### **List of Terms and Phrases for Consumers**

- 1. Convenient
- 2. Straightforward/simple/easy to use
- 3. Prevent; vs. help prevent; vs. reduce the incidence
- 4. Proven to help; proven effective
- 5. Natural
- 6. Targeted; acts locally, targeted mechanism of action
- 7. Powerful; potent
- 8. #1 prescribed
- 9. New (as in new product)
- 10. Novel/unique; first and only; works differently
- 11. FDA-approved
- 12. Off-label
- 13. Reverses
- 14. Individual results may vary
- 15. Significant (as in statistically significant)
- 16. Manageable safety profile; established safety profile; well-studied safety profile; well-tolerated

- 17. Restores; rebuilds
- 18. Many/most/some/few; majority
- 19. Prescription drug promotion versus prescription drug advertising
- 20. reaction; serious reaction; severe life-threatening reaction
- 21. Endpoint
- 22. Pure; purity

#### Screener

Hello, we are recruiting people for a research study sponsored by the Food and Drug Administration. The purpose of the study is to find out how people understand words and phrases that are commonly used in prescription drug advertising.

RTI International, an independent, nonprofit research institute, will be conducting the survey with consumers nationwide. The survey will take approximately 20 minutes. If you participate, you will receive a \$20 check in appreciation for your time. To see if you are eligible, please complete the brief survey linked below.

#### 1. How old were you on your last birthday?

Over Age 18 → CONTINUE
 Under Age 18→ TERMINATE

#### 2. Are you a medical or health professional?

Yes	→ TERMINATE
No	→ CONTINUE

#### 3. Have you ever worked for ...?

Department of Health and Human Services	→ TERMINATE
U.S. Food and Drug Administration	→ TERMINATE
Market research firm	→ TERMINATE
Pharmaceutical company	→ TERMINATE
Itracks	→ TERMINATE
RTI International	→ TERMINATE
None of the above	→ CONTINUE

#### [IF NOT ELIGIBLE:

#### Thank and Terminate]

We're sorry, but you are not eligible for this study. There are many possible reasons people are not eligible for this study. These reasons were decided earlier by the researchers. However, thank you for your interest in this study and for taking the time to answer our questions today.

#### [IF ELIGIBLE]

#### **Introduction and Purpose**

You have been invited to take part in a research study. The purpose of the study is to find out how people understand words and phrases that are commonly used in prescription drug advertising. RTI International, a nonprofit research organization in North Carolina, is conducting this study sponsored by the US Food and Drug Administration (FDA).

#### **Procedures**

You are one of about 1,000 people from around the United States being asked to participate in this phase of the study. If you agree to participate, you will take part in a web-based survey. The survey should take about **20 minutes**. All aspects of the study may not be revealed until the end.

#### **Benefits**

There is no direct benefit to you for participating. Your responses are very important because they will help researchers find out how people understand information included in prescription drug advertising.

#### **Risks**

There are no known risks to participating in this study. Although the questions we ask are not related to your personal health, there is always a chance that you may feel uncomfortable with some of the questions. You do not have to answer any question that you don't want to answer. Although we have taken steps to ensure your confidentiality, there is still a small risk that your privacy could be broken.

#### Confidentiality

The privacy and confidentiality of your information is of the highest importance, and we are committed to maintaining a secure environment in which you can participate. All information you share in this study will be kept confidential to the extent provided by law. The study team will not reveal your name or any of your responses, and your personal information (name, address, phone number) will not be linked to any of your responses. The information you share with us will be combined into a summary report so that details of individual surveys cannot be linked to a specific participant. You will not be recontacted about this research study in the future.

#### Reimbursement

After the interview has been completed, you will receive a check by mail for \$20 within 4-6 weeks in appreciation for your time.

#### Right to Refuse or Withdraw

Your participation in this study is completely voluntary, and you can withdraw from the study for any reason at any time without penalty.

