

March 1, 2021

Why am I getting this letter?

This is a reminder to complete your National Animal Health Management System (NAHMS) Health Management on U.S. Feedlots 2021 Survey.

Your participation in this study is voluntary, though you are one of a select number of feedlot producers in your State chosen to participate in this study and so your participation is valuable.

The study consists of two questionnaires. The secure online form to complete the Phase I questionnaire is linked to the right. If we do not hear from you by April 5, 2021, we will attempt to contact you by phone or by an in-person visit. Upon completion of the Phase I questionnaire, you will be given the opportunity to consent to be contacted for the second phase of the study, which includes the Phase II questionnaire that will be administered by an animal health professional representative of NAHMS between June and August, 2021.

Thank you for participating and for your support of our programs and U.S. agriculture. If you have any questions, please feel free to contact us at 1-888-424-7828.

What should I do next?

Complete your survey in one of the following ways:

Online at www.agcounts.usda.gov. **Online reporting is fast, cost-effective, and secure.** All you need is the 17-digit survey code on the enclosed form to begin.

By **mail or fax**. Complete the survey questionnaire and mail it back in the return envelope provided or fax it to (855) 415-3687.
