Description of MyNAEP: The school coordinators are responsible for preparing for the assessment in their school using the MyNAEP system, which is an online secure site that provides participating schools with a convenient way to prepare for the upcoming assessment. MyNAEP serves as the primary resource and action center throughout the assessment process. The site also offers school coordinators an electronic way to prepare for the assessment at their own pace. The NAEP field representative will schedule an initial call in December to pre-review the major areas of the MyNAEP system with the school coordinator. A description of the tasks completed in the MyNAEP system can be found in Part B. The content of the MyNAEP system is included in this appendix.

Notes on the organization of Appendix I

- Red text indicates descriptive notes and references to Appendices other than I
- Green text indicates text from hyperlinks or references within this document.
- The Additional Resources section of this document (beginning on page 93) contains the text of hyperlinks

The confidentiality citation has been updated in September 2018 and is reflected in this document, consistent with what is provided in Part A.

Student Attendance and Schedules (New Provide School Information Questions)

Final screenshots of this section will be provided in Amendment #3 to be submitted to OMB no later than October 2020.

Provide School Information COVID-19 Questions

Due to COVID-19, we know schools may have adapted schedules to protect the health and safety of students and staff. So that appropriate plans can be made to assess sampled students, it is important for NAEP to know how students are expected to attend school during the NAEP assessment window, from January through March 2021.

In these questions, “in person” means that students attend classes at the physical school building. The term “distance learning” refers to students attending school at home, using computers and/or at-home packets to learn remotely.

Please answer the questions below, to the best of your knowledge.

We understand that these plans may change. You will have an opportunity to update this information in December and January.

Identify Virtual Learners-REV-INFO-6

Due to COVID-19, schools may have adapted schedules to protect the health and safety of students and staff. So that appropriate plans can be made to assess sampled students, it is important for NAEP to know if students are attending school in-person or are virtual/distance learners. Virtual/distance learner refers to a student attending school from home, using the internet and computers and/or at-home packets to learn remotely.

Are any of the students listed below part-time or full-time virtual learners?

Note: The choices for the “Is this student a virtual learner?” drop-down menu are:

- No (100% in-person learner)
- Part-time virtual
- Full-time virtual

Notify Parents

Note: In this section the school coordinator will download and customize the parent notification letter (see Appendix D2-11[public schools] and D2-12 [private schools] for the template of the letter), upload the customized letter to the system, and certify the date parents were notified. This is to ensure that parents/legal guardians are notified of their student's selection to participate in NAEP, which is a requirement of the Reauthorized Elementary and Secondary Education Act (ESEA).¹

Manage Questionnaires

Note: In this section the school coordinator identifies respondents for school and teacher questionnaires, sends respondents links to online questionnaires, and monitors completion of questionnaires. Additionally, the school coordinator distributes information about NAEP to teachers (see Appendix D1-4). The results of the questionnaire are used to provide contextual data from schools and teachers in The Nation's Report Card.

Prepare for Assessment

Manage Questionnaires

NAEP collects information using questionnaires to provide a context for reporting student performance.

- School Questionnaires gather information on school policies and characteristics.
- Teacher Questionnaires gather information on teacher training and instructional practices.

This section also allows you to monitor the completion of the questionnaires and to send reminders. Please note that each one of your questionnaire recipients will receive automatic reminder emails to complete the questionnaire weekly, so you will likely not need to send any reminders yourself.

Identify Your Columns-USL-SUB-5

NAEP needs to know what student data is in each column of your Excel file.

We have matched your column headings (on the left) with our required categories (on the right). For example, if your file has a column called "FName," the system already matched that to our "First Name" category.

- Review the matches in the table below, making any changes by selecting the drop-down menu.
- If your Excel file contains information that NAEP doesn't need (like homeroom), mark those columns as **Not Applicable**.

Tip: Do the column headings on the left display student data (e.g., Rosa) instead of column headings (e.g., Name)?

- Select the **Back to Beginning** button.
- On the **Upload File** screen, specify that your file does not contain column headers by selecting **No** for question number 1.

