

## PRIVACY THRESHOLD ANALYSIS (PTA)

# This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance The Privacy Office U.S. Department of Homeland Security Washington, DC 20528 Tel: 202-343-1717

## PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

# Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

### SPECIFIC IC/Forms PTA QUESTIONS

## 1. Purpose of the Information Collection or Form

The purpose of the information collection is to provide an opportunity for an owner, operator, builder, or agent of a unique vessel to present their reasons why a vessel cannot comply with existing International/Inland Navigation Rules and how alternative compliance can be achieved. If appropriate, a Certificate of Alternative Compliance (COAC) in the form of a letter is issued. There is no form associated with this collection. The information is vessel-specific—not PII.

The authority for this collection is 33 U.S. Code 1607 and 2071.

### **Component Privacy Office Recommendation:**

The Alternative Compliance for International and Inland Navigation Rules (33 CFR Parts 81 through 89) collection (1625-0019) is not privacy sensitive. If appropriate, USCG will issue a Certificate of Alternative Compliance (COAC) in the form of a letter which is uploaded/maintained in the vessel specific file within the Marine Information for Safety and Law Enforcement system.

DHS Privacy Office Comments:	
Please describe rationale for privacy compliance determination above.	
The DHS Privacy Office finds that the Alternative Compliance for International and Inland	
Navigation Rules 33 CFR Parts 81 through 89 is a non privacy-sensitive information	
collection. Owners, operators, builders, and agents of a unique vessel are afforded the	
opportunity to provide vessel-specific information reasons why a vessel cannon comply	
with existing International/Inland Navigation Rules. The collection also provides the	
opportunity to outline how alternative compliance can be achieved, in order to generate a	
Certificate of Alternative Compliance (COAC). No PII is associated with this collection,	
therefore no PIA, SORN, or Privacy Act Statement are required.
