(red for customization)

SCHOOL LETTERHEAD

[Date]

Dear Parent or Guardian,

Our school has accepted an invitation from the National Center for Education Statistics (NCES), part of the U.S. Department of Education, to participate in the Progress in International Reading Literacy Study (PIRLS) this fall. PIRLS provides important information for benchmarking student performance in reading in the United States against countries around the world.

{Insert number} of our 5th grade classes will take part. {This/One of these} is your child's class. I urge you to support this effort by encouraging your child to participate; however, participation in this study is entirely voluntary. Previous experience suggests that students enjoy taking part, and participating students will receive a small gift, which we think they will also like.

It is important for each selected student to take part in the study in order to have an accurate picture of what U.S. students can do in reading. The enclosed summary sheet provides background information about PIRLS, explains what is involved, and gives a phone number and email address to contact with any additional questions.

All of the information collected is protected as required by law. NCES is authorized to conduct this study under the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). All of the information provided by schools, staff, and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). Students and schools are never identified in any reports. All reported statistics refer to the United States as a whole.

Thank you for taking the time to learn about this important study.

Sincerely,

[School Official]

Enclosures: Facts for Parents about PIRLS 2021

The National Center for Education Statistics (NCES) is authorized to conduct this study under the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)

(iii) and 99.35). All of the information provided by school staff and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). In the United States, PIRLS is conducted by NCES, part of the U.S. Department of Education, and the data are being collected by Westat. The U.S. Office of Management and Budget has approved the data collection under OMB # 1850-0645.

SCHOOL LETTERHEAD

[Date]

Estimado padre/madre o tutor,

Nuestra escuela ha aceptado una invitación del Centro Nacional de Estadísticas de la Educación (NCES, por sus siglas en inglés), parte del Departamento de Educación de Estados Unidos, para participar en el Estudio Internacional Sobre el Progreso en el Aprendizaje de la Lectura (PIRLS, por sus siglas en inglés) este otoño. PIRLS proporciona información importante para evaluar el rendimiento de los estudiantes en Estados Unidos en lectura en comparación con otros países del mundo.

Participarán {Insert number} de nuestras clases de 5° grado. {Esta/Una de estas} es la clase de su hijo(a). Quisiéramos pedirle que apoye esta iniciativa animando a su hijo(a) a participar; sin embargo, la participación en este estudio es completamente voluntaria. Las experiencias anteriores sugieren que los estudiantes disfrutan de la participación. Además, los estudiantes que participen recibirán un pequeño regalo que creemos también les gustará.

Para tener una imagen precisa de lo que los estudiantes de cuarto grado en Estados Unidos pueden hacer en lectura, es importante que cada estudiante seleccionado participe en el estudio. El resumen adjunto ofrece información de trasfondo de PIRLS, explica lo que implica la participación en el estudio para cada estudiante seleccionado e incluye un número de teléfono y un correo electrónico de contacto donde usted podrá encontrar respuestas a cualquier pregunta que tenga.

Toda la información que se reúna está protegida, como lo exige la ley. El NCES está autorizado a realizar este estudio de acuerdo con la Ley de reforma de ciencias de la educación de 2002 (ESRA, 2002), Código de Estados Unidos, Título 20, Sección 9543) y a obtener los registros educativos de los estudiantes que mantienen las agencias o instituciones de educación con el propósito de evaluar los programas que cuentan con el apoyo federal de acuerdo con la Ley de derechos de educación y privacidad de las familias (FERPA, artículo 34, secciones 99.31(a)(3)(iii) y 99.35). Toda la información proporcionada por las escuelas, el personal y los estudiantes únicamente se puede usar con fines estadísticos y no se puede dar a conocer ni usar de alguna manera que pueda identificar a los participantes para ningún otro fin, excepto cuando lo exige la ley (20 U.S.C., § 9573 y 6 U.S.C. §151). En los informes nunca se identifica ni a los estudiantes ni a las escuelas. Todas las estadísticas publicadas se refieren a Estados Unidos en conjunto.

Gracias por tomarse el tiempo de informarse acerca de este importante estudio.