The screenshot shows the MyNAEP For Schools interface. The header includes the NAEP logo, the text 'MyNAEP For Schools', and a 'District:' field. Today's students are digital natives. Their schools are usually equipped with computers, and digital tools are an integral part of the learning environment. To address the increased role of technology in classrooms, the National Center for Education Statistics (NCES) is transitioning the National Assessment of Educational Progress (NAEP) from paper and pencil to digitally based assessments. NCES is utilizing established best practices for NAEP to remain at the forefront of innovation for large-scale assessments. NCES is also exploring new testing methods and question types to reflect the growing use of technology in education.

Review and Verify List of Students Selected for NAEP

Determine if any selected students cannot take NAEP

Please use the reasons in the bulleted list below to determine if any selected students cannot take NAEP.

Do not assign a “reason student cannot take NAEP” to students who are staying home and participating in virtual/remote learning due to COVID-19. You will indicate students who are virtual/remote learners (part or full-time) in a separate screen titled “Identify Virtual Learners.”

Dept. of Agriculture Memo Authorizing Release of NSLP to NAEP

This memo replaces the United States Department of Agriculture (USDA) Letter

Date: School Year 2017-18

To: School Nutrition Program Personnel

From: National Assessment of Educational Progress (NAEP)

Subject: Policy on Limited Disclosure of Children's Eligibility Information to NAEP

As stated in the Eligibility Manual for School Meals (Section 5 - Confidentiality and Disclosure, Disclosure Requirements), school food authorities may disclose, without parent/guardian consent, children's names and eligibility status (whether they are eligible for free meals or free milk or reduced price meals) to persons directly connected with the administration or enforcement of a Federal or State education program, such as NAEP, as permitted by section 9(b)(6)(A) (ii)(I) of the Richard B. Russell National School Lunch Act.

The relevant section from page 88 of the Eligibility Manual for School Meals is shown below:

Because NAEP is a Federal education program, LEAs may disclose, without parent or guardian consent, children's names and eligibility status to persons directly connected to the administration or enforcement of NAEP. Additionally, LEAs may disclose children's names and eligibility status to persons directly connected with the administration or enforcement of State educational assessment programs to the extent the State assessment is part of the NAEP. Other State education programs may access participants' names and eligibility status, without parent or guardian consent. However, in both situations, the program must be established at the State (not local) level.

The term "persons directly connected" for the purpose of disclosure to NAEP includes Federal, State, and local program operators responsible for NAEP administration or compliance, and their contractors. This does not imply that these persons have routine access to participants' eligibility status. There must be a "need to know" relating to the administration or enforcement of a Federal education program or for legitimate NAEP purposes.

The above information is available on the FNS website at <https://www.fns.usda.gov/2017-edition-eligibility-manual-school-meals>.

Inclusion on NAEP Fact Sheet

Inclusion on NAEP

Students with Disabilities and English Language Learners

WHAT IS NAEP?

The National Assessment of Educational Progress (NAEP) is the largest continuing and nationally representative assessment of what our nation's students know and can do in core subjects such as mathematics and reading.

NAEP is congressionally mandated, and was first administered in 1969 to measure student achievement nationally. Teachers, principals, parents, policymakers, and researchers all use NAEP results to assess progress and develop ways to improve education in the United States.

The Importance of Inclusion

The responses of students with disabilities and English language learners on NAEP represent those of hundreds of other similar students. Without them, information about how to best meet the educational needs of these students would be lost. NAEP incorporates inclusive policies and practices into every aspect of the assessment, including selection of students, participation in the assessment administration, and valid and effective accommodations. Such best practices are essential to ensuring an inclusive assessment that yields meaningful NAEP results for all students with disabilities and English language learners. By representing their peers across the nation on NAEP, students with disabilities and English language learners help to ensure that NAEP results can be used to inform efforts to improve educational programs.

To ensure that the National Assessment of Educational Progress (NAEP) reflects the educational progress of all students, students with disabilities and English language learners must be included to the fullest extent possible.

Selection

Students with disabilities and English language learners are selected to participate in NAEP just like any other student. NAEP is administered to a sample of students who represent the student population of the nation as a whole and of individual states and districts participating in the Trial Urban District Assessment (TUDA). Within each selected school and grade to be assessed, students are chosen at random to participate in NAEP. Regardless of race/ethnicity, socioeconomic status, disability, status as an English language learner, or any other factors, every student has the same chance of being chosen.

