SUPPORTING DOCUMENTATION

1. COMPLETE BUSINESS PLAN/PRELIMINARY INFORMATION MEMORANDUM

Since DFC supports a variety of transaction structures in many different sectors/industries and countries, it is not possible to provide a standard business plan template. The following checklist details the items that applicants should consider as they prepare their business plans. Please provide as complete a business plan as possible.

Investment/Transaction Summary

- **Investment/Transaction Description/Status** Describe the purpose for which the DFC loan/equity/guaranty is to be used and any development activities completed to date -- investment made to date, market or feasibility studies performed, status of documentation/permits/government consents, environmental studies, past and ongoing consultations with project-affected communities (including disadvantaged and vulnerable groups), etc.

Sector/Target Market/Economics

- **Sector/Industry** Describe the competitive environment in which the investment is being made and any recent or emerging trends that may affect its success.

Transaction Strengths/Risks and Risk Mitigation

- **Strengths** Describe those factors that contribute to the long-term viability of the investment/transaction.
- **Risks** Describe risks such as credit risks, sector/market risks and competition, operational and management risks, political/economic risks, legal/regulatory risks and environmental, social and human rights risks and what steps the Investee Party will take to mitigate such risks and provide access to accountability and remedy for negative project impacts on individuals and communities.

2. Financial Projections Model

The financial projections model should cover at least the entire proposed term of the DFC loan/guaranty or expected holding period of DFC equity. It should include detailed, financially-justifiable assumptions on all key drivers of the proposed transaction and should clearly demonstrate how funds provided or guaranteed by DFC will be repaid or recouped successfully. The model should also include financial statements (i.e., balance sheet, income statement, cash flow statement) and ratios or other financial measurements relevant to the industry/transaction type being modeled. In addition, the model should be structured in such a way as to make it simple to adjust key assumptions and thereby analyze potential financial performance under adverse conditions.

If the applicant does not already have a financial projections model that meets these criteria, DFC has provided a template ([link to model template and user guides](#)) that may assist some applicants in creating a model. Please note that this template is not designed to model financial institutions or other entities with lending or leasing portfolios.

3. Historical Financial Statements

Evaluating the financial strength of parties upon which the transaction will depend (primary investors, guarantors, key contractors or off-takers) is an important part of DFC's evaluation. For each such party, please provide financial statements, preferably prepared in accordance with U.S. Generally Accepted Accounting Principles ("U.S. GAAP") or International Financial Reporting Standards ("IFRS"). Financial Statements must be prepared in English or accompanied by a certified English translation.