Atentamente,

[School Official]

Se adjuntan los siguientes documentos: Información para los padres acerca de PIRLS 2021

El NCES está autorizado a realizar este estudio de acuerdo con la Ley de reforma de ciencias de la educación de 2002 (ESRA, 2002), Código de Estados Unidos, Título 20, Sección 9543.). Toda la información proporcionada por las escuelas, el personal y los estudiantes únicamente se puede usar con fines estadísticos y no se puede dar a conocer ni usar de alguna manera que pueda identificar a los participantes para ningún otro fin, excepto cuando lo exige la ley (20 U.S.C., § 9573 y 6 U.S.C. §151). En Estados Unidos, el Centro Nacional de Estadísticas de la Educación (NCES, por sus siglas en inglés), el cual forma parte del Departamento de Educación de Estados Unidos, realiza el estudio PIRLS y Westat reúne los datos. La Oficina de administración y presupuesto de Estados Unidos ha aprobado la obtención de estos datos bajo el número OMB # 1850-0645.

Facts for Parents about PIRLS 2021

Between October and November of 2021, your child's school will be one of about 250 nationwide taking part in PIRLS 2021. Within each school, 5th grade classrooms were selected randomly to represent the nation's students. All students from selected classrooms are invited to participate, and your child was among those students selected to take part in PIRLS 2021.

What is PIRLS?

PIRLS (Progress in International Reading Literacy Study) is an international assessment that measures student learning in reading. Every five years since 2001, PIRLS documents worldwide trends in the reading knowledge of students. The National Center for Education Statistics (NCES) within the U.S. Department of Education conducts U.S. participation in PIRLS. Along with more than 50 other nations, the U.S. will take part in the 2021 PIRLS cycle as we did in 2001, 2006, 2011, and 2016. For the first time, PIRLS will be completely digital and administered on a tablet with a keyboard. Some students will take a paper and pencil assessment in order to bridge the digital version of PIRLS to the previous paper and pencil version.

What is involved?

PIRLS staff will visit the school and administer the study. The main assessment will take approximately 2.5 hours (including time for the directions and two breaks) and will include an online questionnaire that asks students about themselves and their educational experience.

What are the benefits?

The nation as a whole benefits from PIRLS by having a greater understanding of how the reading knowledge and skills of U.S. students compared with students from other countries. Schools that participate in PIRLS will receive \$200, and each student who participates will receive a small gift.

Who administers PIRLS?

The entire assessment is administered by trained staff from Westat, a research organization under contract to the U.S. Department of Education's National Center for Education Statistics.

All of the information collected is protected as required by law. NCES is authorized to conduct this study under the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). All of the information provided by schools, staff, and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). Students and schools are never identified in any reports. All reported statistics refer to the United States as a whole.

Where can I find out more about PIRLS?

More information about PIRLS is available at the PIRLS website at <http://nces.ed.gov/surveys/PIRLS> or the PIRLS International Study Center website at <http://pirls.org>. Or if you would like to contact a PIRLS staff member directly, please feel free to call the PIRLS Help Desk at 1-855-951-1215 or email us at PIRLS@westat.com.

IES logo

Facts for Parents about PIRLS 2021 – Spanish

Información para los padres acerca del estudio PIRLS 2021

Entre octubre y noviembre de 2021, la escuela de su hijo(a) será una de aproximadamente 250 escuelas en todo el país que participará en el estudio PIRLS 2021. Dentro de cada escuela, se seleccionaron al azar a clases de quinto grado para representar a los estudiantes del país. A todos los estudiantes de las clases seleccionadas se les ha invitado a participar y su hijo(a) está entre los estudiantes seleccionados para participar en el estudio PIRLS 2021.

¿Qué es PIRLS?

El Estudio Internacional Sobre el Progreso en el Aprendizaje de la Lectura o PIRLS por sus siglas en inglés, es una evaluación internacional que mide el aprendizaje de los estudiantes en lectura. Cada cinco años, desde el 2001, PIRLS documenta las tendencias mundiales en el conocimiento de lectura de los estudiantes de cuarto grado. El Centro Nacional de Estadísticas de la Educación (NCES, por sus siglas en inglés) dentro del Departamento de Educación de Estados Unidos facilita la participación de Estados Unidos en PIRLS. Junto con más de 50 países, Estados Unidos participará en el ciclo de PIRLS para el 2021 así como lo hicimos en 2001, 2006, 2011 y 2016. Por primera vez, PIRLS se administrará de manera totalmente electrónica en una tableta con teclado. Algunos estudiantes tomarán la versión impresa de la evaluación para poder conciliar la versión digital de PIRLS con la versión anterior impresa.

¿Qué implica?