#### **Persons to Contact**

If you have questions about the study, you can call the project director, Dr. Bridget Kelly, at 1-800-334-8571, ext. 22098. She can be reached between 9:00 AM and 5:00 PM Eastern

Time Monday to Friday. If you have questions about your rights as a participant, you can call RTI's Office of Research Protection toll-free at 1-866-214-2043.

[Consent1.] If you have read the previous screens and <u>agree</u> to participate, please click the Yes button. If not, click the No button.

- 1. Yes, I <u>agree</u> to participate. [Continue to 1st survey screen]
- 2. No, I do not agree to participate. [Go on to next question]

[IF CONSENT1 = NO OR SKIP]

[Consent2.] Are you sure you don't want to participate? Your opinions are important to us. Please select the Yes button if you'd like to proceed to the survey. Select the No button to exit.

- 1. Yes, I <u>agree</u> to participate. [Continue to 1st survey screen]
- 2. No, I do not agree to participate. [Exit]

This survey focuses on words and phrases that are commonly used in prescription drug advertising. Each question includes one or more example statements featuring the word or phrase we are asking about. This survey will take about 20 minutes to complete. We ask you to complete the study in one sitting (without taking any breaks) in order to avoid distractions.

Please answer the questions to the best of your ability.

"Taking one dose a day of drug A is convenient."

# Q1. What do you think about drug A when you read that it is "convenient"? PLEASE CHECK ALL THAT APPLY.

It requires fewer doses than other drugs.
I can take it at a time that works best for me.
It fits into my lifestyle.
I don't have to stop what I'm doing to take medication multiple times per day.
It does not require as many trips to the doctor or pharmacy.
[Additional answer options to be developed based on Phase 1 interviews]
Other (please specify):

## Q2. When you read the statement in the column to the left, what comes to mind about the following drugs? PLEASE CHECK ALL THAT APPLY.

	The drug will not be difficult to take.	The pill is small and not difficult to swallow.	The dose does not involve measurement.	The dose does not involve cutting pills in half.	[Additional answer options to be developed based on Phase 1 interviews.]	Other (please specify):
Drug B is "straightforward to use".						
Drug C is "simple to use".						
Drug D is "easy to use."						

### Q3. How safe do you think each of the following drugs is compared to other drugs for the same condition? CHECK THE BOX IN THE COLUMN THAT COMES CLOSEST TO YOUR BELIEFS.

	1 Much less safe	2 A little bit less safe	3 Equally as safe	4 A little bit more safe	5 Much safer
Drug A is "convenient."					
Drug B is "straightforward to use".					
Drug C is "simple to use".					
Drug D is "easy to use."					

# Q4. How effective do you think each of the following drugs is compared to other drugs for the same condition? CHECK THE BOX IN THE COLUMN THAT COMES CLOSEST TO YOUR BELIEFS.

	1 Much less effective	2 A little bit less effective	3 Equally as effective	4 A little bit more effective	5 Much more effective
Drug A is "convenient".					
Drug B is "straightforward to use".					
Drug C is "simple to use".					
Drug D is "easy to use."					

## Q5. When you read the statement in the column to the left, what comes to mind about the following drugs? PLEASE CHECK THE BOX IN THE COLUMN THAT COMES CLOSEST TO YOUR BELIEFS.

	The drug will eliminate severe asthma attacks.	The drug will make severe asthma attacks less likely.	[Alternate wording: The drug will reduce the likelihood of a severe asthma attack.]	[Additional answer options to be developed based on Phase 1 interviews.]	Other (please specify):
Drug E is shown to "prevent" severe asthma attacks.					
Drug F is shown to "help prevent" severe asthma attacks.					

Drug G is shown to "reduce the incidence" of severe asthma attacks.								
Drug H is "proven to help" reduce the risk of severe asthma attacks.								
Drug I is "proven effective" at reducing the risk of severe asthma attacks.								
☐ It does not☐ It is enviro☐ It is less ef☐ It is more €☐ [Additiona	THAT APPLY.  only from ingredient include any syntheten inmentally friendly. fective. Expensive. I answer options to ase specify):	ts occurring in nature. tic ingredients. be developed based o	n Phase 1 interviews]
