be attributable to the applicant or any party to this application if the application is approved?

(c) How many full-power commercial FM stations in the Metro will be attributable to the applicant or any party to this application if the application is approved?

(d) Total number of commercial stations in the Metro that will be attributable to the applicant or any party to this application if the application is approved: 3

If the applicant will own both commercial and noncommercial educational radio broadcast stations in the Metro, please also answer questions 2(e) through 2(g) and include this information in the Exhibit:

(e) How many full-power noncommercial educational AM stations in the Metro will be attributable to the applicant or any party to this application if the application is approved?

(f) How many full-power noncommercial educational FM stations in the Metro will be attributable to the applicant or any party to this application if the application is approved?

(g) How many commercial and noncommercial educational full-power AM and FM stations in the Metro in total will be attributable to the applicant or any party to this application if the application is approved? 4

The following local radio ownership "tiers" have the stated limits on the number of stations in which a party (i.e., a person or single entity or entities under common control) may have a cognizable interest in a Metro:

- * In a Metro reported by BIA as having 45 or more "home" commercial and noncommercial educational full-power stations, a party may have a cognizable interest in up to 8 full-power commercial radio stations, not more than 5 of which are in the same service (AM or FM);
- * In a Metro reported by BIA as having between 30 and 44 (inclusive) "home" commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 7 commercial full-power radio stations, not more than 4 of which are in the same service (AM or FM);
- * In a Metro reported by BIA as having between 15 and 29 (inclusive) "home" commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 6 commercial full-power radio stations, not more than 4 of which are in the same service (AM or FM);

3. $2(d)$ should equal $2(b)$ plus $2(c)$.

4. $2(g)$ should equal $2(d)$ plus $2(e)$ plus $2(f)$.

- * In a Metro reported by BIA as having 14 or fewer "home" commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 5 commercial full-power radio stations, not more than 3 of which are in the same service (AM or FM), except that a party may not have a cognizable interest in more than 50 percent of the total number of full-power commercial and noncommercial educational stations in such a market; provided, however, that an attributable interest in one AM/FM combination in the Metro is permissible without regard to this 50 percent limitation.

If the transaction complies with the limits set forth above, it complies with the local radio ownership portion of the multiple ownership rules set forth in 47 C.F.R. Section 73.3555. As indicated above, all applicants must submit an Exhibit explaining their determination. Be sure to include a copy of the Exhibit with the copy of the application that is sent to the station's public inspection file.

3. To demonstrate compliance with the numerical limits in the local radio ownership rule, applicants may not rely on a change in a Metro's geographic boundaries that has occurred since September 3, 2004, unless such change has been in effect for at least two years. In addition, applicants may not rely on the inclusion of a radio station as "home" to a Metro unless (a) such station was listed by BIA as "home" to the Metro as of September 3, 2004, or (b) such "home" designation has been in effect for at least two years, or (c) such station's community of license is located within the Metro. Applicants also may not rely on the removal, after September 3, 2004, of their own stations from BIA's list of "home" stations in a Metro unless (i) such exclusion has been in effect for at least two years or (ii) the exclusion results from an FCC-approved change in the community of license of a station from within the Metro to outside the Metro. Applicants who wish to rely on such changes should explain in their Exhibit, taking into account the timing conditions set forth above in this paragraph, (1) any changes since September 3, 2004 to the geographic boundaries of the relevant Metros, (2) any changes since September 3, 2004 to the "home" designations of the applicant's stations in the relevant Metros, (3) whether one or more radio stations licensed to communities outside the Metro have been added to BIA's list of "home" stations for that Metro since September 3, 2004; and (4) whether any of the changes reported in (1) through (3) of this paragraph is necessary for the proposed transaction to comply with the local radio ownership rule.

4. Interim Contour-overlap Methodology. If any station subject to the application does not have its community of license located within the geographic boundaries of any Nielsen Audio Metro, then the following guidelines should be used to determine compliance with the local radio ownership rule for any such station. These guidelines reflect the contour-overlap methodology ("Interim Methodology") that, for any station whose community of license is in a non-Metro area, is in effect until such time as the rule making proceeding in MB Docket 03-130 is completed and new rules are established for such radio stations. *See 2002 Biennial Review Order*, 18 FCC Rcd at 13729-30, 13870-71, paras. 282-86, 657-62. If a station is listed by BIA as "home" to a Metro but the station's community of license is not within the geographic boundaries of that Metro or any other Metro, the applicant must comply with the local radio ownership rule both under the Interim Methodology and under the Nielsen Audio Metro methodology.

