

**Evaluation of the FDA's General Market Youth Tobacco Prevention Campaigns
(OMB Control No. 0910-0753)**

The Food and Drug Administration is submitting this nonmaterial/non-substantive change request to update materials related to the Public Education on Teen Tobacco (ExPECTT) for the next wave of data collection. Some of our study participants have now aged up and require consent rather than parental consent and assent. Additionally, due to the COVID-19 pandemic, in person data collection has been suspended. The communication materials have been changed to reflect that in person data collection will not occur.
