<p>11 Describe the purpose of the system.</p>	<p>The WISEWOMAN Reporting System is used by CDC funded WISEWOMAN programs in States and tribal organizations to submit Minimum Data Elements (MDEs) and other program related data.</p>
<p>12 Describe the type of information the system will collect, maintain (store), or share. (Subsequent questions will identify if this information is PII and ask about the specific data elements.)</p>	<p>The system will maintain the email address of the awardee staff member uploading data. MDEs include items relating to screening and assessment, health coaching, and lifestyle programs.</p>
<p>13 Provide an overview of the system and describe the information it will collect, maintain (store), or share, either permanently or temporarily.</p>	<p>The email address is used for authentication to the system. User credentials (email address and password) are maintained temporarily until system access is no longer needed.</p> <p>MDEs are a set of standardized data variables maintained and shared to ensure cardiovascular disease risk factor information is collected for each participant. CDC does not require awardees to collect direct participant-level identifying information to be reported. MDEs serve the purposes of describing, monitoring, and assessing individual and program progress. MDEs are collected at the clinical provider level in States and tribal organizations, among low-income, uninsured and underinsured women ages 40 to 64. MDEs include information about the screening site, client demographics, risk factors and clinical assessment, and participation in health coaching and lifestyle programs. Health outcome measures assessed include, but are not limited to, systolic and diastolic blood pressure readings, total cholesterol, weight, smoking status, nutrition, and physical activity variables. The written progress report, submitted annually, is primarily a narrative description of the program's activities and accomplishments and is a requirement for awardees as outlined in the Funding Opportunity Announcement.</p>
