

**Appendix A1**  
**Authorizing Statutes**

**Food and Nutrition Service, USDA****§246.7**

sign a statement specifying why he/she cannot provide documentation of income. Such a statement is not required when there is no income.

(D) *Verification.* The State or local agency may require verification of information it determines necessary to confirm income eligibility for Program benefits.

(vi) *Adjunct or automatic income eligibility.* (A) The State agency shall accept as income-eligible for the Program any applicant who documents that he/she is:

(1) Certified as fully eligible to receive SNAP benefits under the Food and Nutrition Act of 2008, or certified as fully eligible, or presumptively eligible pending completion of the eligibility determination process, to receive Temporary Assistance for Needy Families (TANF) under Part A of Title IV of the Social Security Act or Medical Assistance (i.e., Medicaid) under Title XIX of the Social Security Act; or

(2) A member of a family that is certified eligible to receive assistance under TANF, or a member of a family in which a pregnant woman or an infant is certified eligible to receive assistance under Medicaid.

(B) The State agency may accept, as evidence of income within Program guidelines, documentation of the applicant's participation in State-administered programs not specified in this paragraph that routinely require documentation of income, provided that those programs have income eligibility guidelines at or below the State agency's Program income guidelines.

(C) Persons who are adjunctively income eligible, as set forth in paragraphs (d)(2)(vi)(A) of this section, shall not be subject to the income limits established under paragraph (d)(1) of this section.

(vii) *Income eligibility of pregnant women.* A pregnant woman who is ineligible for participation in the program because she does not meet income guidelines shall be considered to have satisfied the income guidelines if the guidelines would be met by increasing the number of individuals in her family by the number of embryos or fetuses in utero. The same increased family size may also be used for any of the pregnant woman's categorically eligible

family members. The State agency shall allow applicants to waive this increase in family size.

(viii) *Income eligibility of Indian applicants.* If an Indian State agency (or a non-Indian State agency which acts on behalf of a local agency operated by an Indian organization or the Indian Health Service) submits census data or other reliable documentation demonstrating to FNS that the majority of the Indian households in a local agency's service area have incomes at or below the State agency's income eligibility guidelines, FNS may authorize the State agency to approve the use of an income certification system under which the local Indian agency shall inform each Indian applicant household of the maximum family income allowed for that applicant's family size. The local agency shall ensure that the applicant, or the applicant's parent or caretaker, signs a statement that the applicant's family income does not exceed the maximum. The local agency may verify the income eligibility of any Indian applicant.

(ix) *Are instream migrant farmworkers and their family members required to document income eligibility?* Certain instream migrant farmworkers and their family members with expired Verification of Certification cards shall be declared to satisfy the State agency's income standard and income documentation requirements. Such cases include when income of that instream migrant farmworker is determined at least once every 12 months. Such families shall satisfy the income criteria in any State for any subsequent certification while the migrant is instream during the 12-month period following the determination. The determination can occur either in the migrant's home base area before the migrant has entered the stream for a particular agricultural season, or in an instream area during the agricultural season.

(e) *Nutritional risk.* To be certified as eligible for the Program, applicants who meet the Program's eligibility standards specified in paragraph (c) of this section must be determined to be at nutritional risk. A competent professional authority on the staff of the local agency shall determine if a person is at nutritional risk through a

medical and/or nutritional assessment. This determination may be based on referral data submitted by a competent professional authority not on the staff of the local agency. Nutritional risk data shall be documented in the participant's file and shall be used to assess an applicant's nutritional status and risk; tailor the food package to address nutritional needs; design appropriate nutrition education, including breastfeeding promotion and support; and make referrals to health and social services for follow-up, as necessary and appropriate.

Except as stated in paragraph (e)(1)(v) of this section, at least one determination of nutritional risk must be documented at the time of certification in order for an income eligible applicant to receive WIC benefits.

(1) *Determination of nutritional risk.* (i) *Required nutritional risk data.* (A) At a minimum, height or length and weight measurements shall be performed and/or documented in the applicant's file at the time of certification. In addition, a hematological test for anemia such as a hemoglobin, hematocrit, or free erythrocyte protoporphyrin test shall be performed and/or documented at certification for applicants with no other nutritional risk factor present. For applicants with a qualifying nutritional risk factor present at certification, such test shall be performed and/or documented within 90 days of the date of certification. However, for breastfeeding women 6-12 months postpartum, such hematological tests are not required if a test was performed after the termination of their pregnancy. In addition, such hematological tests are not required, but are permitted, for infants under nine months of age. All infants nine months of age and older (who have not already had a hematological test performed or obtained, between the ages of six and nine months), shall have a hematological test performed between nine and twelve months of age or obtained from referral sources. This hematological test does not have to occur within 90 days of the date of certification. Only one test is required for children between 12 and 24 months of age, and this test should be done 6 months after the infant test, if pos-

sible. At the State or local agency's discretion, the hematological test is not required for children ages two and older who were determined to be within the normal range at their last certification. However, the hematological test shall be performed on such children at least once every 12 months. Hematological test data submitted by a competent professional authority not on the staff of the local agency may be used to establish nutritional risk. However, such referral hematological data must:

(1) Be reflective of a woman applicant's category, meaning the test must have been taken for pregnant women during pregnancy and for postpartum or breastfeeding women following termination of pregnancy;

(2) Conform to the anemia screening schedule for infants and children as outlined in paragraph (e)(1)(ii)(B) of this section; and

(3) Conform to recordkeeping requirements as outlined in paragraph (i)(4) of this section.

