

days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health, Office of the Director, Office of Acquisitions and Logistics Management, Small Business Program Office, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995 unless it displays a currently valid OMB control number

In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: Collection of grant and contract data that may be of interest to Historically Black Colleges and Universities (HBCUs) and small businesses, 0925 0767, exp., date 05/31/

2023, REVISION, Office of the Director, Office of Acquisitions and Logistics Management, Small Business Program Office, National Institutes of Health (NIH).

Need and Use of Information Collection: The revision includes registration for system access and smart matching of opportunities between HBCUs and small business. Additionally, the revision provides reporting functionality within the system that provides valuable insight to the NIH SBPO about the HBCUs and small businesses. The HBCUs and teaming partners are required to complete an application to participate in the Path to Excellence and Innovation (PEI) initiative. Presidential Executive Order 13779, *The White House Initiative to Promote Excellence and Innovation at HBCUs*, mandates agencies to assist in strengthening HBCU's ability for equitable participation in federal programs and explore new ways to improve the relationship between the federal government and HBCUs. This

initiative establishes how each agency intends to increase the capacity of HBCUs to compete effectively for federal grants, contracts, and cooperative agreements.

PEI is a comprehensive program to increase the capacity of HBCUs as they pursue funding opportunities at NIH. The PEI provides a platform to increase transparency between HBCUs and NIH by promoting outreach events and training opportunities while providing technical assistance. Through this initiative the SBPO will assist HBCUs in identifying NIH contracts, grants, and other funding programs to increase their institutional biomedical research capacity. Currently, there are six HBCU participants and each selected a minimum of one small business teaming partner to pursue NIH funding opportunities with.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 186.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Type of respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hour
HBCU Pre-Solicitation Portal for Contracts and Grants.	Private Sector	13	18	45/60	176
Application for Small Business	Private Sector	6	1	45/60	5
Application for Universities	Private Sector	7	1	45/60	5
Total	13	247	186

Dated: October 19, 2020.
Lawrence A. Tabak,
Principal Deputy Director, National Institutes of Health.

Submission for OMB Review; 30-Day Comment Request Identifying Experts in Prevention Science Methods To Include on NIH Review Panels, (Office of the Director, Office of Disease Prevention)

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995, the National

Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Ms. Keisha L. Shropshire, ODP Project Clearance

Liaison, NIH Office of Disease Prevention, 6100 Executive Blvd., Room 2B03, Bethesda, MD 20892 or call (301) 827-5561 or email your request, including your address, to odp_prapubliccomments@od.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on August 6, 2020, page 47805 (85 FR 47805) and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The Office of Disease Prevention (ODP), National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: Identifying Experts in Prevention Science Methods to Include on NIH Review Panels, OMB# 0925-0728—REVISION, exp. 11/30/2020, Office of Disease Prevention (ODP), National Institutes of Health (NIH).

Need and Use of Information Collection: The Office of Disease Prevention (ODP) is the lead Office at the National Institutes of Health (NIH) responsible for assessing, facilitating, and stimulating research in disease prevention and health promotion, and disseminating the results of this research to improve public health. Prevention is preferable to treatment, and research on disease prevention is an important part of the NIH's mission. The knowledge gained from this research

leads to stronger clinical practice, health policy, and community health programs. ODP collaborates with NIH, other Department of Health and Human Services (HHS) agencies, and other public and private partners to achieve the Office's mission and goals. One of ODP's priorities is to promote the use of the best available methods in prevention research and support the development of better study designs and research methods. One of our strategies is to help NIH Institutes, Centers, and Offices identify experts in prevention science methods to include on their peer review panels. This strengthens the panels and improves the quality of the prevention-related research supported by NIH. To identify experts in prevention science methods, we have developed online software that allows us to collect scientists' names, contact information, and resumes, as well as to have those scientists identify their level of expertise in a variety of prevention science methods and content areas. The data are used to populate a web-based tool that NIH staff can use to identify

scientists with prevention-related research expertise in specific research methods and study designs for invitation to serve as a reviewer on an NIH study section. This system is also shared with review staff from other HHS agencies, to use in the same way. This OMB revision request is for the continued collection of existing data and to update the Prevention Research Expertise Survey (PRES) tool in order to capture areas of expertise not previously collected in the current survey, including additional study design topics, research methods, content topics, and settings in which the respondent's research is performed. The revised PRES also simplifies a question about the respondent's previous NIH review experience and asks researchers who have already completed previous versions of the survey to update their information based on the revised topics.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 417.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hour
New Investigators	600	1	25/60	250
Returning Investigators (to update information)	1,000	1	10/60	167
Total	1,600	417

Dated: October 19, 2020.

Lawrence A. Tabak,

Principal Deputy Director, National Institutes of Health.

National Institute on Aging; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material,

and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute on Aging Special Emphasis Panel; Prodromal synucleinopathies—Part 1.

Date: November 3, 2020.

Time: 11:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute on Aging, Gateway Building, 7201 Wisconsin Avenue, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Birgit Neuhuber, Ph.D., Scientific Review Officer, Scientific Review Branch, National Institute on Aging, National Institutes of Health, 7201 Wisconsin Avenue, Gateway Building, Suite 2W200, Bethesda, MD 20892, (301) 480-1266, neuhuber@ninds.nih.gov.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.

Name of Committee: National Institute on Aging Special Emphasis Panel; Prodromal synucleinopathies—Part 2.

Date: November 9, 2020.

Time: 11:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute on Aging, Gateway Building, 7201 Wisconsin Avenue, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Birgit Neuhuber, Ph.D., Scientific Review Officer, Scientific Review Branch, National Institute on Aging, National Institutes of Health, 7201 Wisconsin Avenue, Gateway Building, Suite 2W200, Bethesda, MD 20892, (301) 480-1266, neuhuber@ninds.nih.gov.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.

(Catalogue of Federal Domestic Assistance Program Nos. 93.866, Aging Research, National Institutes of Health, HHS)

Dated: October 20, 2020.

Miguelina Perez,

Program Analyst, Office of Federal Advisory Committee Policy.