El personal de PIRLS visitará la escuela y administrará el estudio. La evaluación principal tomará aproximadamente 2 horas y media e incluirá un cuestionario por Internet en el que se les pregunta a los estudiantes sobre ellos mismos y sobre sus experiencias educativas.

¿Cuáles son los beneficios?

El país en conjunto se beneficia de PIRLS al contar con una mejor comprensión de cómo el conocimiento y las habilidades en lectura de los estudiantes de Estados Unidos se comparan con los estudiantes a nivel mundial. Las escuelas que participen en PIRLS recibirán 200 dólares y cada estudiante que participe recibirá un pequeño regalo.

¿Quién administra PIRLS?

La totalidad de la evaluación la administra personal capacitado de Westat, una compañía de estudios de investigación que tiene un contrato con el Centro Nacional de Estadísticas de la Educación del Departamento de Educación de Estados Unidos.

Toda la información que se reúna está protegida, como lo exige la ley. El NCES está autorizado a realizar este estudio de acuerdo con la Ley de reforma de ciencias de la educación de 2002 (ESRA, 2002), Código de Estados Unidos, Título 20, Sección 9543.). Toda la información proporcionada por las escuelas, el personal y los estudiantes únicamente se puede usar con fines estadísticos y no se puede dar a conocer ni usar de alguna manera que pueda identificar a los participantes para ningún otro fin, excepto

дитини. Якщо необхідно, попрохайте перекласти це повідомлення.

PIRLS 2021 Main Study State Letter [Optional Incentive Information, Optional COVID-19 Clause]

(yellow highlight for mail merge; red for customization)

[Date]

[Title] [Name First] [Name Last]

[Title/Department]

[State]

[Address 1]

[Address 2]

[City], [State] [Zip code]

Dear [Title] [Name Last]:

The United States is participating in an important international study in 2021: the Progress in International Reading Literacy Study (PIRLS). PIRLS has measured trends in reading achievement in countries around the world since 2001 and will be administered digitally for the first time in 2021. To bridge both versions of the assessment, most students will take PIRLS on supplied tablets with keyboards, while others will take it on paper with pencils. Results from PIRLS are used by researchers and policymakers to chart national progress against international standards and other countries around the world, informing national discussions about international competitiveness.

PIRLS is described in more detail in the enclosed materials. In the United States, PIRLS is conducted by the National Center for Education Statistics (NCES), part of the U.S. Department of Education. The U.S. Office of Management and Budget has approved the data collection under OMB#1850-0645. Study findings will not identify participating districts, schools, students, or individual staff. For information on the confidentiality of the data collected, please see the enclosed FAQ.

NCES is in contact with your state assessment director and NAEP State Coordinator to keep them informed about PIRLS and how it fits in with other NCES data collections, and to facilitate recruitment of sampled schools. While participation in this study is voluntary, your support of school participation in your state is invaluable so that the United States has a nationally representative sample of schools across the country. [Participating schools will receive a monetary incentive, and each school's PIRLS school coordinator (the school staff person designated to work with PIRLS staff) will receive \$100 as a thank you for his or her time and effort.]

The coronavirus (COVID-19) pandemic continues to pose significant challenges for state agencies, districts, and schools, while also affecting us all personally. / The recent coronavirus (COVID-19) pandemic continues to have an impact on the way districts and schools operate. NCES recognizes these challenges and the flexible approaches needed to administer PIRLS in 2021. As in previous years, PIRLS representatives will provide significant support to schools by administering the assessment and bringing all necessary materials and equipment, including sanitized tablets on which students take the assessment. PIRLS representatives' top priority is to protect the health and safety of students and school staff. For more information about PIRLS administration COVID-19 protocols, please see the enclosed COVID-19 Protocols document.

If you have questions about the study, please do not hesitate to call Laura Egan at Westat at 1-855-951-1215 or send an email to PIRLS@westat.com. Westat is under contract to NCES to collect the PIRLS data. You may also get more information about this study by contacting Dr. Sheila Thompson at NCES at (202) 245-8330 or sheila.thompson@ed.gov, or by visiting the PIRLS website at <http://nces.ed.gov/surveys/PIRLS>.

Thank you for your time and support of this important international study.

Sincerely,

Peggy G. Carr, Ph.D.
Associate Commissioner, NCES

cc: [State assessment director]
[NAEP State Coordinator]

The U.S. Office of Management and Budget has approved the data collection under OMB # 1850-0645.