Under the Interim Methodology, a radio market is defined as the area encompassed by the principal community contours (predicted or measured 5 mV/m groundwave contour for AM; predicted 3.16 mV/m contour for FM) of the stations that are both mutually overlapping and proposed to be "commonly attributable" 5 post-transaction. 6 The number of radio stations in this defined radio market (i.e., the numerator) cannot exceed the limits set forth in Section 73.3555(a) (see below). A commonly attributable station whose contour overlaps the contour of some but not all of the contours of the stations that define the radio market does not count toward the local radio ownership limits (i.e., is not counted in the numerator).

Under this same Methodology, the number of stations in the market (i.e., the denominator) is determined by counting the full-power, operating commercial and noncommercial educational stations whose principal community contours overlap or intersect at least one of the principal community contours that define the radio market as described above, subject to the following exception: such a station will be not be counted as being in the market (i.e., in the denominator) if (i) its transmitter site is located more than 92 km from the perimeter of the area of mutual overlap of the commonly attributable stations that define the radio market, or (ii) the applicant or any party to the application has a cognizable interest in the station and the station does not define the subject market

5. For purposes of this worksheet, "commonly attributable" means stations in which the applicant (assignee) or any party to the application (assignee portion) will have a cognizable interest (see 47 C.F.R. Section 73.3555, Notes) if the application is granted.

6. As long as at least one of the commonly attributable radio stations has a community of license that is located outside a Metro, applicants should count in the numerator every commonly attributable station that mutually overlaps such station(s), regardless of whether the other commonly attributable stations are listed as being in Metros.

(i.e., is not in the numerator). Any radio station that meets this test should be included in the denominator, regardless of whether such station is in a Metro. A graphic example is provided further below.

The following local radio ownership "tiers" have the stated limits on the number of stations in which a party (i.e., a person or single entity or entities under common control) may have a cognizable interest in a non-Metro radio market:

- * In a radio market with 45 or more commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 8 commercial radio stations, not more than 5 of which are in the same service (AM or FM);
- * In a radio market with between 30 and 44 (inclusive) commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 7 commercial radio stations, not more than 4 of which are in the same service (AM or FM);
- * In a radio market with between 15 and 29 (inclusive) commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 6 commercial radio stations, not more than 4 of which are in the same service (AM or FM);
- * In a radio market with 14 or fewer commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 5 commercial radio stations, not more than 3 of which are in the same service (AM or FM), except that a party may not have a cognizable interest in more than 50% of the total number of commercial and noncommercial educational full-power stations in such market; provided, however, that an attributable interest in one AM/FM combination in the Metro is permissible without regard to this 50% limitation.

If the transaction complies with the limits set forth above, it complies with the local radio ownership rule set forth in 47 C.F.R. Section 73.3555(a). The assignee should mark "Yes" to Section III, Item 6b of Form 314 and must submit an Exhibit providing information regarding the market(s), broadcast station(s), and other information demonstrating compliance with 47 C.F.R. Section 73.3555 (a).

If the transaction does not comply with 47 C.F.R. Section 73.3555(a), the assignee should mark "No" to Section 111, Item 6b to Form 3 14 and must submit as an Exhibit a detailed explanation in support of a waiver of 47 C.F.R. Section 73.3555 (a).

See below for an illustration of the Interim Methodology.

5. AM Expanded Band Station. In *Review of the Technical Assignment Criteria for the AM Broadcast Service*, Report and Order, 6 FCC Rcd 6273, 6320-21, paras. 145-48 (1991), the Commission modified the radio ownership rules to permit an existing AM licensee to own and operate another AM Station in the AM "Expanded Band" (1605-1705 KHz) during the transition period to full implementation of the expanded band, even if this were to result in the AM licensee exceeding the Commission's numerical ownership limits. However, during this period of dual ownership, licensees are not permitted to assign either the existing-band or the expanded-band authorization independently of the other. Accordingly, in order to evaluate the subject proposal's compliance with these policies, applicants should address the following questions.

- a. Does the assignee/applicant have either an application, a construction permit, or a license for a station in the expanded band AM band (1605-1705 KHz)?
- b. If "Yes," do the agreements for the sale of the station(s) to be assigned maintain the common ownership of the expanded-band and related existing-band authorization as required by 47 C.F.R. Section 73.1150(c)?

