
APPENDIX B.2 SURVEY OF SNAP STATE AGENCIES (ONLINE VERSION)

Note: This survey incorporates branching logic where differing section introductions and questions will be displayed depending upon whether the respondent is from a State- or County-Administered SNAP agency. In those instances of branching, the section introduction or question for State-Administered SNAP agencies appears first while the corresponding version for County-Administered SNAP agencies follows. The same question will be displayed for both agency types unless specifically identified as a “State-Administered Screenshot” or “County-Administered Screenshot”.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-XXXX. The time required to complete this information collection is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

[FREQUENTLY ASKED QUESTIONS](#)

MMID: 3001

TABLE OF CONTENTS

Thank you for participating in the survey contracted from the U.S Department of Agriculture (USDA) Food and Nutrition Service (FNS) to gain a better understanding of how States safeguard personally identifiable information (PII) of participants in the Supplemental Nutrition and Assistance Program (SNAP). The survey and other data collection efforts will document practices in SNAP State agencies (SAs) located in all 50 States, the District of Columbia, Guam, and the U.S. Virgin Islands. The ultimate purpose of the project is to identify best practices for safeguarding PII that can be shared among SNAP SAs.

This survey includes the following eight sections as they pertain to safeguarding PII:

1. SA Systems Context
2. System Security Plan Information
3. Personnel Policies and Procedures
4. Security Policies and Procedures
5. SNAP Application and Recertification Processes
6. Maintenance and Storage of PII
7. Data Sharing and Transfer of PII
8. Opportunities and Challenges

TABLE OF CONTENTS

Thank you for participating in the survey contracted from the U.S Department of Agriculture (USDA) Food and Nutrition Service (FNS) to gain a better understanding of how States safeguard personally identifiable information (PII) of participants in the Supplemental Nutrition and Assistance Program (SNAP). The survey and other data collection efforts will document practices in SNAP State agencies (SAs) located in all 50 States, the District of Columbia, Guam, and the U.S. Virgin Islands. The ultimate purpose of the project is to identify best practices for safeguarding PII that can be shared among SNAP SAs.

This survey includes the following eight sections as they pertain to safeguarding PII:

1. SA Systems Context
2. System Security Plan Information
3. Personnel Policies and Procedures
4. Security Policies and Procedures
5. SNAP Application and Recertification Processes
6. Maintenance and Storage of PII
7. Data Sharing and Transfer of PII
8. Opportunities and Challenges

Within county-administered systems, the SNAP SAs are responsible for establishing statewide safeguarding requirements in accordance with federal policies, while county-level agencies are given discretion in how to best meet or exceed the requirements set by the SNAP SA. Accordingly, this survey is primarily focused on the statewide safeguarding requirements established by your SA as opposed to the individual requirements established by county-level agencies.

Next

SECTION 1. SA SYSTEMS CONTEXT

Suggested respondents for this section include: Supplemental Nutrition Assistance Program (SNAP) State Agency Director or Chief Information Security Officer from your agency or another central state agency [or an individual designated by that person].

This section asks about your SNAP State agency's (SA's) systems and organizational structure to provide context for the questions on security planning and approaches to protecting SNAP participants' Personally Identifiable Information (PII). For this survey, we define "systems" as general purpose information systems and the individual devices that connect to these systems ([NIST SP 800-171r1](#)).

Questions about your SA's organizational structure include the degree to which SNAP systems are administered at the State or county level and the integration of SNAP systems with systems from other State programs (including those required to share or receive data from SNAP).

The context for implementation includes questions regarding the numbers and positions of staff responsible for SNAP participant PII security, the age and history of the SA's data systems, and the infrastructure available for establishing data use agreements.

[Next](#)

1.1

How has your agency structured its approach for using **systems security professionals** dedicated to protecting SNAP PII?

- System security professionals are located within the agency that administers the SNAP program (often along with other programs)
- Systems security professionals are located within another state agency (such as a Department of Technology Services or an Office of the Chief Information Officer)
- Our agency utilizes a combination of system security professionals located within our agency and systems security professionals located within another state agency
- Other. Please specify

Back

Next

1.2 | What staff member(s) in or outside of your SA are responsible for protecting SNAP PII?

SELECT ALL THAT APPLY

- SNAP IT Director
- Lead Applications Developer
- Systems cybersecurity specialists within the agency that administers the SNAP program (often along with other programs)
- Data analysts
- IT Contractor staff
- Staff from a central state agency (such as the State CIO or CISO Office)
- Other. Please specify

Back

Next

1.3 | In what time period was the main SNAP eligibility system implemented?

- Before 1990
- 1990–1999
- 2000–2009
- 2010–2014
- 2015–2019

Back

Next

1.4 | Do you consider your main SNAP eligibility system to be a **legacy system**?

- Yes
- No

Back

Next

1.5 | Is your SNAP eligibility system integrated with eligibility systems of the following programs?

