Clinic Baseline and Annual Reporting System (CBARS)

OMB No. 0920-1074
Expiration Date: ##/##/####

Thank you for using the crccp.org website to report data on your partner health systems and clinics. You will use the 'Data Entry' menu to provide baseline and annual information on each clinic, including characteristics of the health system and clinic population, CRC screening rates, and evidence-based interventions and supporting strategies used to increase CRC screening.

If you have any questions or problems with the site, please contact technical support at support@crccp.org.

Public reporting burden of this collection of information is estimated to average 50 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-1074).
