Periodic Report 2 – Addition of Commodities to FAVIR

With the amendment of 7 CFR 319 and subsequent reinstatement of information collection 0579-0049 in March 2019, APHIS began to provide OMB with periodic reports of commodities added to the APHIS FAVIR (Fruits and Vegetables Import Requirements) database as they are no longer being reported as separate information collection requests.

During the period October 2019 to September 2020, APHIS published four notices adding commodities to the FAVIR database. In total, 197 respondents, 4,104 responses, and 8,037 hours of burden were added to 0579-0049. The additions are listed by activity in the attached 0579-0049 Nonsub Change 4, Periodic Report 2 APHIS 71.xlsx spreadsheet.

<u>Commodity</u>	<u>Citation</u>	<u>Published</u>	<u>Responses</u>	<u>Burden</u>
Fresh Guava From Taiwan	84 FR 55544	10/17/2019	293	1,362
Fresh Jujube From China	85 FR 14453	03/12/2020	125	1,028
