Dear [DIRECTOR OF STATE APPROACH]:

We would like to invite you and other staff at [STATE APPROACH NAME] to contribute to an important new project that the Administration for Children and Families (ACF) within the U.S. Department of Health and Human Services is conducting, called *Assessing Models of Coordinated Services for Low-Income Children and Their Families*. ACF has partnered with Mathematica to conduct this study. The goal of this study is to improve our understanding of approaches to coordinate early care and education with family economic security and/or other health and human services.

We conducted a national scan to identify and describe coordinated services approaches and identified [STATE APPROACH NAME] for the work you do to serve children and families. Based on information we found in public documents and reports, we created a profile about your coordinated services approach. We were so interested to learn about the work you are doing! We have attached the profile to this email and would like to request your help to make sure the information we have is correct. This profile will be used to help inform other people who are operating, or starting, coordinated services approaches. In particular, we hope to use this information to support the work of states engaged in the Preschool Development Grant, Birth through Five grant program. Your efforts to complete this profile could directly benefit other approaches and programs!

**Could you please review the attached profile and share your feedback, including filling in missing information, by [DATE]?**

Thank you in advance for taking the time to review the profile and make any changes. We anticipate it will take up to two hours to confirm and complete the information in the profile. Your participation is voluntary, and any information you share will be considered private to the extent provided by law. We truly appreciate your willingness to help us understand how children and families are being served across the country.
