ew Self-Inspection		^
Basic Information		
NISPOM 1-207b. Contractor Reviews. Contractors shall review their security system on a continuing basis and shall also conduct a formal self-inspect by paragraph 8101h of chapter 8 of this Manual, at intervals consistent with risk management principles. (1) These self-inspections will be related to the activity, information, information systems (ISs), and conditions of the overall security program, to inclu scope, depth, and frequency; and management support in execution and remedy. (2) The contractor will prepare a formal report describing the self-inspection, its findings, and resolution of issues found. The contractor will retain the i- next CSA inspection. (3) A senior management official at the cleared facility will certify to the CSA, in writing on an annual basis, that a self-inspection has been conducter on the results, that appropriate corrective action has been taken, and that management fully supports the security program at the cleared facility. (4) Self-inspections by contractors will include the review of representative samples of the contractor's derivative classification actions, as applicable.	de the insider threat program; have sufficient formal report for CSA review through the
