The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on March 24, 2020 at 85 FR 16643.

A. Overview of Information Collection

Title of Information Collection: Housing Opportunities for Persons with AIDS (HOPWA): Grant Application Submission, Recordkeeping, and Reporting.

OMB Approval Number: 2506-0133.

Type of Request: Revision of currently approved collection.

Form Number: HUD-40110-B, HUD-40110-C, HUD-40110-D, SF-424, SF424D, SF-LLL, and HUD-2991.

Description of the need for the information and proposed use: The current Paperwork Reduction Act approval under OMB Control No. 2506-0133 covers both the HOPWA formula and competitive grant programs. The competitive grant program includes new competitive grants and renewal grants. This revision would only apply to reporting requirements for new competitive Special Projects of National Significance (SPNS) grants.

The current approval covers reporting for new competitive SPNS grants through HUD-40110-C, the HOPWA Annual Performance Report (APR). This submission requests to add four data elements to be reported annually through the HIV Housing Care Continuum Model Report to be submitted annually and the Housing as an Intervention to Fight AIDS (HIFA) report to be submitted at the end of the

grant period of performance. The additional reporting will allow HOPWA to share lessons learned and promising practices with the public, and uphold the purpose of SPNS grants to be replicable in other similar localities or nationally. The data elements in the HIV Housing Care Continuum Model Report follow Center for Disease Control (CDC) definitions for the HIV Care Continuum and will allow SPNS grantees to collect standardized project data that can be used to compare outcomes with other projects. The HIV Housing Care Continuum Model report will require grantees to collect four client-level data elements for each person with diagnosed HIV receiving HOPWA assistance by type of assistance received through this NOFA. The data elements include:

1. Receipt of Care. Receipt of care is measured as a person with diagnosed HIV receiving HOPWA assistance under this NOFA who had at least one CD4 or viral load test during the operating year.

2. Retained in Care. Retained in care is measured as a person with diagnosed HIV receiving HOPWA assistance under this NOFA who had two or more CD4 or viral load tests, performed at least three months apart during the operating year.

3. Viral Suppression. Viral suppression is measured as a person with diagnosed HIV receiving HOPWA assistance under this NOFA who had a viral load test result of <200 copies/mL at the most recent viral load test during the operating year.

4. Type of HOPWA assistance received. The type of HOPWA assistance received by the person with diagnosed HIV includes any HOPWA assistance for housing or supportive services funded through this NOFA. This data element will provide the denominator for the variety of HIV Housing Care Continuums created through the HIV Housing Care Continuum Model Report. Grantees will be required to separately report receipt of care, retained in care, and viral suppression for persons with diagnosed HIV receiving the following categories of type of HOPWA assistance under this NOFA: Any eligible HOPWA assistance; Housing assistance only; Supportive Services only; Both Housing assistance and Supportive Services; Tenant-based Rental Assistance (TBRA) and Master Leasing only; TBRA, Master Leasing, and Supportive Services; Facility-based Housing only; Facility-based Housing and Supportive Services; Short-term Rent, Mortgage, and Utilities (STRMU) only; STRMU and Supportive Services; Other Housing Activities only; and
