

Atlantic Large Whale Take Reduction Plan Gear Marking

Why Is Gear Marking Required?

The Atlantic Large Whale Take Reduction Plan requires that surface buoys and buoy lines be marked with information that will allow us to better understand where and how whales become entangled in vertical lines associated with trap/pot and gillnet fisheries.

MARKING SURFACE BUOYS

Surface buoys need to be marked to identify your vessel or fishery with one of the following:

- Your motorboat registration number and/or U.S. vessel documentation number;
- The federal commercial fishing permit number; or
- Whatever positive identification marking is required by the vessel's home-port state.

When marking is not already required by state or federal regulations, the letters and numbers to mark gear must be at least 1 inch (2.5 cm) in height, block letters or Arabic numbers, in a color that contrasts with the color of the buoy.

GEAR MARKING REQUIREMENTS

The 12” colored required marks can be accomplished in a variety of ways. Shown are three simple methods that were tested and found to work satisfactorily under normal conditions. At the top, colored twine is seized around the line and woven between the strands. In the center, the line was spray-painted; this method requires that the rope be dry. At the bottom, colored electrical tape was wrapped in one direction and then back over itself to form two layers.

All buoy lines must be marked with three 12 inch (30.48 cm), colored marks: one at the top of the buoy line, one midway along the buoy line, and one at the bottom of the buoy line. Each color code must be permanently affixed on or along the line and each color code must be clearly visible when the gear is hauled or removed from the water.

For specific management area color requirements, see below:

Gear Marking Color	Applicable Trap/Pot Management Area
RED	<ul style="list-style-type: none"> • Massachusetts Restricted Area • Northern Nearshore Trap/Pot Waters • Northern Inshore State Trap/Pot Waters • Stellwagen Bank Jeffreys Ledge Restricted Area • Great South Channel Restricted Area overlapping Lobster Management Area (LMA) 2 and/or the Outer Cape (OC) LMA.
RED & BLUE	<ul style="list-style-type: none"> • Exempt RI state waters
RED & WHITE	<ul style="list-style-type: none"> • Exempt MA state waters in LMA 1
RED & BLACK	<ul style="list-style-type: none"> • Exempt MA state waters in LMA 2
RED & YELLOW	<ul style="list-style-type: none"> • Exempt MA state waters Outer Cape
RED & ORANGE:	<ul style="list-style-type: none"> • Isle of Shoals, Maine
RED (Or BLACK) & PURPLE	<ul style="list-style-type: none"> • Jordan Basin (Trap/Pot)
ORANGE:	<ul style="list-style-type: none"> • Southern Nearshore Trap/Pot Waters.
BLACK	<ul style="list-style-type: none"> • Offshore Trap/Pot Waters; Great South Channel Restricted Area overlapping with the LMA 2/3 Overlap and/or LMA 3

GEAR MARKING REQUIREMENTS

Gear Marking Color	Applicable Gillnet Management Area
RED & GREEN	<ul style="list-style-type: none"> • Jeffrey Ledge (Trap/Pot)
GREEN & BLACK	<ul style="list-style-type: none"> • Jeffrey Ledge (Gillnet)
GREEN & YELLOW	<ul style="list-style-type: none"> • Jordan Basin (Gillnet)
BLUE & ORANGE	<ul style="list-style-type: none"> • Southeast Restricted Area North (state waters)
GREEN & ORANGE	<ul style="list-style-type: none"> • Southeast Restricted Area North (Federal waters)
GREEN	<ul style="list-style-type: none"> • Cape Cod Bay Restricted Area • Great South Channel Restricted Gillnet Area • Great South Channel Sliver Restricted Gillnet Area • Stellwagen Bank/Jeffreys Ledge Restricted Area • Other Northeast Gillnet Waters (Northeast & Mid-Atlantic)
BLUE	<ul style="list-style-type: none"> • Mid/South Atlantic Gillnet Waters
YELLOW	<p><u>Excluding Shark Gillnet:</u></p> <ul style="list-style-type: none"> • Southeast US Restricted Area South* • Other Southeast Gillnet Waters*
GREEN & BLUE	<p><u>Shark Gillnet (with webbing of 5” or greater)</u></p> <ul style="list-style-type: none"> • Southeast US Monitoring Area* • Southeast US Restricted Area South* • Other Southeast Gillnet Waters*

*Southeast gillnet management areas also require that each gillnet panel be marked along both the floatline and the leadline at least once every 100 yards, unless otherwise required.

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other suggestions for reducing this burden to NMFS Office of Protected Resources, 1315 East West Highway, Silver Spring, MD 20910.

Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subjected to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