For more information about NAEP, visit <http://nces.ed.gov/nationsreportcard>

For More Information Contact your NAEP State Coordinator with specific questions about including students with disabilities and English language learners. Details of the National Assessment Governing Board's policy on testing and reporting results on students with disabilities and English language learners on NAEP are available at <http://www.nagb.org/publications/inclusion-special-population-naep.pdf>. Current NAEP accommodations and inclusion policies are posted on the website at <http://nces.ed.gov/nationsreportcard/about/inclusion.asp>.

Participation

Many students with disabilities and English language learners are able to participate in the assessment administration alongside their peers.

Participating in NAEP allows students with disabilities and English language learners to experience a large-scale assessment administration without high-stakes consequences. Since NAEP does not produce scores for individual

students or results for schools, participation in NAEP is not tied to grades or evaluations of students, teachers, or schools.

Accommodations

Students with disabilities and English language learners are provided with testing accommodations so that they can demonstrate their content knowledge and skills on NAEP. NAEP offers a comprehensive set of accommodations to increase access to testing for students with disabilities and English language learners. To ensure that appropriate accommodations are determined for individual students, NAEP relies on school staff to make inclusion and accommodations decisions for those students selected for the assessment.

The accommodations allowed on NAEP and those allowed in states are often similar, but there may be some differences. Sometimes these differences result from the way that the subject being measured is defined in the NAEP frameworks. For example, NAEP does not allow read-aloud of any part of the NAEP reading test except the instructions, because decoding words is part of what the NAEP framework is measuring.

Your NAEP State Coordinator has developed inclusion guidelines for including students with disabilities and English language learners on NAEP and provided them to schools selected for the assessment. These instructions will highlight any differences between NAEP and your state's policies and provide guidance on how to include and accommodate sampled students.

Letter from Department of Education Encouraging Inclusion

UNITED STATES DEPARTMENT OF EDUCATION

Dear Principal or Administrator:

Thank you for allowing your school to participate in the National Assessment of Educational Progress (NAEP). These assessments are vital to measuring the academic skills and progress of the students in our nation and in each state.

As you know, the Individuals with Disabilities Education Act (IDEA) requires that all students with disabilities participate in state and district wide assessment programs through regular assessments, including with appropriate accommodations when necessary, or alternate assessments. The Elementary and Secondary Education Act (ESEA) likewise requires the participation of students with disabilities in the student academic assessments required under that Act, and also requires that English learners, as well as other groups of students, participate in those state assessments. The law allows for reasonable accommodations on assessments administered to English learners. Although federal law does not explicitly specify similar requirements regarding the participation of students with disabilities and English learners in NAEP, the NAEP program has been working very hard to make its sample of students taking the assessments as representative as possible of all students. We are asking you to ensure that the greatest possible number of students with disabilities and English learners in your school, who are selected to participate, do in fact take the assessments.

Please keep in mind that NAEP does not produce results for individual students or schools, as your state or district tests might. All results are summarized only at the national and state levels (and for a few large urban districts). In other words, the NAEP assessments do not impose consequences for the student or the school, and are instead intended purely to provide a picture of educational performance and progress.

We want to include as many students as possible in the picture NAEP provides for us. For this reason, we ask you to do all you can to help ensure the participation of students who are selected for NAEP whenever possible, including students with disabilities and English learners. Students taking the NAEP are able to use most of the testing accommodations they usually receive in other tests (e.g., extended time, small group testing). Most students with disabilities and English learners are indeed able to participate in NAEP with their fellow students.

NAEP is one of the most visible and important indicators of educational performance in this country, and we very much appreciate your support in making NAEP as inclusive as possible.

The Nation's Report Card: It's More Than Just a Test

Our children take tests for everything, but the National Assessment of Educational Progress (NAEP)—also called The Nation's Report Card—is unique.

The Nation's Report Card is a resource—a national wakeup call—because it offers a window into the state of our education system and what our children are learning. The results provide educators, policymakers, elected officials, and parents across the country with invaluable information regarding how our children are doing compared to other children in participating large urban districts, other states, and the nation.

When our children participate, they are helping to inform decisions about how to improve education in your state and in our country. The participation of your child can and often does lead to change.

Overseas's talking about NAEP. As the largest national test, its results are used to the benefits of national and local news stories all over the country.

"Today's NAEP results confirm that we have a child on our minds when it comes to child education."

skills that could lead to careers in science and technology, according to the results of a national exam."

