## Appendix A-1 **LABOR RATES**

### Contractor Rates [1]

		Benefits,		
	Hourly	Overhead &		
2019 Hourly	Wage Rate	Profit		Total
\$102.00	\$46.25	2	.2	\$101.75

#### Respondent Rates [2]

	Hourly	Benefits &	
2019 Hourly	Wage Rate	Overhead	Total
\$93.00	\$46.25	2	\$92.50

### State/Local Agency Rates [3]

		Hourly	Benefits &		
	2019 Hourly	Wage Rate	Overhead		Total
ı	\$66.00	\$33.09		2	\$66.17

### EPA Rates [4]

	Hourly		
2019 Hourly	Wage Rate	Benefits	Total
\$56.00	\$35.02	1.6	\$56.03

[1] Industry contractor rate based on mean hourly wages for Environmental Engineers obtained from "Occupational Employment and Wages, May 2018; 17-2081 Environmental Engineers" U.S. Deaprtment of Labor, Bureau of Labor Statistics. (http://www.bls.gov/oes/current/oes172081.htm accessed in November 2019) Benfits and overhead assumed to total 100% of wages; profit margin assumed to be 10% on top of "loaded" total. See wage escalation calculations below.

- [2] Respondent in-house rate based on mean hourly wages for Environmental Engineers obtained from "Occupational Employment and Wages, May 2018; 17-2081 Environmental Engineers" U.S. Deaprtment of Labor, Bureau of Labor Statistics. (http://www.bls.gov/oes/current/oes172081.htm accessed in November 2019) Benfits and overhead assumed to total 100% of wages. See wage escalation calculations below.
- [3] State/Local rates based on 25th percentile hourly wages for Environmental Engineers obtained from "Occupational Employment and Wages, May 2018; 17-2081 Environmental Engineers" U.S. Deaprtment of Labor, Bureau of Labor Statistics. (http://www.bls.gov/oes/current/oes172081.htm accessed in November 2019) Benfits and overhead assumed to total 100% of wages. See wage escalation calculations below.
- [4] Federal Labor Cost obtained from U.S. Office of Personnel Management 2019 General Schedule

#### Appendix A-2

#### Universe of Respondents Universe Estimates Sources under EPA authority # New exploration sources 0 see below - 0 represents the number of expected primary permits to be issued during ICR period # Existing exploration sources 1 see below - 1 represents the number of existing permits at the start of the ICR period 5 | see below - the 1 existing source above is likely to drill 5 exploratory wells during ICR period # Exploration wells to be drilled # Existing sources n this refers to existing development/production sources # New alternative energy sources 3 3 major source permits # Existing alternative energy sources Sources under state/local authority # New exploration sources # New development/production sources 15 include two sources making minor permit mods. # Existing sources # Construction mod to existing sources 2 the two minor mods above require minor NSR permits as well (carried this number over from 2017 renewal) # New alternative energy sources # Existing alternative energy sources 5 5 major source permits Total Number of Sources 29 does not include # exploration wells (row 8) or modified existing sources (row 18) as this would be double counting State/local agencies overseeing sources 7 see below Total Number of Respondent 36 New and existing oil/gas exploration sources - 2020 renewal Under EPA authority Alaska: 1 permit application for an exploration source will be submitted, and the permit will be issued prior to 10/1/2020; this is considered an existing source for this ICR. The permit will allow up to five exploratory wells over 2 years.

#### Under state/local authority

Other areas

Eastern Gulf: None

#### New and existing oil/gas development/production sources - 2020 renewal

Under EPA authority

#### Under state/local authority

South Coast Air Quality Management District:

There are 4 existing platforms that are expected to continue operating Ventura County Air Pollution Control District:

Of the 4 existing platforms in Ventura County, 2 are in the process of shutting down and 2 are expected to continue operating Santa Barbara County Air Pollution Control District:

Of the 15 platforms formerly in Santa Barbara County, 3 have shut down, 3 are in the process of shutting down, 3 that were "shut in" are expected to resume production, and 6 are expected to continue operating. These are treated as 9 existing sources for this ICR

#### New and existing alternative energy sources - 2020 renewal

Under EPA authority Region 1:

Region 2:

3 offshore wind projects will have submitted their NOIs and major source construction/operation permit applications prior to 10/1/2020; these are considered existing sources

3 additional offshore wind projects will submit their NOIs and major source construction/operation permit applications during the period covered by this ICR; these are considered new sources for this ICR

10 offshore wind project will submit its NOI and major source construction/operation permit application prior to 10/1/2020; this is considered an existing source for this ICR Region 3:

None; Virginia, Maryland, and Delaware have received delegation of the OCS program

No permitting activity anticipated. Region 4 expects a meteorological buoy to be deployed in 2022/2023, but it will not require an OCS permit.

#### Under state/local authority

1 offshore wind project has been issued a minor source permit for a meteorological tower. It will submit its NOI and major source construction/operation permit applications during the period covered by this ICR; this is considered a new source for this ICR

Virginia: 1 offshore wind demonstration project (two turbines) will complete minor source permitting and construction before the period covered by this ICR; this is considered an

1 offshore wind project will submit its NOI and major source construction/operation permit application during the period covered by this ICR; this is considered a new source for

Delaware

1 offshore wind project has been issued a minor source permit for a meteorological buoy. It will submit its NOI and major source construction/operation permit applications during the period covered by this ICR; this is considered a new source for this ICR New Jersey:

2 offshore wind projects will submit their NOIs and major source construction/operation permit applications during the period covered by this ICR; these are considered new sources for this ICR

#### State and local agencies projected to have authority over sources

Santa Barbara County Air Pollution Control District South Coast Air Quality Management District Ventura County Air Pollution Control District Maryland Department of Environment Virginia Department of Environmental Quality New Jersey Department of Environmental Protection Delaware Department of Natural Resources and Environmental Control

San Luis Obispo Air Pollution Control District has received delegation of the OCS permit program, but is not anticipated to have any OCS sources

EXHIBIT 1. NEW AND PREVIOUSLY PERMITTED EXPLORATION SOURCES UNDER EPA AUTHORITY RESPONDENTS' ANNUAL BURDEN