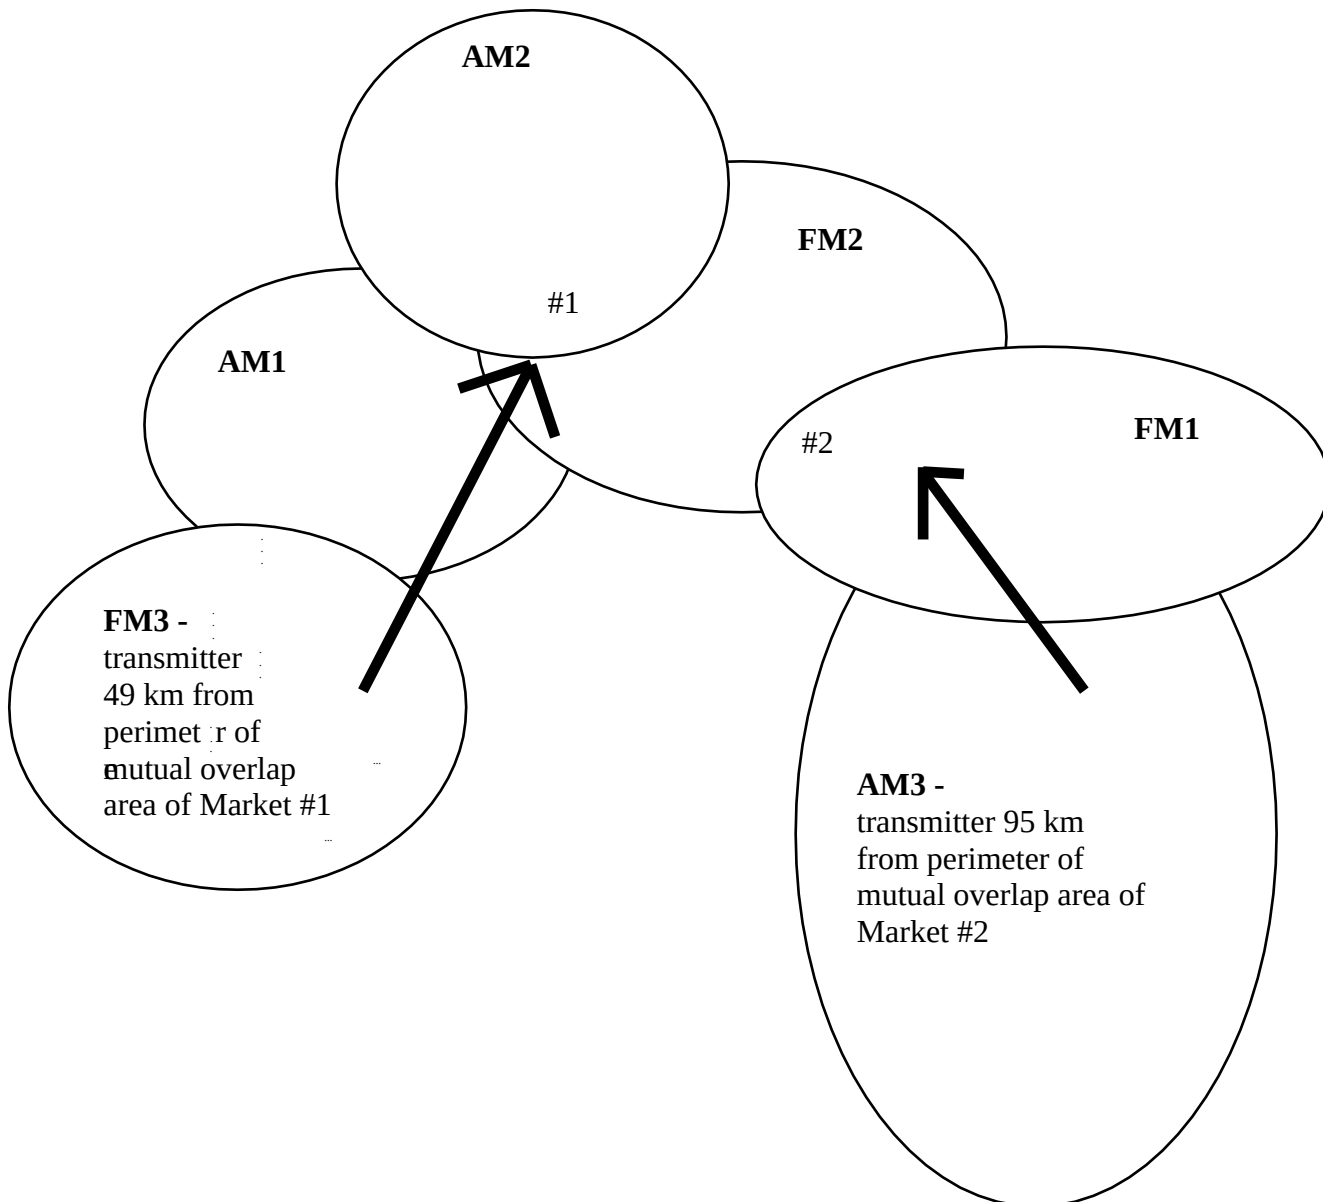

If the answer to Question 5b is "No," the proposed assignment may violate Section 73.1150(c). The applicant therefore must mark "No" to Section III, Item 6b, and submit an explanatory exhibit detailing how the proposed transaction complies with the rule or requesting and justifying a waiver.

In the simplified example below, Stations AM1, AM2, FM1 and FM2 are proposed to be commonly attributable. Stations AM1, AM2, and FM2 have mutually overlapping contours. They constitute a "radio market" -- in this example, Market #1 -- for purposes of the local radio ownership rules in a non-Metro area, and are thus counted against the local radio limit (i.e., in the numerator) in Market #1.

Because Station FM1's contour does not overlap the mutually overlapping contours of Stations AM1, AM2 and FM2, the proposed acquisition of Station FM1 would not count as being in Market #1 and therefore would not be counted toward the local ownership limit (i.e., in the numerator) for purposes of Market #1. Rather, in a non-Metro area, Stations FM1 and FM2 would need to be analyzed as forming a separate "radio market" - in this example, Market #2. (Station FM2 would thus be counted as being in Market #1 as well as in Market #2).

Station FM3 is not commonly attributable and it would be counted as "in" Market #1 (i.e., in the denominator) because the transmitter of Station FM3 is not more than 92 km from the perimeter of Market #1's mutual overlap area. Station FM1 would not be counted as being "in" Market #1 (i.e., in the denominator) because it is commonly attributable to the proposed assignee.

Station AM3 in this example is not commonly attributable. It would, nonetheless, not be counted as being "in" Market #2 (i.e., in the denominator) because its transmitter is located more than 92 km from the perimeter of Market #2's mutual overlap area. Stations AM1 and AM2 also would not be counted as "in" Market #2 (i.e., in the denominator) because they are commonly attributable.