If your child is participating in NAEP, your child's school will send you a letter with details and information about the assessment. Here is what you need to know.

- Not every student or school takes the test.
- Your child's grades aren't affected! Results are anonymous.
- The test requires 90-120 minutes to minimize time away from instruction.
- The test is administered on tablets provided by NAEP and sometimes on paper and pencil or laptop computers.
- If your child takes the test on a tablet, your child will complete a tutorial on how to use the tablet before taking the test.
- Accommodations are provided so that as many students as possible can participate.
- Survey questionnaires are voluntarily completed by students, teachers, and school administrators. Student survey questionnaires ask your child about their educational experiences and opportunities to learn both in and out of the classroom.
- Questionnaire responses are anonymous and cannot be linked to your child's identity or personal information.
- The subjects most frequently tested are mathematics, reading, science, and writing
- NAEP is often called the gold standard of assessments and has been around since 1969.

Dear [Name],

Welcome to the National Assessment of Educational Progress (NAEP)! NAEP will be testing your [SMPGRD]th grade students on [ASSESSMENT DATE].

NAEP is the only ongoing national assessment of what American students know and can do in a variety of subjects.

In addition to conducting assessments, NAEP collects information using teacher questionnaires to provide a context for reporting student performance. The Teacher Questionnaire is used to gather information concerning years of teaching experience, frequency of assignments, use of teaching materials, and availability and use of computers.

Your school coordinator, [SCHOOLCOORDINATORNAME], has identified you as a respondent for the grade [SMPGRD] Teacher Questionnaire because you teach one or more of the subjects included in the grade [SMPGRD] NAEP assessments at your school.

Update Student List

Student List Requirements and Instructions

NAEP 2021 Instructions for Preparing a Current List of Students

Part I: Requirements

NAEP needs a complete and current list of **all students** in the selected grade(s) (**not just new students**).

- The list should reflect **January 2021** enrollment.
- The list will help NAEP identify any students who were not included on the original list submitted in the fall of 2020.
- Include all students, even students who are commonly excluded from other testing programs. Your student list **must be a Microsoft Excel file** (version 95 or later). If your student information is available in a different format, you can copy and paste the data into Excel. NAEP cannot convert PDF files or any type of files other than Excel.
- NAEP cannot provide an Excel file containing the list of students submitted in the fall, but an empty template is available for downloading.
- If you need assistance, call the NAEP Help Desk at 1-800-283-6237.

Include the following information for each student in the selected grade.

- ✓ Student first name
- ✓ Student last name
- ✓ Month of birth
- ✓ Year of birth

If available, please include...

- ✓ Student middle name/initial
- ✓ State unique student ID (**do not use the student's Social Security number**)

Part II: List Format

You will need to answer questions about your Excel file's format during the upload process. Will your file have all student information in separate columns? Good! That means you're using the preferred format, pictured below.

	A	B	C	D	E	F
1	Student ID	First Name	Middle Name	Last Name	Month of Birth	Year of Birth
2	1343140	Riley	T	Adams	6	2007
3	2349854	Rebecca	Michelle	Allen	11	2007
4	9874023	Logan		Armstrong	3	2008
5	5328976	Zachary	Craig	Barker	12	2008
6	7398541	Todd	S	Brown	8	2007

NAEP will also accept student names and birth dates formatted in **single columns**.

- During the upload, you'll tell us how student names and birthdates are formatted.
- You will specify the order of student names, whether or not the student name column includes middle names, and how the names are separated (**by a space, comma, or other character**). Middle names and initials are optional. The example to the right is **last name, first name**.
- The same idea applies to birth dates, too. The example below is **mm/dd/yyyy**.