PIRLS 2021 Main Study School District Letter [First Tier/Second Tier, Optional COVID-19 Clause]

(yellow highlight for mail merge; red for customization)

[Date]

[Title] [Superintendent First Name] [Superintendent Last Name]

[School District]

[Address 1]

[City], [State] [Zip code]

Dear [Title] [Superintendent Last Name]:

The United States is participating in an important international study in 2021: the Progress in International Reading Literacy Study (PIRLS). PIRLS has measured trends in reading achievement in countries around the world since 2001 and will be administered digitally for the first time in 2021. To bridge both versions of the assessment, most students will take PIRLS on supplied tablets with keyboards, while others will take it on paper with pencils. Results from PIRLS are used by researchers and policymakers to chart national progress against international standards and other countries around the world, informing national discussions about international competitiveness.

I am writing to notify you that one or more schools in your district have been randomly selected to participate in PIRLS in the fall of 2021 and ask for your support of selected schools.

Benefits of Your Support and of Participation

- While participation in this study is voluntary, your support of school participation in your district is invaluable so that the United States has a nationally representative sample of schools across the country.
- Participating schools will receive \$200, and each school's PIRLS school coordinator (the school staff person designated to work with PIRLS staff) will receive \$100 as a thank you for his or her time. / We understand that we are asking schools to participate in PIRLS later in the school year when school calendars are set, <or> We understand that we are asking some schools to participate in PIRLS in addition to participating in the National Assessment of Educational Progress (NAEP), and therefore are offering each school <up to \$800> as a thank you for participation. In addition, each school's PIRLS school coordinator (the school staff person designated to work with PIRLS staff) will receive \$100 as a thank you for his or her time and effort.
- Teachers will receive \$20 as a thank you for completing the questionnaire.
- Each student who participates will receive a small gift as a token of appreciation.

Next Steps

The list of selected schools in your district is attached. I ask for your support of participation in PIRLS. Please include the PIRLS assessment window dates - [Assessment Window Dates] - on your district test calendar. [NAEP State Coordinator], your NAEP State Coordinator, will contact your staff with additional information.

More Information

PIRLS is described in more detail in the enclosed materials. In the United States, PIRLS is conducted by the National Center for Education Statistics (NCES), part of the U.S. Department of Education, and its data collection is administered by Westat in Rockville, Maryland. The U.S. Office of Management and Budget has approved the data collection under OMB#1850-0645.

The coronavirus (COVID-19) pandemic continues to pose significant challenges for districts and schools, while also affecting us all personally. / The recent coronavirus (COVID-19) pandemic continues to have an impact on the way districts and schools operate. NCES recognizes these challenges and the flexible approaches needed to administer PIRLS in 2021. As in previous years, PIRLS representatives will provide significant support to schools by administering the assessment and bringing all necessary materials and equipment, including sanitized tablets on which students take the assessment. PIRLS representatives' top priority is to protect the health and safety of students and school staff. For more information about PIRLS administration COVID-19 protocols, please see the enclosed COVID-19 Protocols document.

If you have any questions, please do not hesitate to contact [NAEP State Coordinator], call the PIRLS Help Desk at 1-855-951-1215, or send an email to PIRLS@westat.com. You may also get more information about this study by contacting Dr. Sheila Thompson at NCES at (202) 245-8330 or sheila.thompson@ed.gov, or by visiting the PIRLS website at <http://nces.ed.gov/surveys/PIRLS>.

I know that I can count on you to help accomplish our goal of 100 percent participation. Thank you for your time and support of this important international study.

Sincerely,

[Name of Chief State School Officer]

The National Center for Education Statistics (NCES) is authorized to conduct this study under the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3) (iii) and 99.35). All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). In the United States, PIRLS is conducted by NCES, part of the U.S. Department of Education, and the data are being collected by Westat. The U.S. Office of Management and Budget has approved the data collection under OMB # 1850-0645.

PIRLS 2021 Main Study Private School District Letter [First Tier/Late Sub or NAEP Overlap, Optional COVID-19 Clause]

(yellow highlight for mail merge; red for customization)

[Date]

[Title] [Superintendent First Name] [Superintendent Last Name]

[School District]

[Address 1]

[City], [State] [Zip code]

Dear [Title] [Superintendent Last Name]:

The United States is participating in an important international study in 2021: the Progress in International Reading Literacy Study (PIRLS). PIRLS has measured trends in reading achievement in countries around the world since 2001 and will be administered digitally for the first time in 2021. To bridge both versions of the assessment, most students will take PIRLS on supplied tablets with keyboards, while others will take it on paper with pencils. Results from PIRLS are used by researchers and policymakers to chart national progress against international standards and other countries around the world, informing national discussions about international competitiveness.