II. TELEVISION OWNERSHIP

This section of the worksheet may be used in connection with Section III, Item 6b for the proposed acquisition of a full-service television station. The television ownership rules place a numerical limit on the number of stations that can be owned by one entity in the local market and restrict the total national audience reach that can be attained by any one television station owner. See 47 C.F.R. § 73.3555(b), (e), Notes.

1. **Local Ownership.** Will the acquisition of the commercial television station(s) being assigned result in the assignee or any party to this application having an attributable interest in another commercial television station which is located within the same Designated Market Area (DMA) as measured by Nielsen Media Research and whose digital NLSC overlaps the digital NLSC of the station(s) being assigned?

Yes No

If "Yes" to Question 1, at the time of filing of this application are both of the commercial television stations ranked among the top four stations in the DMA, based on the most recent all-day (9:00 a.m.-midnight) audience share as determined by Nielsen or a comparable professional survey organization?

Yes No

If "Yes," the applicant must mark "No" to Section III, Item 6b, and submit an exhibit with supporting materials demonstrating why in this case the Commission's top-four prohibition should not apply.

2. **National Audience Reach.** Will the acquisition of the commercial television station(s) being assigned result in the assignee or any party to this application having an attributable interest in commercial television stations which have an aggregate national audience reach exceeding 39 percent?

Yes No

If "Yes" to Question 2, the applicant must mark "No" to Section III, Item 6b and submit an exhibit stating the reasons in support of an exemption from, or waiver of, the Commission's television ownership regulations.

