

Commercial Driver's License (CDL) Skills Testing Delays: 2021 Survey

OMB Control Number: 2126-0065

Expiration Date: **[TBD]**

Welcome to Survey

The Federal Motor Carrier Safety Administration (FMCSA) would like to thank you for taking the time to complete this survey. You will be able to stop the survey and resume it at a later date and time, as needed. You may only complete the survey once, so please review your answers, if needed, before submitting them. FMCSA appreciates you taking time out of your busy schedule to assist us in this important study effort.

The 2021 Survey collects data on calendar years 2017, 2018, 2019, and 2020 will close on **[Insert closing date]**.

OMB Control Number: 2126-0065

EXPIRATION DATE: 02/29/2019

Public Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2126-0065. Public reporting for this collection of information is estimated to be approximately 42 minutes per response, including the time for reviewing instructions, gathering the data needed, and completing and reviewing the collection of information. All responses to this collection of information are voluntary. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Federal Motor Carrier Safety Administration, MC-RRA, 1200 New Jersey Avenue, SE, Washington, D.C. 20590.

Survey Purpose

FMCSA is conducting this survey to fulfill a congressional requirement to report on CDL skills test delays in each State. This survey will be conducted annually, as required by the Fixing America's Surface Transportation (FAST) Act of 2015 (Pub. L. 114-94, Dec. 4, 2015, 49 USC 31305 note).

This survey is intended to identify delays in scheduling CDL skills tests in your State. As mandated by Congress, FMCSA will conduct this survey annually until 2020, or as directed otherwise.

The following page contains instructions and definitions, which are provided to help you respond to this survey efficiently and accurately. Should you have additional questions, you may reach out to Nicole Michel (nicole.michel@dot.gov) or Dan Britton (dan.britton@dot.gov).

Please select your State before beginning this Survey.

Please select an option from below.

- I would like to go through the full survey and answer all questions.
- I would like to provide only general feedback and comments.

Instructions and Definitions

Instructions

Some questions are optional, and are noted throughout the survey. These questions should be skipped only if you do not have the ability to answer it (for example, the rationale for a test being canceled is not captured in your State). The more information, and the more accurate the information, that you provide will help FMCSA to accurately characterize the CDL skills testing process in your State.

Please pay attention to the dates, which are underlined throughout the survey. Some questions will ask about the previous year and some will ask about the current year. Some of these questions will only need to be asked once to provide a baseline for the first report, and will be removed from future surveys. In future years, you may choose “No change” on the background information section to note that your previous year’s answer remains the same.

FMCSA has attempted to provide you with several options for responding to questions about both the delay times and the test resources because FMCSA understands that each State may collect or capture this information in a different manner. FMCSA is also providing your State the option to participate in a quarterly reporting of the current delay at each test location, which would replace the need to report the average delay for your State (FMCSA would calculate it for you). Please consider this option for future reporting if feasible, as it would allow for further analysis by FMCSA.

This survey will cover five sections: State Laws & Policies, CDL Skills Testing Delays, CDL Skills Testing Volume and Demand, CDL Skills Testing Resources, and General Comments & Feedback, which is optional. While this covers more than what is mandated by Congress, FMCSA has worked to ensure that every question asked on this survey is necessary and useful in reporting. Given the unique characteristics of each State, these must be considered in the report so that delays in scheduling skills testing are not compared blindly across all States.

Definitions

The following definitions are provided to assist you in the completion of this survey.

“Delay” – FMCSA is defining the delay as the number of days between the day an applicant calls to schedule their appointment and the first day with an available test appointment at the testing site. If, for some reason, an applicant chooses not to take the first available appointment, additional time is not included as part of the “delay”. Note: If your State cannot differentiate delays caused by personal preference, just report the delay times as seen. You may note this in the general comments section if you would like. Note:

Mandatory wait times are not included as part of the “delay” and are recorded in the Background Information section.

“Average” – FMCSA intends for your State to provide the usual or typical delay an applicant would experience. Furthermore, a question will be asked on how you calculated this “average”. Please be as specific as possible. FMCSA does not intend to burden you with calculating an exact average, and the welcome letter provided to you with this survey provided some examples of how to report the “average” if your State does not capture this information currently.

“Banking” – There is a question asking about whether or not your State allows applicants to “bank” segments of their skills test. If you are unfamiliar with this terminology, this refers to the ability of an applicant to pass a segment of the skills tests so that if they fail the overall test, they only have to re-take the segment they failed.

“State facilities” and “State examiners” – These terms refer to official government agencies or contractors who report directly to these agencies. Examples include State licensing agencies and State law enforcement agencies.

“Third Party facilities” and “Third Party examiners” – This refers to a non-governmental organization, such as a commercial vehicle training school, which has been authorized to administer CDL skills tests on behalf of the State.

General Comments and Feedback

What factors did $\{q://QID5/ChoiceGroup/SelectedChoices\}$ consider when deciding whether or not to use Third-party testing?

What is the maximum delay in scheduling a CDL skills test that $\{q://QID5/ChoiceGroup/SelectedChoices\}$ feels would be reasonable to both $\{q://QID5/ChoiceGroup/SelectedChoices\}$ and the applicants? Please provide information on possible impacts of delays to both the State and the applicant.

What steps would $\{q://QID5/ChoiceGroup/SelectedChoices\}$ have to take to ensure the average delay time for scheduling a CDL skills test was seven (7) days (i.e., one week) or less? Would this be reasonable for $\{q://QID5/ChoiceGroup/SelectedChoices\}$ to achieve?

If you have additional feedback, comments, or suggestions, please leave them below.
