**TITLE:** End user Survey to support redesign of the National Center for Excellence in Primary Care Research website

**GENERIC CLEARANCE UNDER OMB#:** 0935-0179

**EXP. DATE:** 11/30/2020

**ABSTRACT:**

The National Center for Excellence in Primary Care Research (NCEPCR) is the intellectual home for primary care research at AHRQ. The NCEPCR is focused on the Nation's primary care system, providing evidence, practical tools, and other resources for researchers and evaluators, clinicians and clinical teams, quality improvement experts, and healthcare decision makers to improve the quality and safety of care. The main way that NCEPCR communicates evidence, tools, and resources to its audience is through its website (<https://www.ahrq.gov/ncepcr>). We have received feedback that the current website is not optimally designed to effectively fulfill this function. In order to increase the effectiveness and utility of the website, we propose interviewing a purposeful sample of intended end users to develop a web redesign that presents information in a way that is more appealing and easier to navigate for the intended audience and then inviting respondents to give feedback on the new design.