B. FAMILY RELATIONSHIPS

This section of the worksheet may be used in connection with Section III, Item 6c.1 of FCC Form 314, which requires the assignee to certify that the proposed acquisition does not "present an issue" under the Commission's policies relating to media interests of immediate family members (i.e., husband, wife, father, mother, brother, sister, son or daughter).

The Commission does not prohibit, but rather considers relevant, media interests owned by immediate family members. Accordingly, the assignee should examine the media interests of its principals' immediate family members to determine whether or not those media interests will be independent and not subject to common influence or control. *See Clarification of Commission Policies Regarding Spousal Attribution, Policy Statement, 7 FCC Rcd 1920 (1992); Applications of Sevier Valley Broadcasting, Inc. (Assignor) and Mid-Utah Radio, Inc. (Assignee), Memorandum Opinion and Order, 10 FCC Rcd 9795 (1995).*

An assignee must review this worksheet if the answer to the following question is "Yes." Does any member of the immediate family (i.e., husband, wife, father, mother, brother, sister, son or daughter) of any party to the application have any interest in or connection with any other broadcast station or pending broadcast application in the same market?

Yes No

Answer the following questions for each such relationship:

1. Has the family member who is not included as a party to the application been involved in negotiations with the licensee/permittee for the acquisition/construction of any of the station(s) to be assigned? Yes No
2. Has the family member who is not included as a party to the application provided financing or otherwise been involved in the process of making financial arrangements for the acquisition/construction of any of the station(s) to be assigned? Yes No
3. Is this the first broadcast ownership interest of the family member who is a party to the application? Yes No
4. Are the family members involved together in the management or operation of any other media interests located in other markets? Yes No
5. Are there any agreements, arrangements or understandings, either written or oral, between the family members with same-market media interests for the participation of one family member in the financial affairs, commercial practices, programming, or employment practices of the other family member's media entity? Consider, for example, joint sales agreements, local marketing agreements, and arrangements to share facilities or personnel. Yes No

If assignee answers "No" to all of the above questions, assignee may conclude that it complies with the Commission's policies relating to media interests of immediate family members. If assignee answers "Yes" to any one of the above questions, the assignee must mark "No" to Section III, Item 6c and should submit an exhibit giving full particulars, including the family relationship involved and a detailed account of the business or media relationship between family members.

C. FUTURE OWNERSHIP RIGHTS

This section of the worksheet may be used in connection with Section III, Item 6c, which requires the assignee to certify that the proposed acquisition complies with the Communications Act and the Commission's regulations and policies concerning future ownership rights in broadcast stations.

Section 310(d) of the Communications Act of 1934, as amended, prohibits assignment, transfer or any disposition of a broadcast license without first applying to the Commission and receiving approval. Similarly, Commission precedent currently prohibits (1) pledge of a broadcast license as collateral for a loan, or (2) grant of a security interest (or any similar encumbrance) in a broadcast license. These inquiries are directed to current and prospective third-party interests in the assignee.

In order to certify compliance with Item 6c of Section III of FCC Form 314, the Assignee must review the following questions:

1. Are there any documents, instruments, contracts, or understandings relating to future ownership rights in the assignee or any party to the application including, but not limited to: (1) stock pledges; (2) security agreements; (3) non-voting stock interests; (4) beneficial stock ownership interests; (5) options; (6) warrants; or (7) debentures? Yes No

If "No," Assignee may certify compliance with the future ownership inquiry.
If "Yes," proceed to the questions below.

2. Is there any provision in the agreements which provides for a security interest in the station license(s), permits or authorizations? Yes No

Note: The response to Question 2 must be "No" in order to certify that the contractual documents "comply fully with the Commission's rules and policies." Under existing precedent, it is permissible to grant a security interest in the **proceeds of the sale** of a station license, permit, or authorization, but not in the license, permit, or authorization itself.

3. Do the agreements contain a stock pledge? Yes No

- (a) If "Yes," do the agreements expressly state that voting rights will remain with the assignee, even in the event of default? Yes No

- (b) If "Yes," do the agreements indicate that, in the event of default, there will be either a public (i.e., auction) or private arm's-length sale of the pledged interests? Yes No

- (c) If "Yes," do the agreements provide that, prior to the exercise of stockholder rights by the purchaser at such public or private sale, prior consent of the Commission (pursuant to 47 U.S.C. Section 310(d)) will be obtained? Yes No

If the answer to (a), (b), or (c) is "No," the assignee must mark "No" to Section III, Item 6c and submit an exhibit providing all details of the stock pledge agreement and demonstrating how the agreement is not violative of Section 73.1150 and Commission precedent.

