

## REQUEST FOR DETERMINATION OF RESEARCH STATUS

To be completed by the staff member with lead responsibility for the project and approved by branch chief (if applicable) and Division

ADS. A separate PGO funding memo is required if project is research and involves human subjects regardless of the CDC staff role. (1) Use this form to declare: (a) the research status of any project, (b) role or roles of CDC staff **Instructions:** (2) A short summary should be attached offering specific details about the project and the role of staff. (3) Be sure to complete all applicable items, obtain appropriate signatures and submit this form for approval. To Be Determined Tracking Number: (Use PGO number if cooperative agreement, grant, etc.) Date submitted: 04/06/2020 CDC-RFA-DP20-2002 Public Health and Health Systems Partnerships to Increase Colorectal Cancer Title of Project: Screening in Clinical Settings Dates for project period: Dates for funding (if applicable): Beginning: **Beginning:** 06/30/2020 06/30/2020 **Ending:** 06/29/2025 **Ending:** 06/29/2021 Project is (choose one): NOTE: Revision, as used below, refers to any substantive change made to the project including scope of project, funding restrictions, personnel, role of CDC staff member, determination of research status, etc. [X] New [] Revision [] Continuation, without revision(s) Continuation, with revision(s) [] Lead staff member: **Contact information:** Please indicate your role(s) in this project: [X] **Technical monitor** Name: Division: **DCPC Project officer** Dienaba Joseph **Principal** Investigator [] []User ID: DVK5 Telephone: 770-488-3157 investigator Consultant **Scientific Ethics number:** Other (please explain) 19043 Mailstop: S107-4 Medical Officer Are any or all of the activities within this project DESIGNED to contribute to generalizable knowledge (i.e., research)? [X] [] YES NO If YES, list those activities which are research: Is this CDC project research or public health practice (check all that apply)? [] Research [X]Public health practice Check one: Check all that apply:

If RESEARCH involving human subjects, has the project or research activities been reviewed by the CDC IRB for human subjects protection?

[]

[X]

a. [] NO, New project, not yet reviewed

**d.** [] YES, Reviewed and approved by CDC

**Emergency Response** 

**Program evaluation** 

b. [] NO, Existing project, not ready to submit

Human subjects involved

Human subjects not involved

If YES, please list protocol number\_and expiration date

[X]

Surveillance

Other (please explain)

c. [] NO, Submitted for approval

[]

[]

**e.** [] NO, RESEARCH, no CDC investigators (CDC IRB not required)

N/A (Not Applicable) **f.** []

If RESEARCH, list any other CDC staff involved in this project, please include the name, role, and scientific ethics number

|-------|--|-----|--|--|--|--|--|--|
|       | (Note: If a link is created by an investigator even temporarily, for research purposes, this criterion is not met. If a temporary link is created by clinical staff who already have access to the data, this criterion is met). |     |  |  |  |  |  |  |
|       | []   | YES | (there are no identifying information and no unique identifiers or codes)YES |  |  |  |  |  |
|       | Г <u>1</u>   | NO  | (there are identifiers (including codes))                                    |  |  |  |  |  |

- Please prepare and attach a short summary paragraph (<1 page); if this is new:
  - a. Be sure to include the purpose of the project, specific details about the project and the role of the CDC staff member (s) in the project. In explaining one's role as a consultant be particularly careful to identify involvement in things like: study design decisions, oversight of protocol development, participation in review of data collection procedures, and participation in data analysis and/or manuscript preparation, as well as whether there will be access to identifiable or personal data.
  - b. Explain your project status selection (research--non-exempt, exempt, no CDC investigator or not involving human subjects; public health practice). If you selected research not involving human subjects be sure to indicate if the data includes any personal information (e.g., name, SSN), linkable study identification numbers or codes, or geographical information.

This five-year, non-research/public health practice announcement provides funds to recipients to partner with health systems and individual primary care clinics to implement evidence-based interventions (EBIs) to increase colorectal cancer (CRC) screening uptake among applicant defined populations age 50-75 years that have CRC screening rates lower than the national, regional, or local rate.

Recipients will: 1) establish partnerships with health systems and primary care clinics to implement at least two of four EBIs recommended in The Community Guide (client reminders, provider reminders, reduction of structural barriers, and provider assessment and feedback); 2) establish partnerships with organizations that provide expertise to support the implementation of EBIs in primary care clinics; 3) conduct a formal assessment of each clinic's capacity/readiness to implement EBIs; 4) utilize the clinic assessment to select appropriate EBIs to implement; 5) provide resources to partner clinics to provide and support completion of follow-up colonoscopies after a positive or abnormal screening test; and 6) collect and submit high-quality clinic-level data including baseline and annual CRC screening rates.

8. Please list the primary project site and all collaborating site(s).

**Explanation of project components:** 

9. If project involves research that is funded extramurally, list amount of award that should be restricted pending IRB approval and describe which project components will be affected, if known:
