SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

Regulations at 50 CFR 648.8 and 697.8 require that owners of vessels over 25 ft (7.6 m) in registered length that have Federal permits to fish in the Greater Atlantic Region display the vessel's name and official number. The name and number must be of a specific size at specified locations: the vessel name must be affixed to the port and starboard sides of the bow and, if possible, on its stern. The official number must be displayed on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck so as to be clearly visible from enforcement vessels and aircraft. The success of fisheries management programs depends upon regulatory compliance. The vessel identification requirement, which is required of all federally permitted fishing vessels in the Greater Atlantic region, is essential to facilitate enforcement. The ability to link fishing or other activities to a vessel owner or operator is crucial to the enforcement of regulations issued under the authority of the Magnuson-Stevens Fisheries Conservation and Management Act. When this information is clearly displayed, it enables enforcement personnel to easily identify Federal permit holders while engaged in fishing.

II. Method of Collection

No information is submitted to the National Marine Fisheries Service (NMFS) as a result of this collection. The vessel's identification information must be affixed to the vessel in the designated locations, as specified in the regulations.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Services (NMFS), Alaska Regional Office, is requesting extension of the currently approved information collection for the Annual Trawl Catcher/Processor Economic Data Report (the EDR).

The EDR collects economic data on the information for the Gulf of Alaska Trawl Groundfish Economic Data Report Program (GOA Trawl EDR Program) and for Amendment 80 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area.

The GOA Trawl EDR Program evaluates the economic effects of current and potential future fishery management measures for the GOA trawl fisheries. This program provides NMFS and the North Pacific Fishery Management Council (Council) with baseline economic information on affected harvesters, crew, processors, and communities in the GOA.

Amendment 80 primarily allocates several Bering Sea and Aleutian Islands non-pollock trawl groundfish fisheries among fishing sectors, and facilitates the formation of harvesting cooperatives among vessels in the non-American Fisheries Act (non-AFA) Trawl Catcher/Processor Cooperative Program. This program established a limited access

privilege program for the non-AFA trawl catcher/processor sector.

Data collected through the EDR includes labor information, revenues received, capital and operational expenses, and other operational or financial data. NMFS and the Council use this to assess the economic effects of Amendment 80 on vessels or entities regulated by the non-AFA Trawl Catcher/Processor Cooperative Program, and impacts of major changes in the groundfish management regime, including allocation of prohibited species catch species and target species to harvesting cooperatives.

The EDR is submitted annually by each person who held an Amendment 80 Quota Share permit or was an owner or leaseholder of an Amendment 80 vessel, or was an owner or leaseholder of a vessel named on a License Limitation Program groundfish license with catcher/processor vessel and trawl gear designations and endorsed for the GOA during a calendar year. The EDR requirements are located at 50 CFR 679.94.

II. Method of Collection

Pacific States Marine Fisheries Commission (PSMFC) has been designated by NMFS as the Data Collection Agent. PSMFC mails EDR announcements and filing instructions to respondents by April 1 of each year. Respondents are encouraged to complete the form online on the PSMFC website at www.psmfc.org/goatrawl/. The EDR is also available as a fillable PDF on the PSMFC website and may be submitted by mail or fax.