	A	B
1	Name	Birthdate
2	Adams, Riley	6/30/2007
3	Allen, Rebecca	11/4/2007
4	Armstrong, Logan	3/28/2008
5	Barker, Zachary	12/15/2008
6	Brown, Todd	8/22/2007

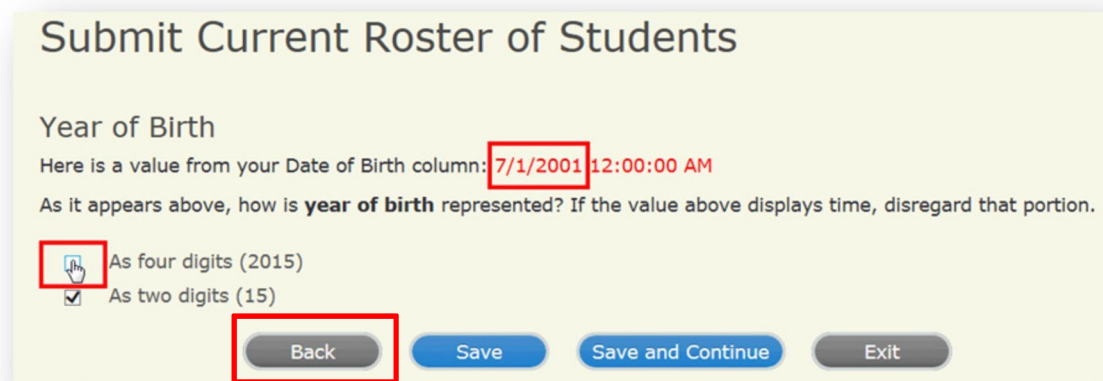

Part III: Pre-upload Checklist

Formatting errors can cause the file upload to fail. Save time by using this pre-upload checklist. If you can check off everything on this list, then you're ready to upload your file.

- The file was prepared after January 1st and contains all currently enrolled students in the selected grade.
- The filename ends with **.xls** or **.xlsx**.
- Blank rows do not start until after the last student record. There are no blank cells or rows within the required student information (blanks for middle names and student IDs are ok).
- The file has only one worksheet with data on it. The extra worksheets are blank.
- The file does not have any footers or images at the bottom.
- The header for my file is in a single row, and there are no images at the top.
- I understand how student names are formatted in my file.
- I understand how month and year of birth are formatted in my file.
- The list contains **all students in the selected grade** (not just new students who have enrolled since the fall).

Part IV: Special Situations & Tips

- The first row of data in your file will be read as the column headers. Each succeeding row will be considered a student record.
- Use the most current enrollment information available, so that all students have an equal opportunity to be selected for NAEP.
- If more than one grade-level is being assessed at your school, submit separate Excel files for each grade.
- Year-round schools with multiple tracks of students should not include any students who will be on break on the scheduled assessment date.
- **If MyNAEP cannot process your file, try selecting the Back button and revising your answers about how the Excel file is formatted.** In the example below, the user checked the wrong box for the number of digits in the birth year. The red text at the top of the screen will display the number of digits in the birth year (in this case, four).

Here is a value from your Date of Birth column: **7/1/2001 12:00:00 AM**

As it appears above, how is **year of birth** represented? If the value above displays time, disregard that portion.

Teacher Notification Letter

NAEP 2021 TEACHER NOTIFICATION LETTER

Date: 08/10/2020

TO: Teachers of Grade 8 Students
FROM: NAEP representative
SUBJECT: National Assessment of Educational Progress (NAEP)

Thank you for the excellent work that you and your students have invested in learning and achievement. We are pleased that students from your school have been selected to represent thousands of students across our country by participating in the National Assessment of Educational Progress (NAEP) assessment.

This assessment monitors what U.S. students know and can do in key subject areas at the elementary, middle, and high school levels. Since 1969, NAEP has provided U.S. educators and the public with reliable profiles of student achievement. This is possible because of dedicated teachers like you who support and participate in this assessment.

Please take note of the attached lists, which contain the names of the selected students and their session numbers. It is critical to the results of the study that all students selected for NAEP attend the correct session on time. We appreciate your assistance.

Each NAEP assessment session will take 2 hours, including transition time and directions. The sessions are scheduled for:

SESSION	DATE	TIME	LOCATION
DS0801A	Monday, 02/01/2021	8:15 am	Library
DS0801B	Monday, 02/01/2021	12:30 pm	Library
Group C	Monday, 02/01/2021	8:30 am	Media Room

Please contact your school's NAEP coordinator for additional information about the assessment. For additional information, sample questions, NAEP publications, and classroom data tools, visit the NAEP website <http://nces.ed.gov/nationsreportcard/>.

We look forward to working with you. Thank you, again, for helping us show the world the achievement of our nation's students by your support of NAEP - The Nation's Report Card.