SELECT ALL THAT APPLY

- Temporary Assistance for Needy Families (TANF)
- Medicaid
- Women, Infants, and Children (WIC)
- Low Income Home Energy Assistance Program (LIHEAP)
- The state's child care program
- The state's child welfare system
- Other. Please specify

Back

Next

Data Matching

SAs are required by law and federal regulations to match or exchange data including PII with other State and federal agencies, as well as institutions such as school districts and law enforcement agencies. The next set of questions asks about your SA's data-matching activities.

1.6 | Against which data sources does your SA match SNAP applicant and recipient data?

SELECT ALL THAT APPLY

NATIONAL DATA SOURCES

- Prisoner Verification System
- Social Security Administration Death Master File
- National Directory of New Hires (NDNH)
- Internal Revenue Service
- Veterans Administration
- Electronic Disqualified Recipient System (eDRS)
- State Data Exchange (SDX)
- Beneficiary Data Exchange (BENDEX)
- Income and Eligibility Verification System (IEVS)
- Public Assistance Reporting Information System (PARIS)
- Other. Please specify

STATE DATA SOURCES

- State death records
- State birth record directory
- State new hire directory
- State or local prison listings
- State warrant management directory
- State parole directory
- State lottery information
- State Department of Motor Vehicles
- State workforce data – unemployment insurance/state quarterly wage information/State employee information
- State child support payments
- State educational agencies
- State law enforcement agencies
- Other. Please specify

Back

Next

1.7 | Do you have data-sharing agreements with each of the agencies your SA shares data with?

- Yes
- No
- Don't know/unsure

Back

Next

1.8 | How often are data-sharing agreements updated?

SELECT ALL THAT APPLY

- Every 6 months
- Once a year
- When the data-sharing agreement is renewed or there is a change in the data sharing processes used by one of the agencies
- Other. Please specify
- Don't know/unsure

Back

Next

1.9

When a data match is requested, what type of applicant/recipient data are commonly used to perform the match?

SELECT ALL THAT APPLY

- Social Security Number
- Applicant/recipient name
- Applicant/recipient date of birth
- Case number
- Another unique identifier used by your SA or other agencies in the State. Please specify:
- Other data to facilitate "probabilistic/fuzzy matching" using a combination of variables. Please specify:
- Don't know/unsure

Audit trails support several security objectives. Which of the following information is captured within your SA's audit trails?

SELECT ALL THAT APPLY

- Timing of system startup and shutdown
- Successful and unsuccessful login attempts
- User actions to access files or applications
- Attempts to access data for which a worker does not have access/permissions
- The activities of system administrators and systems security staff
- Date and time of any **security events**
- Type of security event experienced and its success or failure
- Names of files or applications accessed during a security event
- Other. Please specify
- Not applicable. Our SA does not use audit trails.

We are interested in understanding the extent to which your SA's application and recertification procedures meet the safeguarding requirements specified in FNS Handbook 901 and FNS regulations and policy memos. Please give us your best assessment of whether your SA's security plan incorporates safeguards associated with administering SNAP.

SELECT ONE RESPONSE PER ROW

| | Meeting Requirements, with Room for Improvement | Meeting Requirements | Especially Successful at Meeting Requirements |
|---|---|-----------------------|---|
| Masking PII during data entry | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Implementing time-out features on eligibility system screens containing PII | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Secure delivery of SNAP benefits via EBT | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Matching PII to other data sources for eligibility determination | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Matching PII to other data sources for program integrity purposes | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

SECTION 6. MAINTENANCE AND STORAGE OF PII

Suggested respondents for this section include: Chief Information Security Officer from your agency or another central state agency [or an individual designated by that person].

Questions in this section are about your SA's operations associated with the maintenance and storage of PII, including questions about the safeguards your SA has implemented to prevent unauthorized physical access and the encryption methods used to safeguard PII when it is stored.

TABLE OF CONTENTS

SECTION 6. MAINTENANCE AND STORAGE OF PII

Suggested respondents for this section include: Chief Information Security Officer from your agency or another central state agency [or an individual designated by that person].

Questions in this section are about your SA's statewide requirements associated with the maintenance and storage of PII, including questions about the safeguards your SA has implemented to prevent unauthorized physical access and the encryption methods used to safeguard PII when it is stored.

Back

Next

6.1

Which of the following safeguards has your SA implemented to prevent unauthorized physical access to stored SNAP PII?

SELECT ALL THAT APPLY

- Conducting regular risk assessments of a facility's physical resources
- Identifying critical areas within a facility for implementing physical safeguards (such as areas containing system hardware or software)
- Assessing risk among supporting services (e.g., electrical power); backup media; and other elements required for system operations
- Conducting regular onsite and offsite backups of stored data
- Securely disposing of data after established archiving or retention periods have passed
- Implementing facility-wide security measures on the basis of the level of risk to physical resources
- Regularly reviewing the list of persons with physical access to SNAP PII
- Periodically reviewing physical safeguards for effectiveness
- Periodically reviewing reports and documents that can be printed with PII
- Other. Please specify
- Don't know/unsure

Back

Next

6.2

Which encryption methods are used by your SA to safeguard data when they are stored or when the data are "at rest"?

