

and Marina Discharges: A Guide for State and Local Officials, August 1994), the estimated number of vessels requiring pumpout facilities in Sarah Creek and Perrin River during peak occupancy is 221. For these vessels, EPA guidance recommends at least one pumpout facility each for Sarah Creek and Perrin River.

In the application, the Commonwealth certified that Sarah Creek and Perrin River require greater environmental protection than provided by currently applicable federal regulations. Sarah Creek and Perrin River are tributaries of the York River, which drains into the Chesapeake Bay. All or portions of the proposed waters are listed by the Commonwealth on current or previous Clean Water Act section 303(d) lists of impaired waters as impaired for shellfish harvesting due to fecal coliform. As such, many shellfish beds are restricted or closed. Both waterbodies are also impaired for dissolved oxygen and aquatic plants (macrophytes). Establishing a no-discharge zone will contribute to: (1) Protecting the tidal ecosystem; (2) restoring the restricted and closed shellfish beds in these areas; and (3) preventing further water quality degradation and loss of beneficial uses in these tributaries as well as in the York River.

Sarah Creek and Perrin River are used for a variety of activities, including boating, fishing, shellfish harvesting, oyster gardening, crabbing, water skiing, swimming, and more. There are marinas, private piers, numerous vessel anchorages, public and private boat launch facilities, commercial seafood docks, and a waterside restaurant. Local watermen are interwoven with the unique identity of the Chesapeake Bay, influencing its history, culture, and economy. Furthermore, these waterbodies provide food, spawning grounds, and/or habitat to approximately 33 threatened, endangered, and rare species of plants and animals, including the Atlantic sturgeon, loggerhead sea turtle, and the northern diamond-backed terrapin.

The EPA made a final determination that adequate pumpout facilities are

reasonably available in both Sarah Creek and Perrin River and that the use of these facilities imposes minimal costs. In Sarah Creek, there is no charge to use the available pumpout facilities, while in Perrin River there is a \$5.00 fee per pumpout for non-slip holders, though the fee is waived with a small purchase at the marina store. Depth at low tide at the pumpout facilities is between five and eight feet, which is comparable to the depths at the entrances to Sarah Creek and Perrin River. Therefore, vessels requiring greater depths than provided at the pumpout station would have difficulty entering Sarah Creek or Perrin River.

Following publication of the Tentative Affirmative Determination in the **Federal Register** on March 11, 2020, a 30-day public comment period was opened (85 FR 14195). The EPA did not receive any comments regarding the EPA's intent to issue an affirmative determination on Virginia's application to designate Sarah Creek and Perrin River as a no-discharge zone.

Based on the information above, the EPA hereby makes a final affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for Sarah Creek and Perrin River and its tributaries such that the Commonwealth may establish a vessel sewage no-discharge zone.

Regional Administrator, EPA Region III.

<i>Total Recordkeeping Burden</i>							23,742

Total Estimated Annual Burden: 448,639 hours.
General Description of Collection: Regulation B (12 CFR part 1002) issued by the Consumer Financial Protection Bureau, prohibits creditors from discriminating against applicants on any bases specified by the Equal Credit Opportunity Act; imposes, reporting, record keeping and disclosure

requirements; establishes guidelines for gathering and evaluating credit information; and requires creditors to give applicants certain written notices. There is no change in the method or substance of the collection. The overall reduction in burden hours is a result of economic fluctuation. In particular, the number of respondents has decreased while the reporting frequency and the

estimated time per response remain the same.
 3. *Title:* Interagency Guidance on Asset Securitization Activities.
OMB Number: 3064-0137.
Form Number: None.
Affected Public: Insured State Nonmember Banks and State Savings Associations.
Burden Estimate:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Estimated frequency of responses	Estimated time per response (hours)	Estimated annual burden (hours)
Documentation of Fair Value	Record-keeping.	Mandatory	20	On Occasion	4	80

MIS Improvements—New Entrant	Record-keeping.	Mandatory	6	On Occasion	21	126
MIS Improvements—Systems Upgrades	Record-keeping.	Mandatory	2	On Occasion	5	10

Total Estimated Annual Burden: 414 hours.
General Description of Collection: The Interagency Guidance on Asset Securitization Activities informs bankers and examiners of safe and sound practices regarding asset Securitization. The information collections contained in the Interagency Guidance are needed by institutions to manage their asset Securitization activities in a safe and sound manner.

Bank management uses this information as the basis for the safe and sound operation of their asset securitization activities and to ensure that they minimize operational risk in these activities. There is no change in the method or substance of the information collection. The overall 257-hour increase in estimated annual burden (from 157 hours in 2017 to 414 hours currently) is the result of economic fluctuation. In particular, the number of

respondents has increased while the reporting frequency and the estimated time per response remain the same.
 4. *Title:* Interagency Statement on Sound Practices Concerning Complex Structured Finance Transactions.
OMB Number: 3064–0148.
Form Number: None.
Affected Public: Insured state nonmember banks and state savings associations.
Burden Estimate:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Estimated frequency of responses	Estimated time per response (hours)	Estimated annual burden (hours)
Complex Structured Finance Transactions	Record-keeping.	Mandatory	4	On Occasion	25	100

Total Estimated Annual Burden: 100 hours.
General Description of Collection: The Interagency Statement on Sound Practices Concerning Complex Structured Finance Transactions describes the types of internal controls and risk management procedures that the Agencies believe are particularly effective in assisting financial institutions to identify, evaluate, assess,

document, and control the full range of credit, market, operational, legal and reputation al risks. A financial institution that engages in complex structured finance transactions should maintain a set of formal, written, firm-wide policies and procedures that are designed to allow the institution to identify and assess these risks. There is no change in the methodology or substance of this information collection.

