Subject: Fw: copubic comment on federal register

it is time to stop grants to low income families. it is best to let them strive to get into a higher income level. giveaways never work. it is too easy for them to coast and keep taking = taxpayers dollars forever. and that is not how a country needs to run. we need every member contributing and when the money comes in they will never work. they expect money for the rest of their lives. its time to end these easy programs for some who will never work a day in their lives. this comment is for the public record please receipt., jean public jeanpublic1@yahoo.com,
