c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The Trusted Capital Digital Marketplace (TCDM) application is a website infrastructure designed to collect information from prospective DoD program business applicants and connect businesses and capital. TCDM is a DoD-led whole-of-government program supporting trusted partnerships between critical capability companies and capital providers. TCDM facilitates business relationships between eligible investors ("Capital Providers") and eligible small and medium-sized businesses that have been "downselected" by Department of Defense (DoD) Components based on relevancy, technical merit, business viability, or innovativeness ("Capability Providers"). The program is meant to help "small, innovative companies that do not have the resources to reach sources of capital. Information collected consist of names of business owners, email address, and phone number.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

CUI (e.g. Sensitive Personally Identifiable Information (PII), Tax, Financial, and Proprietary Business Information) is collected to execute the mission of the DoD Trusted Capital program.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Failure to provide the requested information will prevent processing of a respondent's eligibility.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Upon submission, a respondent authorizes the use of data by authorized DoD and contractor personnel with a need to know for purposes of Trusted Capital participation.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

m. What is the authority to collect information? A Federal law or Executive Order must authorize the collection and maintenance of a system of records. For PII not collected or maintained in a system of records, the collection or maintenance of the PII must be necessary to discharge the requirements of a statute or Executive Order.

- (1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be similar.

 - (a) Cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.
 - (b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.
 - (c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

Section 1711 of Public Law 115-91, the National Defense Authorization Act for Fiscal Year 2018.

n. Does this DoD information system or electronic collection have an active and approved Office of Management and Budget (OMB) Control Number?

b. What is the PII confidentiality impact level²? Low Moderate High

¹The definition of PHI involves evaluating conditions listed in the HIPAA. Consult with General Counsel to make this determination.

²Guidance on determining the PII confidentiality impact level, see Section 2.5 "Categorization of PII Using NIST SP 800-122." Use the identified PII confidentiality impact level to apply the appropriate Privacy Overlay low, moderate, or high. This activity may be conducted as part of the categorization exercise that occurs under the Risk Management Framework (RMF). Note that categorization under the RMF is typically conducted using the information types described in NIST Special Publication (SP) 800-60, which are not as granular as the PII data elements listed in the PIA table. Determining the PII confidentiality impact level is most effective when done in collaboration with the Information Owner, Information System Owner, Information System Security Manager, and representatives from the security and privacy organizations, such as the Information System Security Officer (ISSO) and Senior Component Official for Privacy (SCOP) or designees.