4. If the agreements contain provisions relating to the acquisition of non-voting stock interests, beneficial stock interests, warrants, or debentures convertible into voting or non-voting stock, would the exercise of those interests, individually or in the aggregate, effectuate a positive or negative transfer of control of the assignee/applicant? Yes No

If "Yes," the agreements must clearly indicate that, prior to the acquisition, exercise, or conversion of any future interest into equity that would effectuate a positive or negative transfer of control, Commission approval will be sought and received. If they do not, the applicant must mark "No" to Section III, Item 6c, and submit an exhibit providing all details and explaining how the agreements do not violate Commission policy or precedent.

D. TIME BROKERAGE/LOCAL MARKETING AGREEMENTS /JOINT SALES AGREEMENTS

This worksheet should be reviewed in connection with several different certifications. These include Section II, Item 3 and Section III, Item 3 (certifications by assignor and assignee relating to agreements for sale of station) and Section III, Items 6a and 6b.

1. Does or, as a result of this transaction, will the applicant or any party to this application, supply more than 15 percent of another, same-market station's weekly program hours? Yes No

If "Yes," that interest is attributable to the assignee and must be considered in certifying compliance with the Commission's multiple ownership rules.

2. Does the assignee hold a time brokerage agreement, local marketing agreement or joint sales agreement pursuant to which the assignee provides programming or sells commercial advertising time for the subject station(s) or any other stations in the market? Yes No

If "Yes," proceed to Question 3.

3. Has the licensee retained sufficient rights and obligations over the station's personnel, programming, and finances such that it retains control of the station under applicable Commission precedent, i.e., does the licensee/permittee:

(a) retain the right to reject/substitute programming (including commercial advertising) without excessive fee or penalty? Yes No

(b) retain the right to terminate the agreement without excessive fee or penalty? Yes No

(c) retain responsibility for broadcasting programming to meet local needs? Yes No

(d) retain the obligation to prepare and file the quarterly issues/programs list? Yes No

(e) retain the responsibility to comply with the Commission's political programming rules? Yes No

(f) retain the obligation to pay station expenses? Yes No

If the response to any of these questions is "No," the agreement may not comport with existing Commission precedent. The applicant should therefore mark "No" in the appropriate certification and supply an exhibit explaining how the agreement does not amount to a premature assumption of control by the assignee.

4. Does the programming agreement or joint sales agreement extend beyond one full license term (i.e., eight years)? Yes No

If "Yes," the agreement may exceed the length allowable under Commission precedent. The applicant must therefore mark "No" to Section 111, Item 6b, and submit an exhibit containing the complete agreement (with all attachments) and discussing how its operation complies with precedent.

NOTE: ALL applicants required to demonstrate compliance with 47 C.F.R. Section 73.3555(a) must submit, with this application, complete copies of all attributable radio time brokerage/local marketing and radio joint sales agreements for the subject stations or any other stations in the same market as the subject stations.

E. INVESTOR INSULATION AND NON-PARTY INFLUENCE OVER ASSIGNEE/APPLICANT

This section of the worksheet may be used in connection with Section III, Item 6c, which requires the assignee to certify that it complies with the Commission's restrictions relating to the insulation and non-participation of non-party investors and creditors. See, e.g., *Review of the Commission's Regulations Governing Attribution of Broadcast and Cable/MDS Interests*, Report and Order, 14 FCC Rcd 12559 (1999). It indicates the kinds of contractual relationships that may, in the Commission's view, exceed the authority of a properly insulated investor or demonstrate some indicia of de facto control by a creditor.