In [DioceseParish], [School Name] has/have been randomly selected to participate in PIRLS in the fall of 2021. I am writing to ask [DioceseParish] to support the participation of [School Name/s].

Benefits of Your Support and of Participation

- While participation in this study is voluntary, your support of school participation in your [DioceseParish] is invaluable so that the United States has a nationally representative sample of schools across the country.
- Private schools account for about 25 percent of U.S. schools and educate about 10 percent of U.S. schoolchildren. Thus, without private schools and their students participating in PIRLS, PIRLS data cannot accurately describe schooling in the United States or continue to measure U.S. trends.
- Participating schools will receive \$800, and each school's PIRLS school coordinator (the school staff person designated to work with PIRLS staff) will receive \$100 as a thank you for his or her time. / We understand that we are asking schools to participate in PIRLS later in the school year when school calendars are set, <or> We understand that we are asking some schools to participate in PIRLS in addition to participating in the National Assessment of Educational Progress (NAEP), and therefore are offering each school <up to \$800> as a thank you for participation. In addition, each school's PIRLS school coordinator (the school staff person designated to work with PIRLS staff) will receive \$100 as a thank you for his or her time and effort.
- Teachers will receive \$20 as a thank you for completing the questionnaire.
- Each student who participates will receive a small gift as a token of appreciation.

Next Steps

Please include the PIRLS assessment window—[Assessment Window Dates]—on the [DioceseParish] test calendar. [Name of representative], a PIRLS representative, will contact your staff with additional information. Additionally, [the principal/principals] at [the] selected school[s] will be notified in the next two weeks to allow them to get the assessment date on their school calendars and incorporate PIRLS into the planned school program.

More Information

PIRLS is described in more detail in the enclosed materials. In the United States, PIRLS is conducted by the National Center for Education Statistics (NCES), part of the U.S. Department of Education, and its data collection is administered by Westat in Rockville, Maryland. The U.S. Office of Management and Budget has approved the data collection under OMB#1850-0645.

The coronavirus (COVID-19) pandemic continues to pose significant challenges for districts and schools, while also affecting us all personally. / The recent coronavirus (COVID-19) pandemic continues to have an impact on the way districts and schools operate. NCES recognizes these challenges and the flexible approaches needed to administer PIRLS in 2021. As in previous years, PIRLS representatives will provide significant support to schools by administering the assessment and bringing all necessary materials and equipment, including sanitized tablets on which students take the assessment. PIRLS representatives' top priority is to protect the health and safety of students and school staff. For more information about PIRLS administration COVID-19 protocols, please see the enclosed COVID-19 Protocols document.

If you have questions about PIRLS, please do not hesitate to call the PIRLS Help Desk at 1-855-951-1215 or send an email to PIRLS@westat.com. You may also get more information about this study by contacting Dr. Sheila Thompson at NCES at (202) 245-8330 or sheila.thompson@ed.gov, or by visiting the PIRLS website at <http://nces.ed.gov/surveys/pirls>.

I know that I can count on you to help accomplish our goal of 100 percent participation. Thank you for your time and support of this important international study.

Sincerely,

Peggy G. Carr, Ph.D.
Associate Commissioner, National Center for Education Statistics

Enclosures/Attachments: PIRLS Folder / PIRLS Brochure, PIRLS COVID-19 Protocols

PIRLS 2021 Main Study Brochure Content: 8 ½ X 11in Tri-fold

Title page: IES Logo

Map of world

Progress in International Reading Literacy Study (PIRLS) 2021

Inside panels:

What is PIRLS?

The Progress in International Reading Literacy Study (PIRLS) is an international assessment and research project designed to measure reading achievement at the fifth-grade level, as well as school and teacher practices related to instruction. PIRLS was previously assessed in 2001, 2006, 2011, and 2016 with the United States participating in all past assessments. In 2021, PIRLS will involve students from more than 50 countries, including the United States. For the first time, PIRLS will be completely electronic and administered on a tablet with a keyboard. This new format for the assessment is called *digitalPIRLS*.

PIRLS is sponsored by the International Association for the Evaluation of Educational Achievement (IEA) and conducted in the United States by the National Center for Education Statistics (NCES), part of the U.S. Department of Education.

