	<b>Footnotes to the PPNR Metrics Worksheet</b>										
(1)			Provide net-asset data for all quarters, but only if total Retail Assets - all Business Segments exceeds 5% of Total Retail Assets - all Business Segments and Total Retail Assets - all Business revenue exceeded 5% of total revenues in any of the last four actual quarters requested in the PPNR schedule.								
(2)			Provide regional breakdowns for all quarters but only if international revenue exceeded 5% of the total revenue in any of the last four actual quarters requested in the PPNR schedule.								
(3)			Average outstanding principal balance for residential mortgage loans, the BHC/IHC/SLHC services for others.								
(4)			The Weighted Average Life should reflect the current position, the impact of new business activity, as well as the impact of behavioral assumptions such as prepayments or defaults, based on the expected remaining lives, inclusive of behavioral assumptions. It should reflect the weighted average of time to principal actual repayment (as modeled) for all positions in that portfolio, rounded to the nearest monthly term. For revolving products, the WAL should reflect the underlying repayment behavior or assumptions assumed by the institution, which would include contractual repayments, any assumed excess payments or prepayments, and defaults. The WAL for the FR Y-14Q disclosures should reflect the spot balance sheet position for each time period. For the FR Y-14A, given that it covers forecasted time periods, the WAL should be forward look which incorporates the changes to the projected WAL, including new business activity.								
(5)			A rate movement in an environment where the repricing assumption assumed by each of the major deposit products is not restricted by a cap, floor, or zero. Beta should be reported as a balance-weighted average of the betas of the lines that contribute to the roll up point requested, with an as-of date equal to the reporting date.								
(6)			Reference PPNR Net Interest Income worksheet for product definitions.								
(7)			Corresponds to Line Item 7C on the Net Interest Income worksheet.								
(8)			Include both direct and allocated expenses.

The amount included should only reflect collateral rented under operating leases and not include collateral subject to capital financing type leases.								
(21)			Credit cards (including charge cards) - List which Line Item(s) on PPNR Submissions worksheet contain(s) the Cards Rewards/Partner Sharing contra-revenues and/or expenses.

(26)	The term "curve" refers to the reference rate used to price time deposits. Given that the pricing of time deposits is dependent on the term, the institution should provide the overall curve used to price time deposits. If the institution only assumes a single maturity for new issuances, complete the 88B and 88C only, otherwise complete the 88A only.										
(27)	If the institution only assumes a single maturity term for new issuance, then the institution should provide the relative index and spread used to estimate new business pricing in lieu of the curve.