I. Investor Insulation

If an assignee is a limited partnership or a limited liability company ("LLC") that seeks to insulate partners or members in accordance with the Commission's attribution rules, the assignee shall ensure that each such limited partner or LLC member is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership or LLC. To ensure that each such limited partner or LLC member is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership or LLC, the applicant must answer the following inquiries. Do the limited partnership or LLC enabling documents:

- a. specify that any exempt limited partner/LLC member (if not a natural person, its directors, officers, partners, etc.) cannot act as an employee of the limited partnership/LLC member if his or her functions, directly or indirectly, relate to the media enterprises of such entity? Yes No
- b. bar any exempt limited partner/LLC from serving, in any material capacity, as an independent contractor or agent with respect to the partnership/LLC's media enterprises? Yes No
- c. restrict any exempt limited partner/LLC member from communicating with the limited partnership/LLC, the general partner, or any LLC management committee on matters pertaining to the day-to-day operations of its business? Yes No
- d. empower the general partner/LLC management committee to veto any admissions of additional general partners/LLC members admitted by vote of the exempt limited partners/LLC members? Yes No
- e. prohibit any exempt limited partner/LLC member from voting on the removal of a general partner/LLC member or limit this right to situations where the general partner/LLC member is (i) subject to bankruptcy proceedings, as described in Section 402(4)-(5) of the Revised Uniform Limited Partnership Act, (ii) is adjudicated incompetent by a court of competent jurisdiction, or (iii) is removed for cause, as determined by an independent party? Yes No
- f. bar any exempt limited partner/LLC member from performing any services to the limited partnership/LLC materially relating to its media activities, with the exception of making loans to, or acting as a surety for, the business? Yes No
- g. state, in express terms, that any exempt limited partner/LLC member is prohibited from becoming actively involved in the management or operation of the media businesses of the limited partnership/LLC? Yes No

If the answer is "Yes" to **each** of these conditions with regard to every limited partner and LLC member that the applicant seeks to insulate and the relevant state statute authorizing the LLC permits a LLC member to insulate itself in accordance with the Commission's criteria, the applicant may certify that it complies with the Commission's restrictions regarding insulation of non-party investors. If "No" to the foregoing, the applicant must submit an exhibit detailing the rights of any non-party investor and setting forth the applicant's reasons for not treating the investor as a party to the application.

II. Non-Party Influence Over Assignee

A. Non-party investors, i.e., investors with nonattributable interests, may have very limited powers over the operations of a licensee. Accordingly, with respect to any agreement, arrangement or understanding involving insulated parties or other investors with nonattributable interests, including creditors, secured parties, program suppliers, and any other persons not disclosed as parties to this application, does such agreement:

1. give any non-party investor the right to vote on any matters decided by the assignee's board of directors, partnership committee or other management group? Yes No
2. give any non-party investor the right to attend, or appoint an observer to attend, assignee board, partnership or other management meetings? Yes No
3. place any limitation on assignee programming discretion? Yes No
4. give any non-party investor the right to vote on, approve or restrict assignee's actions on any matter relating to programming, personnel or finances? Yes No
5. give any non-party creditor or any bond, debenture or warrant holder the right to vote on, approve or restrict the assignee's actions on any matter relating to programming, personnel or finances? Yes No
6. give any non-party creditor or any bond, debenture or warrant holder the right to share in the profits of the assignee? Yes No
7. give any non interest and acquire control of the assignee based on the assignee's actions relating to programming, personnel and finances? Yes No
8. give any non-party investor, creditor, or bond, debenture or warrant holder the right to vote on, approve or deny the selection or removal of a general partner of an assignee partnership or a member of the assignee's governing body? Yes No
9. give any non-party investor, creditor, or bond, debenture or warrant holder the right to convert, tender or require the tendering of stock pursuant to a put-or-call agreement based on the actions of the assignee relating to programming, personnel or financing? Yes No

If the answer to all of these conditions is "No" with regard to every non-party investor and creditor, **and there are no other provisions that cede de facto control to a non-party**, applicant may certify that it complies with the Commission's restrictions regarding non-participation of non-party investors and creditors. If the answer to any of these inquiries is "Yes," the applicant must submit an exhibit detailing the rights of any non-party investor and setting forth fully the applicant's reasons for not treating the investor as a party to the application.

B. With respect to any loan agreement, has the assignee ensured that such agreement:

1. includes an unconditional promise by the assignee to pay on demand or on a specific date a sum certain? Yes No
2. contains a fixed or defined variable rate of interest on the loan? Yes No
3. does not prohibit the redemption of the loan by the assignee, or permit redemption at the option of the lender only? Yes No

If the answer to each of these inquiries is "Yes," and if there are no other provisions that may give non-party investors control, the applicant may conclude that it complies with the Commission's restrictions regarding non-participation of non-party investors and creditors. If not, the applicant must submit an exhibit detailing the rights of the lender and the obligations of the assignee for each loan agreement.