Why is PIRLS important?

PIRLS provides a unique opportunity to compare the reading of U.S. fifth-grade students with that of their peers in countries around the world. PIRLS complements what we learn from national assessments by identifying the strengths and weaknesses of student performance relative to students around the world. The results inform national discussions about education as well as international competitiveness.

PIRLS provides valuable benchmark information on how U.S. students compare to students around the world, allows educators and policymakers to examine other education systems for practices that could have applications to the United States, and contributes to ongoing discussions of ways to improve the quality of education of all students.

What type of assessment is PIRLS?

PIRLS is developed through an international consensus-building process involving input from U.S. and international experts in reading and measurement. In a final step, the assessment is endorsed as suitable by all participating countries. The assessment contains a mix of questions: some require students to select appropriate responses, while others require that students provide written answers. Examples of PIRLS items are available at <http://nces.ed.gov/surveys/pirls/released.asp>.

Key findings from PIRLS 2016

At grade 5, the U.S. average reading score (549) was higher than the PIRLS scale centerpoint of 500. The U.S. was among the top 13 education systems (12 education systems had higher averages and 15 were not measurably different) and scored higher, on average, than 30 education systems.

In the new 2016 ePIRLS online assessment the U.S. average score was 557, which was lower than the averages for 3 education systems, higher than the average for 10 education systems, and not measurably different from the averages for 2 education systems.

Back panels:

Other information collected by PIRLS

PIRLS is more than an assessment of student knowledge in reading. PIRLS also considers the context in which learning occurs. Students, teachers, and schools are asked about a variety of aspects of the environments in which content is taught, learned, practiced, and applied. In this way, PIRLS provides each country with a rich source of information on the factors related to reading achievement.

Study Authorization and Confidentiality

All of the information collected is protected as required by law. NCES is authorized to conduct this study under the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). Information collected will help the U.S. Department of Education's ongoing efforts to benchmark student achievement in the United States. Participation is voluntary. All of the information provided by school staff and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). The U.S. Office of Management and Budget has approved the data collection under OMB # 1850-0645. Individual responses will be combined with those from other participants to produce summary statistics and reports.

PIRLS 2021 Main Study FAQ

Progress in International Reading Literacy Study

IES Logo

Frequently Asked Questions

PIRLS 2021

What is PIRLS?

The Progress in International Reading Literacy Study (PIRLS) is an international assessment and research project designed to measure trends in reading achievement at the fifth-grade level as well as school and teacher practices related to instruction. Since 2001, PIRLS has been administered every 5 years. PIRLS 2021, the fifth study in the series, will involve students from more than 50 countries, including the United States. For the first time, PIRLS will be completely electronic and administered on a tablet with a keyboard. This new format for the assessment is called *digitalPIRLS*.

Why was my school selected for participation?

Your school was randomly selected so that the overall U.S. sample will be representative of the overall U.S. school population. The random selection process is important for ensuring that a country's sample accurately reflects its schools and, therefore, can fairly be compared with samples of schools from other countries.

Why should my school and students participate?

PIRLS informs national discussions about education policy as well as international competitiveness. It is important for selected schools to participate because they represent similar U.S. schools across the country. When students participate and give their best effort, PIRLS gets the most accurate measure possible of student achievement in the U.S. to compare with other countries.

Will all our fifth-grade students be asked to participate?

It depends on the number of fifth-grade classrooms in the school. In schools with only one or two such classrooms, all students will be asked to participate. In schools with more than two such classrooms, only students in two randomly selected classrooms will be asked to participate. In addition, some students with special needs or who are English language learners may be excused from the assessment as needed.

Who conducts the PIRLS assessment?

The entire assessment process will be administered by trained staff from Westat, a research organization under contract with the National Center for Education Statistics (NCES) in the U.S. Department of Education. All of the information collected is protected as required by law. NCES is authorized to conduct this study under the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35), and approval of the U.S. Office of Management and Budget under OMB # 1850-0645.

How are the teacher and school questionnaires administered?

The teacher and school questionnaires are administered either online from a secure website or via a hardcopy form. Teacher questionnaires take about 30 minutes to complete and ask teachers questions about their experience, available resources, and instructional practices. School questionnaires take about 35 minutes to complete and ask about school practices and resources.

Do teachers need to help administer the assessment?

No, Westat PIRLS staff will visit the school on the day of the assessment. The Westat PIRLS staff will administer the assessments to students.

