

OMB Control Number (0551-0047)

Expiration Date:

Creating the QSP Proposal in UES

USDA FAS OTP POD GPB

The public reporting burden for this information collection is estimated to be 10 hours per response. This burden estimate includes time for reviewing instructions, researching existing data sources, gathering and maintaining the needed data, and completing and submitting the information. Send comments regarding the accuracy of this burden estimate and any suggestions for reducing the burden to: U.S. Department of Agriculture, Foreign Agricultural Service, Attn: **OMB Number (0551-0047)**, 1400 Independence Avenue, SW, Washington, DC 20250-1023. You are not required to respond to this collection of information unless a valid OMB control number is displayed.

1. Log in to the Unified Export Strategy (UES) with appropriate credentials.

This Guide assumes you have the proper credentials to add Proposals to the UES.

Make sure to select the appropriate year for a new QSP proposal.

2. Begin by clicking once on the [MARKET DEFINITION](#) link. Then click on the [CREATE NEW MARKET DEFINITION](#) link or [ADD MARKET DEFINITION LINK](#) (IF USING FAS STANDARD MARKET INFO).

The green boxes at the top of the UES pages provide instruction on the drop down selections.

Market Definition

"Market Definitions" are equivalents of "Regions" in legacy UES system with minor changes. Even single countries have to be Definitions in the upgraded system.

Below is the list of Market Definitions defined for this application. You may select an action using the link buttons to the right of Use the 'Create New Market Definition' button located at the top right side of the list to create a new definition. You may choose definition as defined by the FAS using the 'Add FAS Market Definition' button.

The 'Targeted Market' link against a Market Definition navigates to the list of Targeted Markets identified for that Market.

[Create New Market Definition](#)

Market Title	Market Type	Action
Afghanistan	Geographic Market	Edit View Delete Targeted Market
dsdffb	Geographic Market	Edit View Delete Targeted Market
FAS-ASIA	FAS Standard	Edit View Delete Targeted Market
FAS-EUROPE	FAS Standard	Edit View Delete Targeted Market
Global	Geographic Market	Edit View Delete Targeted Market

A Participant has the choice of defining their own Market Definitions or selecting from the FAS defined Standard Markets. The latter are pre-defined Market Definitions where the Title, Kind, Description and Country association is FAS determined. (Since FAS is often requested to provide reports and ad-hoc data about countries where UES programs support industry efforts, FAS uses these standard markets to encourage participants to select from them for standardization purposes although that is not mandatory). Single Countries too will need to be created as Market Definitions to be used in the Plan.

Market Title – Enter a descriptive label that uniquely represents the Market where the proposed activities will take place. The label should depict the geographical area or marketing characteristic being addressed.

Market Description – Enter text that serves as a description of the Market.

Market Kind – Choose from dropdown a value that best describes the Market.

Yellow fields are always required fields in UES.

Market Title: ASIA

Market Description: India Fish heads

Market Kind: Geographic Market *

Available Countries

- Afghanistan
- Albania
- Algeria
- American Samoa
- Andorra
- Angola
- Anguilla
- Antigua and Barbuda
- Argentina

Create Promoted Commodity

Use this screen to create a new Promoted Commodity. This replaces the "Analysis of U.S. and World Market Situation" in the legacy system. It asks for the same information, but breaks it down into more detailed sections. If last year's UES information is still current, you may just cut and paste into the relevant sections.

Enter the necessary information in the appropriate fields and click **SAVE** button

The new commodity created appears on the list page. Select 'Edit' against it to edit any information or enter Metrical information for that Promoted Commodity. Metrical data can be entered on the **Metrics** tab. Navigate to Metrics tab by directly clicking on the tab.

Commodity

Metrics

Commodity Aggregate: *

Promoted Commodity Name: *

Value Added Definition:

U.S. Origin %: *

Commodity Aggregate: *

Promoted Commodity Name: *

Value Added Definition:

U.S. Origin %: *

8. Select your promoted commodity. If more than one commodity within the list is selected, select ALL (the first option). Click once on the save button when finished.

Click on the Metrics tab to add metric information.

Edit Promoted Commodity

Use this screen to enter/ edit **Promoted Commodity Metrics**. Metrics data can be entered line by line using the 'Create New' link or can be copied from a spreadsheet using 'Create in Spreadsheet Mode' link, both located on the top right of the list. You may select an action using the link button to the right of the metrics defined. Remember to include the **Source(s)** of the Metrical data and identify the **Volume Unit**, if applicable.

HINT: Additional columns will appear in Metrics for display. This is because the system calculates and displays the percentages from the data entered.

8a. Select appropriate unit from Volume Unit drop-down box.

Explicit information on input can be found in the UES Participant User Manual, pp. 57-59

Activity Create

Activities proposed to address the identified Constraint can be defined here. Start by choosing the appropriate Program, Targeted Market and Constraint. Remember to identify the related Proposal when creating an EMP/TASC/QSP Activity.

Note:

1. Appropriate Targeted Markets and Constraints must be identified prior to creating an Activity. If you haven't already created, you will not find them on this page. In that case, please goto Targeted Markets/ Constraints page from Plan Sections Index to create them.
2. Respective Proposals have to be created prior to identifying EMP, TASC or QSP Activities.

You may chose to use an Activity Definition to create the Activity. To do so, chose the Activity Definition from the list and select, '**Import Activity Definition**' button to copy the Definition information to the Activity. Enter appropriate information and select the 'Create' button to create the Activity. Once created, the other tabs will appear accordingly, where more information pertaining to the activity can be entered. Tabs may vary by Program.

Note: Funded Amount for an Activity should be entered only after Allocation to that Program has been made.

27. Pull the basic information in the appropriate fields.

QSP Proposals

Below is the list of **Proposals** defined by the Participant for an applicable Program and Program Year. Choose the appropriate action link buttons to the right of the Proposals to perform the action specific to your UES Role. Select the **'Create New'** link on the top right of the list to create a new Proposal.

Please note that **you can not prepare** a new proposal until you have created the Market Definition, Promoted Commodity, Target Market (combination of Market Definition and Promoted Commodity), Constraint, and specific Performance Measures for your current plan year.