(B) Height or length and weight measurements and, with the exceptions specified in paragraph (e)(1)(v) of this section, hematological tests, shall be obtained for all participants, including those who are determined at nutritional risk based solely on the established nutritional risk status of another person, as provided in paragraphs (e)(1)(iv) and (e)(1)(v) of this section.

(ii) *Timing of nutritional risk data.* (A) *Weight and height or length.* Weight and height or length shall be measured not more than 60 days prior to certification for program participation.

(B) *Hematological test for anemia.* (1) For pregnant, breastfeeding, and postpartum women, and child applicants, the hematological test for anemia shall be performed or obtained from referral sources at the time of certification or within 90 days of the date of certification. The hematological test for anemia may be deferred for up to 90 days from the time of certification for applicants who have at least one qualifying nutritional risk factor present at the time of certification. If no qualifying risk factor is identified, a hematological test for anemia must be performed or obtained

to establish and maintain the information clearinghouse, \$200,000 for each of fiscal years 1995 and 1996, \$150,000 for fiscal year 1997, \$100,000 for fiscal year 1998, \$166,000 for each of fiscal years 1999 through 2004, and \$250,000 for each of fiscal years 2010 through 2015. The Secretary shall be entitled to receive the funds and shall accept the funds, without further appropriation.

**[SEC. 27.<sup>23</sup> [42 U.S.C. 1769h] ACCOMMODATION OF THE SPECIAL DIETARY NEEDS OF INDIVIDUALS WITH DISABILITIES.]**

**SEC. 28. [42 U.S.C. 1769i] PROGRAM EVALUATION.**

**(a) PERFORMANCE ASSESSMENTS.—**

**(1) IN GENERAL.—**Subject to the availability of funds made available under paragraph (3), the Secretary, acting through the Administrator of the Food and Nutrition Service, may conduct annual national performance assessments of the meal programs under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.).

**(2) COMPONENTS.—**In conducting an assessment, the Secretary may assess—

**(A)** the cost of producing meals and meal supplements under the programs described in paragraph (1); and

**(B)** the nutrient profile of meals, and status of menu planning practices, under the programs.

**(3) AUTHORIZATION OF APPROPRIATIONS.—**There is authorized to be appropriated to carry out this subsection \$5,000,000 for fiscal year 2004 and each subsequent fiscal year.

**(b) CERTIFICATION IMPROVEMENTS.—**

**(1) IN GENERAL.—**Subject to the availability of funds made available under paragraph (5), the Secretary, acting through the Administrator of the Food and Nutrition Service, shall conduct a study of the feasibility of improving the certification process used for the school lunch program established under this Act.

**(2) PILOT PROJECTS.—**In carrying out this subsection, the Secretary may conduct pilot projects to improve the certification process used for the school lunch program.

**(3) COMPONENTS.—**In carrying out this subsection, the Secretary shall examine the use of—

**(A)** other income reporting systems;

**(B)** an integrated benefit eligibility determination process managed by a single agency;

**(C)** income or program participation data gathered by State or local agencies; and

**(D)** other options determined by the Secretary.

**(4) WAIVERS.—**

**(A) IN GENERAL.—**Subject to subparagraph (B), the Secretary may waive such provisions of this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) as are necessary to carry out this subsection.

**(B) PROVISIONS.—**The protections of section 9(b)(6) shall apply to any study or pilot project carried out under this subsection.

<sup>23</sup> Sec. 27 repealed by sec. 441(a)(14) of P.L. 111-296, 124 Stat. 3264, Dec. 13, 2010.

(5) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subsection such sums as are necessary.

(c) COOPERATION WITH PROGRAM RESEARCH AND EVALUATION.—States, State educational agencies, local educational agencies, schools, institutions, facilities, and contractors participating in programs authorized under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) shall cooperate with officials and contractors acting on behalf of the Secretary, in the conduct of evaluations and studies under those Acts.

**SEC. 29. [42 U.S.C. 1769j] ENSURING SAFETY OF SCHOOL MEALS.**

(a) FOOD AND NUTRITION SERVICE.—Not later than 1 year after the date of enactment of the Healthy, Hunger-Free Kids Act of 2010, the Secretary, acting through the Administrator of the Food and Nutrition Service, shall—

(1) in consultation with the Administrator of the Agricultural Marketing Service and the Administrator of the Farm Service Agency, develop guidelines to determine the circumstances under which it is appropriate for the Secretary to institute an administrative hold on suspect foods purchased by the Secretary that are being used in school meal programs under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.);

(2) work with States to explore ways for the States to increase the timeliness of notification of food recalls to schools and school food authorities;

(3) improve the timeliness and completeness of direct communication between the Food and Nutrition Service and States about holds and recalls, such as through the commodity alert system of the Food and Nutrition Service; and

(4) establish a timeframe to improve the commodity hold and recall procedures of the Department of Agriculture to address the role of processors and determine the involvement of distributors with processed products that may contain recalled ingredients, to facilitate the provision of more timely and complete information to schools.

(b) FOOD SAFETY AND INSPECTION SERVICE.—Not later than 1 year after the date of enactment of the Healthy, Hunger-Free Kids Act of 2010, the Secretary, acting through the Administrator of the Food Safety and Inspection Service, shall revise the procedures of the Food Safety and Inspection Service to ensure that schools are included in effectiveness checks.