Do schools need to provide computer equipment for the test?

No, Westat PIRLS staff will bring all the equipment needed for the test, including tablets, styluses, and keyboards.

When will the assessment be conducted?

PIRLS 2021 will be conducted between October XX and November XX, 2021. Each school will be notified of its scheduled assessment date in summer/fall of 2021. Westat PIRLS staff will work with schools to identify an alternate date should there be a conflict on the given date.

Where will the assessment be conducted?

The assessment will be conducted in the schools that are selected to participate.

How long does the assessment take?

The amount of time spent with students will be approximately 2.5 hours, including time for directions and two breaks. Westat PIRLS staff will need access to the testing area for a total of around 4.25 hours, including time to set up and break down equipment before and after the assessment.

What will happen with the collected data?

The data from the assessment will be used to evaluate how the knowledge and skills of the U.S. students compare to those of their peers in other participating countries. All of the information provided by school staff and students may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). Reports of the findings from the assessment will not identify participating districts, schools, students, or individual staff. Individual responses will be combined with those of other participants to produce summary statistics and reports.

Are schools required by federal law to participate?

School participation is voluntary. However, we hope you will participate in this study so that students like those in your school are accurately and fairly represented.

What are the benefits?

The nation as a whole benefits from PIRLS by having a greater understanding of how the reading knowledge and skills of U.S. students compare with students from other countries. To thank participating schools and individuals for their time and effort, we offer tokens of appreciation: schools that participate in PIRLS will receive \$200 and the school coordinator (staff person designated to assist with the study) will receive \$100. Teachers who complete a survey will receive \$20 Amazon gift cards, and each student who participates will receive a small gift.

Where can I find more information about PIRLS?

Visit the PIRLS website at <http://nces.ed.gov/surveys/pirls/index.asp>.

For additional information about PIRLS 2021, contact the PIRLS U.S. Help Desk at 1-855-951-1215 or email PIRLS@westat.com.

COVID-19 Protocols

The coronavirus (COVID-19) pandemic continues to pose significant challenges for state agencies, districts, and schools, while also affecting us all personally. PIRLS representatives' top priority is to protect the health and safety of students and school staff.

Our COVID-19 mitigation protocol has been developed using CDC guidelines with the input of health professionals. These protocols are intended to be flexible to adapt to the changing landscape presented by COVID-19. PIRLS representatives will work with districts and schools to ensure that their COVID-19 protocols are also followed.

Provided Personal Protective Equipment (PPE)

PIRLS will provide field staff with PPE:

Disposable
Masks

Face
Shields

Disposable
Gloves

Hand
Sanitizer

Sanitizing Wipes
& Spray

To the extent federal, state, or local agencies recommend the use of additional PPE, PIRLS will ensure that field staff are provided with the same.

Sanitizing and PPE Protocols

Multiple times during the assessment day, field staff will follow protocols to:

sanitize testing
equipment and
equipment cases

replace gloves and
masks between
assessment sessions

All used PPE will be discarded in PIRLS-supplied trash bags and removed from the school by field staff.

Field Staff COVID-19 Protocol Training

All field staff will be trained on COVID-19 protocols, including the following:

Donning and removal of PPE

Proper disposal of used PPE

Social distancing requirements

Sanitizing equipment and equipment cases

Other school protocols

Health Monitoring and Testing Protocols

Health monitoring and testing protocols will include the following:

Field staff will be tested for COVID-19 before assessments begin in **October 2021** and regularly throughout the field period assuming commercial availability nationwide.

Field staff will be expected to perform a COVID-19 Daily Checklist of their health and symptoms before reporting for work at a school. Any field staff who do not successfully pass the daily health assessment will not report to school that day, and will be required to either:

- 1 Test negative for COVID-19 in accordance with CDC guidelines.**
- 2 Be free of COVID-19 symptoms for a 14-day period before conducting any assessments in school.**
- 3 Provide written documentation from their healthcare provider releasing their return to work.**

Before entering school buildings, field staff will take their temperature using a non-contact thermometer, and acknowledge that they are symptom-free.

School Protocols

Field staff will follow any and all school-specific required COVID-19 protocols, which may include but not limited to the following:

- 1 Temperature checks and other symptom assessments by the school upon arrival at the school**
- 2 Additional school-required PPE**
- 3 Social distancing guidelines of staff and students**
- 4 Additional sanitizing requirements**