SELECT ALL THAT APPLY

- Software-based encryption
- Hardware-based encryption
- SA uses another encryption method to safeguard data when they are stored or at rest. Please specify:
- SA does not currently use encryption methods for data that are stored or at rest
- Don't know/unsure

SECTION 7. DATA SHARING AND TRANSFER OF PII

Suggested respondents for this section include: Data Analyst.

Questions in this section ask about your SA's operations associated with sharing and transferring PII. The following questions ask about the entities that PII is shared with and the processes your SA uses to facilitate data sharing.

[Back](#)

[Next](#)

7.1 | Does your SA share or transfer data that includes PII to the following entities?

| | Yes | No | Don't know/unsure |
|---|-----------------------|-----------------------|-----------------------|
| EBT vendors | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| State education agencies or school districts | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Other agencies in the State, such as those with Medicaid, TANF, WIC, child care, and child support programs | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Federal entities, such as Social Security Administration databases, National Directory of New Hires | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Law enforcement agencies | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Research entities (universities, government contractors, etc.) | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Other entities (Specify) <input type="text"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

Back

Next

7.2 | How are data files or information containing SNAP PII transferred to requesting agencies?

SELECT ALL THAT APPLY

- Direct access to the SNAP system (such as application-to-application access) for approved users
- Password encrypted files
- Direct email
- Fax
- SFTP sites
- Physical storage devices (CDs, USB drives, etc.) with requested information
- Other. Please specify
- Don't know/unsure

Back

Next

7.3

Once the data file(s) created by your SA are sent to the requesting agency, what does your SA do with the created data file(s)?

- The file is destroyed immediately after the match is completed.
- The file is kept for a specific amount of time before being destroyed.
- The file is never destroyed.
- Other. Please specify
- Don't know/unsure

Back

Next

7.4 | Which encryption methods are used by your SA to transmit PII data?

SELECT ALL THAT APPLY

- Software-based encryption
- Hardware-based encryption
- My SA does not currently use encryption methods when transmitting PII data.
- Don't know/unsure

Back

Next

7.5

On occasion, SAs may need to share SNAP PII with law enforcement agencies. How does your SA respond to law enforcement requests for PII?

- SNAP PII is shared after law enforcement agencies provide the name of a SNAP recipient.
- SNAP PII is shared after law enforcement agencies provide the name of a SNAP recipient and the recipient appears to be evading law enforcement.
- SNAP PII is shared after law enforcement agencies provide other information. Please specify:
- We do not share data with law enforcement (unless directed to do so via a court order)
- Don't know/unsure

SECTION 8. OPPORTUNITIES AND CHALLENGES

Suggested respondents for this section include: SA Director, Chief Information Security Officer from your agency or another central state agency [or an individual designated by that person] and Data Analyst.

Questions in this final section ask about your SA's opportunities and challenges for safeguarding PII. The following questions ask about your level of satisfaction with your SA's approach to safeguarding PII, possible gaps in its approach, and safeguarding practices at another agency or an external organization that you think would have value for other SAs.

[Back](#)

[Next](#)

8.1

How would you rate your level of satisfaction with your SA's approach to the following domains for safeguarding PII?

Personnel Policies and Procedures: Approaches used to ensure that staff working with PII have met the requisite requirements to access data at approved security levels and receive regular security training and education

- Very Satisfied
- Satisfied
- Neither Satisfied nor Dissatisfied
- Dissatisfied
- Very Dissatisfied
- Don't know/unsure

Security Policies and Procedures: Approaches for implementing a robust security plan; securing PII across hardware, software, and systems; and regularly assessing risk and vulnerabilities and performing security testing

- Very Satisfied
- Satisfied
- Neither Satisfied nor Dissatisfied
- Dissatisfied
- Very Dissatisfied
- Don't know/unsure

Program Operations: Safeguards associated with administering SNAP such as [masking](#) or time-out features, using secure data systems to process information, secure delivery of SNAP benefits via EBT, and protected matching of PII to other data sources for eligibility determination or program integrity purposes

- Very Satisfied
- Satisfied
- Neither Satisfied nor Dissatisfied
- Dissatisfied
- Very Dissatisfied
- Don't know/unsure

Back

Next

8.2 | Which of the following, if any, would your SA consider as possible gaps in its approach to safeguarding PII?

SELECT ALL THAT APPLY

- Lack of resources for SNAP administration overall
- Difficulty of hiring staff with cybersecurity backgrounds
- Lack of or inadequate training on PII
- Difficulties in monitoring system access
- Non-regular or infrequent use of penetration testing
- Auditing requirements of different agencies that either conflict or are burdensome to implement
- Need for various systems upgrades in order to adopt up-to-date security practices
- Other. Please specify
- Not applicable. There are no gaps in our SA's approach.
- Don't know/unsure

Back

Next

8.3

Are there any safeguarding practices not yet discussed, at another agency or an external organization, that you think would have value for some or all SAs, including your own? If so, please identify the State using the practice, the programs involved (if other than SNAP), and the reason you would recommend it.

Back

Next

8.4 | Is there anything else you would like to share regarding safeguarding of SNAP participant PII?