The estimated annual burden is unchanged.
 5. *Title:* Retail Foreign Exchange Transactions.
OMB Number: 3064–0182.
Form Number: None.
Affected Public: Insured state nonmember banks and state savings associations.
Burden Estimate:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Frequency of response	Estimated total annual responses	Estimated time per response (hours)	Estimated annual burden (hours)
Reporting Requirements	Reporting	Mandatory	1	On Occasion	1	16	16
<i>Total Reporting Burden</i>							16
Third-Party Disclosure Requirements	Third-Party Disclosure.	Mandatory	1	On Occasion	1	166	166
<i>Total Third-Party Disclosure Burden</i>							166
Recordkeeping Requirements	Record-keeping.	Mandatory	1	On Occasion	1	1,332	1,332
<i>Total Recordkeeping Burden</i>							1,332

Total Estimated Annual Burden: 1,514 hours.
General Description of Collection: This information collection implements section 742(c)(2) of the Dodd-Frank Act (7 U.S.C. 2(c)(2)(E) and FDIC regulations governing retail foreign exchange transactions as set forth at 12 CFR part 349, subpart B. The regulation allows banking organizations under FDIC supervision to engage in off-exchange transactions in foreign currency with retail customers provided they comply with various reporting, recordkeeping and third-party disclosure requirements specified in the rule. If an institution

elects to conduct such transactions, compliance with the information collection is mandatory.
Reporting Requirements—Part 349, subpart B requires that, prior to initiating a retail foreign exchange business; a banking institution must provide the FDIC with a notice certifying that the institution has written policies and procedures, and risk measurement and management systems and controls in place to ensure that retail foreign exchange transactions are conducted in a safe and sound manner. The institution must also provide information about how it

intends to manage customer due diligence, new product approvals and haircuts applied to noncash margin.
Recordkeeping Requirements—Part 349 subpart B requires that institutions engaging in retail foreign exchange transactions keep full, complete and systematic records of account, financial ledger, transaction, memorandum orders and post execution allocations of bunched orders. In addition, institutions are required to maintain records regarding their ratio of profitable accounts, possible violations of law, records of noncash margin and monthly statements and confirmations issued.

Disclosure Requirements—The regulation requires that, before opening an account that will engage in retail foreign exchange transactions, a banking institution must obtain from each retail foreign exchange customer an acknowledgement of receipt and understanding of a written disclosure specified in the rule and of disclosures about the banking institution’s fees and other charges and of its profitable accounts ratio. The institution must also provide monthly statements to each retail foreign exchange customer and must send confirmation statements following every transaction.

The customer dispute resolution provisions of the regulation require

certain endorsements, acknowledgements and signature language as well as the timely provision of a list of persons qualified to handle a customer’s request for arbitration.

There is no change in the method or substance of the collection. At present no FDIC-supervised institution is engaging in activities that would make them subject to the information collection requirements. The agency is keeping the estimated number of respondents to one (1) as a placeholder in case an institution elects to engage in covered activities in the future. There has been no change in the frequency of response or in the estimated number of hours required to respond.

6. *Title:* Covered Financial Company Asset Purchaser Eligibility Certification.

OMB Number: 3064–0194.

Form Number: 7300/10.

Affected Public: Any individual or entity that is a potential purchaser of assets from (1) the FDIC as receiver for a Covered Financial Company (CFC); or (2) a bridge financial company (BFC) which requires the approval of the FDIC, as receiver for the predecessor CFC and as the sole shareholder of the BFC (e.g., the BFC’s sale of a significant business line).

Burden Estimates:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Estimated frequency of responses	Estimated time per response (minutes)	Estimated annual burden (hours)
Covered Financial Company Asset Sales Purchaser Eligibility Certification.	Reporting	Mandatory	10	On Occasion	30	5

Total Estimated Annual Burden: 5 hours.

General Description of Collection: Assets held by the FDIC in the course of liquidating any covered financial company must not be sold to persons who contributed to the demise of a covered financial company in specified ways (e.g., individuals who profited or engaged in wrongdoing at the expense of the failed institution, or seriously mismanaged the failed institution). 12 CFR part 380 requires prospective purchasers to complete and submit a Purchaser Eligibility Certification (PEC) to the FDIC. The PEC is a self certification by a prospective purchaser that it does not fall into any of the categories of individuals or entities that are prohibited by statute or regulation from purchasing the assets of covered financial companies. The PEC will be required in connection with the sale of assets by the FDIC, as receiver for a CFC, or the sale of assets by a BFC which requires the approval of the FDIC, as receiver for the predecessor CFC and as the sole shareholder of the BFC. There is no change in the methodology or substance of this information collection. The estimated annual burden is unchanged.

Request for Comment

Comments are invited on: (a) Whether the collection of information is

necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
