

**OMB Control Number:** 0578-0013.

**Title of Clearance:** *Long Term Contracting*

**Agency Form Number affected by Change Worksheet:** AD-1155A Conservation Plan Schedule of Operations - Revised.

**Other Changes:**

The extent of the change is the addition of a new 'code' under item "D" in the Notes section to add: "NP = Non-Participant Payment" as a separate cost-share rate category.

This change has no additional burden, it is being requested by the IT developers as they are working on the updates to the business tools (ProTracts) to automate these forms that are currently generated outside of the business tools. The policy and procedure to allow for these 'Non-Participant Payment' items to be planned and paid for already exists, this change makes the naming/coding on the AD-1155 itself more obvious and allows the IT developers to mirror functionality in existing systems (CD/FMMI) with the new functionality they are creating in other systems (ProTracts). Adding the code/name for this existing cost-share rate category does not create any additional work for those using the form.

There are no changes to the burden hours for the form.
